

**TOWAMENCIN TOWNSHIP
MONTGOMERY COUNTY, PENNSYLVANIA**

2025-2026 MS4 ANNUAL REPORT

SEPTEMBER 2026

**PREPARED BY:
ARRO Consulting, Inc.
4259 W. Swamp Road, Suite 410
Doylestown, PA 18902**

ANNUAL MUNICIPAL SEPARATE STORM SEWER SYSTEM (MS4) STATUS REPORT

FOR THE PERIOD July 1, 2025 TO JUNE 30, 2026

GENERAL INFORMATION					
Permittee Name:	Towamencin Township		NPDES Permit No.:	PAI130083	
Mailing Address:	1090 Troxel Road		Effective Date:	12-1-2022	
City, State, Zip:	Lansdale, PA 19446		Expiration Date:	11-30-2027	
MS4 Contact Person:	David Kraynik		Renewal Due Date:	5-30-2027	
Title:	Township Manager		Municipality:	Towamencin Township	
Phone:	215-368-7602		County:	Montgomery County	
Email:	dkraynik@towamencin.org				
Co-Permittees (if applicable):					
Appendix(ces) that permittee is subject to (select all that apply):					
☐ Appendix A ☐ Appendix B ☐ Appendix C ☐ Appendix D ☒ Appendix E ☒ Appendix F					
WATER QUALITY INFORMATION					
Are there any discharges to waters within the Chesapeake Bay Watershed? ☐ Yes ☒ No					
Identify all surface waters that receive stormwater discharges from the permittee's MS4 and provide the requested information (see instructions).					
Receiving Water Name	Ch. 93 Class.	Impaired?	Cause(s)	TMDL?	WLA?
Skippack Creek	TSF, WF	Yes	Siltation and Nutrients	Yes	Yes
Towamencin Creek (Tributary of Skippack Creek)	TSF, WF	Yes	Siltation and Nutrients	Yes	Yes

GENERAL MINIMUM CONTROL MEASURE (MCM) INFORMATION

Have you completed all MCM activities required by the permit for this reporting period? ☒ Yes ☐ No

List the current entity responsible for implementing each MCM of your SWMP, along with contact name and phone number.

MCM	Entity Responsible	Contact Name	Phone
#1 Public Education and Outreach on Storm Water Impacts	Towamencin Township	David Kraynik, Township Manager	215-368- 7602
#2 Public Involvement/Participation	Towamencin Township	David Kraynik, Township Manager	215-368- 7602
#3 Illicit Discharge Detection and Elimination (IDD&E)	Towamencin Township	David Kraynik, Township Manager	215-368- 7602
#4 Construction Site Storm Water Runoff Control	Towamencin Township/ MCCD/PADEP	David Kraynik, Township Manager	215-368- 7602
#5 Post-Construction Storm Water Management in New Development and Redevelopment	Towamencin Township/ MCCD/PADEP	David Kraynik, Township Manager	215-368- 7602
#6 Pollution Prevention / Good Housekeeping	Towamencin Township	Steve McMasters, Public Works	215-368- 7602

MCM #1 – PUBLIC EDUCATION AND OUTREACH ON STORM WATER IMPACTS

BMP #1: Develop, implement and maintain a written Public Education and Outreach Program.

1. For new permittees only, has the written PEOP been developed and implemented within the first year of permit coverage?

☐ Yes ☐ No

2. Date of latest annual review of PEOP: 6/2026, See App A Were updates made? ☐ Yes ☒ No

3. What were the plans and goals for public education and outreach for the reporting period?

Continue to provide information on stormwater and MS4 related issues on the Township website and in the Township newsletters and Enews. Continue to discuss MS4 related issues at public meetings and to provide educational opportunities to employees and volunteers. Continue to provide information at the Township Office and maintain educational signs at Fischer's Park.

