

# SNOW REMOVAL & EMERGENCY ROUTES

To allow for safe and efficient snow removal, Towamencin Township requires all vehicles, trash cans, and sport equipment to be removed from the street during a winter storm. The Public Works Department follows a snow management plan, which determines the order in which roads are cleared. To avoid being plowed in - facing the road - shovel snow to the right of your driveway. Snow removal operations can damage mailboxes, therefore all mailboxes must be properly secured and placed in accordance with [USPS guidelines](#). Snow emergency routes include the entire length of the road.