4. Did the MS4 achieve its goal(s) for the PEOP during the reporting period? ☒ Yes ☐ No

5. Identify specific plans and goals for public education and outreach for the upcoming year:

The goal of the public education program is to provide stormwater education to residents and businesses within the Township so that they will have an increased awareness about stormwater and the impacts of stormwater discharges on local and downstream waterways and be encouraged to help the Township reduce pollutants to our streams, lakes and rivers. The following steps will be taken to move toward achieving the goal: include discussions of MS4 and stormwater related information at public meetings of the Board of Supervisors and Environmental Advisory Council, include information in the Township Newsletter at least 2 times in the reporting period, continue to provide information on stormwater and MS4 related issues on the Township website and provide educational opportunities to employees and volunteers. In addition, the Township will continue to provide information at the Township Office and maintain

educational signs at Fischer's Park and at the Native Habitat Restoration Project by the Environmental Advisory Committee at the Township Complex.

BMP #2: Develop and maintain lists of target audience groups present within the areas served by your MS4.

1. For new permittees only, have the target audience lists been developed and implemented within the first year of permit coverage?
☐ Yes ☐ No
2. Date of latest annual review of target audience lists: 6/2026 App A Were updates made? ☐ Yes ☒ No

BMP #3: Annually publish at least one educational item on your Stormwater Management Program.

1. For new permittees only, were stormwater educational and informational items produced and published in print and/or on the Internet within the first year of permit coverage?
☒ Yes ☐ No
2. Date of latest annual review of educational materials: 6/2026 Were updates made? ☐ Yes ☒ No
3. Do you have a municipal website? ☒ Yes ☐ No (URL: towamencin.org)

If Yes, what MS4-related material does it contain?

The website includes a description of the MS4 requirements and links to fact sheets on the 6 MCMs. There is a discussion regarding illicit discharges and a telephone number to call if someone observes an illicit discharge. There are links for "Tips for Residents" and "Tips for Contractors" that include a variety of stormwater related issues and how these groups can help improve water quality. There are also links to the PADEP, EPA, MCCD, FEMA and the Center for Watershed Protection. In addition, on the Code Enforcement page of the website there is a link to information on stormwater and the construction industry. (See Appendix B)

4. Describe any other method(s) used during the reporting period to provide information on stormwater to the public:

Discussions are held at public meetings of the Board of Supervisors and the Environmental Advisory Council (EAC) (See Appendix C) regarding stormwater and MS4 related issues. The Township Newsletter includes information on the MS4 Program and stormwater related issues (See Appendix D). Towamencin Township distributes information with an email list which is a result of residents/community members signing up for the email on the Township website. Several of these E-News emails included information on MS4 Related items and Events (See Appendix E). The Township also posts events on their Facebook page (See Appendix F). Educational information is available at the Township Building. The Township has educational signs at Fischers Park regarding wetlands, rain gardens, native plants, and riparian buffers (See Appendix G). Typically, information is made available on Towamencin Day. Towamencin Day was held May 30, 2026. On April 11, 2026, the EAC participated in the stream clean-up with the Perkiomen Watershed Conservancy where community members were encouraged to participate. In addition, Towamencin Township is a member of the Perkiomen Watershed Conservancy and utilizes their services for public education and public participation. The EAC has been working on a Native Habitat Restoration Project at the Municipal Complex. The signage for the meadow restoration is posted along the project with a QR code to additional information on the Township website (Appendix H).

5. Identify specific plans for the publication of stormwater materials for the upcoming year:

The Township will continue to discuss MS4 related items at the Board of Supervisors and Environmental Advisory Council meetings. The educational signs at Fischer's Park will be maintained. The Township Newsletter and E-News emails will continue to include stormwater related information and information will be available at the Township Building.

BMP #4: Distribute stormwater educational materials to the target audiences.

Identify the two additional methods of distributing stormwater educational materials during the previous reporting period (e.g., displays, posters, signs, pamphlets, booklets, brochures, radio, local cable TV, newspaper articles, other advertisements, bill stuffers, posters, presentations, conferences, meetings, fact sheets, giveaways, or storm drain stenciling).

In addition to the website, the Township provides stormwater educational material through the Township Newsletter, the Township E-News distribution, educational signs at Fischer's Park, brochures at the Township Building, discussions at the public meetings of the Board of Supervisors and the Environmental Advisory Council, and through the Perkiomen Watershed Conservancy.

MCM #1 Comments:

MCM #2 – PUBLIC INVOLVEMENT/PARTICIPATION

BMP #1: Develop, implement and maintain a written Public Involvement and Participation Program (PIPP)

1. For new permittees only, was the PIPP developed and implemented within one year of permit coverage?

☐ Yes ☐ No

2. Date of latest annual review of PIPP: 6/2026, See App I

Were updates made? ☒ Yes ☐ No

BMP #2: Advertise to the public and solicit public input on ordinances, SOPs, Pollutant Reduction Plans (PRPs) (if applicable) and TMDL Plans (if applicable), including modifications thereto, prior to adoption or submission to DEP:

1. Was an MS4-related ordinance, SOP, PRP or TMDL Plan developed during the reporting period? ☐ Yes ☒ No
2. If Yes, describe how you advertised the draft document(s) and how you provided opportunities for public review, input and feedback:
3. If an ordinance, SOP or plan was developed or amended during the reporting period, provide the following information:

Ordinance / SOP / Plan Name	Date of Public Notice	Date of Public Hearing	Date Enacted or Submitted to DEP

BMP #3: Regularly solicit public involvement and participation from the target audience groups using available distribution and outreach methods.

1. At least one public meeting or other MS4 event must be held during the 5-year permit coverage period to solicit participation and feedback from target audience groups. Was this meeting or event held during the reporting period?

☐ Yes ☒ No

If Yes, Date of Meeting or Event: March 8, 2023

2. Report instances of cooperation and participation in MS4 activities; presentations the permittee made to local watershed and conservation organizations; and similar instances of participation or coordination with organizations in the community.

As a member of the Perkiomen Watershed Conservancy (PWC), the Township provides public participation opportunities through this organization. Towamencin Day was held May 30, 2026. The Environmental Advisory Council typically provides an educational booth during Towamencin Day and with activities throughout the year.. PWC held a stream clean-up event on April 11, 2026.

A presentation was made at the March 8, 2023 Board of Supervisors meeting that included the status of the Township's MS4 program including discussion of the 6 minimum control measures and the Township's participation in the Skippack Alliance for a joint Pollution Reduction Plan. This meeting fulfills the requirement for at least one public meeting during the permit term.

3. Report activities in which members of the public assisted or participated in the meetings and in the implementation of the SWMP, including education activities or efforts such as cleanups, monitoring, storm drain stenciling, or others.

The public is always welcome to provide public comment on stormwater related issue at the public meetings of the Board of Supervisors and the Environmental Advisory Council. Public involvement opportunities are available through the Township's Environmental Advisory Council and the Perkiomen Watershed Conservancy including their riparian buffer planting events, stream clean-up events, invasive species removal events, and other educational opportunities.

MCM #2 Comments:

MCM #3 – ILLICIT DISCHARGE DETECTION AND ELIMINATION (IDD&E)

BMP #1: Develop and implement a written program for the detection, elimination, and prevention of illicit discharges into the regulated small MS4.

1. For new permittees only, was the written IDD&E program developed within one year of permit coverage?

☐ Yes ☐ No

2. Date of latest annual review of IDD&E program: 6/2026, App J Were updates made? ☐ Yes ☒ No

BMP #2: Develop and maintain map(s) that show permittee and urbanized area boundaries, the location of all outfalls and, if applicable, observation points, and the locations and names of all surface waters that receive discharges from those outfalls. Outfalls and observation points shall be numbered on the map(s).

1. Have you completed a map(s) that includes all components of BMP #2? ☒ Yes ☐ No

If Yes and you are a new permittee and have not submitted the map(s) previously, attach the map(s) to this report.

If No, date by which permittee expects map(s) to be completed:

2. Date of last update or revision to map(s): 10-14-2019

3. Total No. of Outfalls in MS4: 213 Total No. of Outfalls Mapped: 213

4. Total No. of Observation Points:	Total No. of Observation Points Mapped:
5. During the reporting period, have you identified any existing outfalls that have not been previously reported to DEP in an NOI, application or annual report, or are any new MS4 outfalls proposed for the next reporting period?	
☐ Yes ☒ No If Yes, select: ☐ Existing Outfall(s) Identified ☐ New Outfall(s) Proposed	

BMP #3: In conjunction with the map(s) created under BMP #2 (either on the same map or on a different map), the permittee shall develop and maintain map(s) that show the entire storm sewer collection system within the permittee's jurisdiction that are owned or operated by the permittee (including roads, inlets, piping, swales, catch basins, channels, and any other components of the storm sewer collection system), including privately-owned components of the collection system where conveyances or BMPs on private property receive stormwater flows from upstream publicly-owned components.

1. Have you completed a map(s) that includes all components of BMP #3? ☒ Yes ☐ No

If Yes and you are a new permittee and have not submitted the map(s) previously, attach the map(s) to this report.

If No, date by which permittee expects map(s) to be completed:

2. If Yes to #1, is the map(s) on the same map(s) as for outfalls and receiving waters? ☒ Yes ☐ No

3. Date of last update or revision to map(s): 10-14-2019

BMP #4: Conduct dry weather screenings of MS4 outfalls to evaluate the presence of illicit discharges. If any illicit discharges are present, the permittee shall identify the source(s) and take appropriate actions to remove or correct any illicit discharges. The permittee shall also respond to reports received from the public or other agencies of suspected or confirmed illicit discharges associated with the storm sewer system, as well as take enforcement action as necessary. The permittee shall immediately report to DEP illicit discharges that would endanger users downstream from the discharge, or would otherwise result in pollution or create a danger of pollution or would damage property.

For new permittees, all identified outfalls (and if applicable observation points) must be screened during dry weather at least twice within the 5-year period following permit coverage. For existing permittees, all identified outfalls (and if applicable observation points) must be screen during dry weather at least once within the 5-year period following permit coverage and, for areas where past problems have been reported or known sources of dry weather flows occur on a continual basis, outfalls must be screened annually during each year of permit coverage.

1. How many unique outfalls (and if applicable observation points) were screened during the reporting period? 71
2. Indicate the percentage of all outfalls screened in the past five years. 100%
3. Indicate the percent of outfalls screened during the reporting period that revealed dry weather flows: 17%
4. Did any dry weather flows reveal color, turbidity, sheen, odor, floating or submerged solids? ☐ Yes ☒ No
5. If Yes for #4, attach all sample results to this report with a map identifying the sample location. Explain the corrective action(s) taken in the attachment.
6. Do you use the MS4 Outfall Field Screening Report form (3800-FM-BCW0521) provided in the permit?
☒ Yes ☐ No
If No, attach a copy of your screening report form.

BMP #5: Enact a Stormwater Management Ordinance or SOP to implement and enforce a stormwater management program that includes prohibition of non-stormwater discharges to the regulated small MS4.

1. Do you have an ordinance (municipal) or SOP or other mechanism (non-municipal) that prohibits non-stormwater discharges? ☒ Yes ☐ No
If Yes, indicate the date of the ordinance or SOP: 6-25-2014 & 7-9-2025
2. If Yes to #1, is the ordinance or SOP consistent with DEP's 2022 Model Stormwater Management Ordinance (3800-PM-BCW0100j) with respect to authorized non-stormwater discharges? ☒ Yes ☐ No
If Yes to #2 and the ordinance or SOP has not been submitted to DEP previously, attach the ordinance or SOP.

3. Were there any violations of the ordinance or SOP during the reporting period? ☐ Yes ☒ No

If Yes to #3, complete the table below (attach additional sheets as necessary).

Violation Date	Nature of Violation	Responsible Party	Enforcement Taken

4. Did you approve any waiver or variance during the reporting period that allowed an exception to non-stormwater discharge provisions of an ordinance or SOP? ☐ Yes ☒ No

If Yes to #4, identify the entity that received the waiver or variance and the type of non-stormwater discharge approved.

BMP #6: Provide educational outreach to public employees, business owners and employees, property owners, the general public and elected officials (i.e., target audiences) about the program to detect and eliminate illicit discharges.

1. Was IDD&E-related information distributed to public employees, businesses, and the general public during the reporting period? ☒ Yes ☐ No

If Yes, what was distributed? Information regarding illicit discharges is included in the Township Newsletters and the Township website including a telephone number to call to report an illicit discharge.

2. Is there a well-publicized method for employees, businesses and the public to report stormwater pollution incidents?
☒ Yes ☐ No

3. Do you maintain documentation of all responses, action taken, and the time required to take action? ☒ Yes ☐ No

MCM #3 Comments:

Outfall inspection reports are included in Appendix K.

MCM #4 – CONSTRUCTION SITE STORMWATER RUNOFF CONTROL

Are you relying on PA's statewide program for stormwater associated with construction activities to satisfy this MCM?

☒ Yes ☐ No

(If Yes, respond to questions for BMP Nos. 1, 2 and 3 only in this section. If No, respond to questions for all BMPs in this section)

BMP #1: The permittee may not issue a building or other permit or final approval to those proposing or conducting earth disturbance activities requiring an NPDES permit unless the party proposing the earth disturbance has valid NPDES Permit coverage (i.e., not expired) under 25 Pa. Code Chapter 102.

During the reporting period, did you comply with 25 Pa. Code § 102.43 (relating to withholding building or other permits or approvals until DEP or a county conservation district (CCD) has approved NPDES permit coverage)?

☒ Yes ☐ No ☐ Not Applicable (no building permit applications received)

BMP #2: A municipality or county which issues building or other permits shall notify DEP or the applicable CCD within 5 days of the receipt of an application for a permit involving an earth disturbance activity consisting of one acre or more, in accordance with 25 Pa. Code § 102.42.

During the reporting period, did you comply with 25 Pa. Code § 102.42 (relating to notifying DEP/CCD within 5 days of receiving an application involving an earth disturbance activity of one acre or more)?

☒ Yes ☐ No ☐ Not Applicable (no building permit applications received)

BMP #3: Enact, implement and enforce an ordinance or SOP to require the implementation and maintenance of E&S control BMPs, including sanctions for non-compliance, as applicable.

1. Do you have an ordinance (municipal) or SOP or other mechanism (non-municipal) that requires implementation and maintenance of E&S control BMPs? ☒ Yes ☐ No

If Yes, indicate the date of the ordinance or SOP: 6-25-2014 & 7-9-2025

2. If Yes to #1, is the ordinance or SOP consistent with DEP's 2022 Model Stormwater Management Ordinance (3800-PM-BCW0100j)? ☒ Yes ☐ No

3. If Yes to #2 and the ordinance or SOP has not been submitted previously, attach a copy of the ordinance or SOP.

BMP #4: Review Erosion and Sediment (E&S) control plans to ensure that such plans adequately consider water quality impacts and meet regulatory requirements.

Specify the number of E&S Plans you reviewed during the reporting period:

BMP #5: Conduct inspections regarding installation and maintenance of E&S control measures during earth disturbance activities. Maintain records of site inspections, including dates and inspection results, in accordance with the record retention requirements in this permit.

Specify the number of E&S inspections you completed during the reporting period:

BMP #6: Conduct enforcement when installation and maintenance of E&S control measures during earth disturbance activities does not comply with permit and/or regulatory requirements.

Specify the number of enforcement actions you took during the reporting period for improper E&S:

BMP #7: Develop and implement requirements for construction site operators to control waste at construction sites that may cause adverse impacts to water quality. The permittee shall provide education on these requirements to construction site operators.

Specify the method(s) by which you are educating construction site operators on controlling waste at construction sites:

BMP #8: Develop and implement procedures for the receipt and consideration of public inquiries, concerns, and information submitted by the public to the permittee regarding local construction activities.

1. A tracking system has been established for receipt of public inquiries and complaints. ☐ Yes ☐ No

2. Specify the number of inquiries and complaints received during the reporting period:

MCM #4 Comments:

MCM #5 – POST-CONSTRUCTION STORM WATER MANAGEMENT IN NEW DEVELOPMENT AND REDEVELOPMENT

BMP #1: Enact, implement and enforce an ordinance or SOP to require post-construction stormwater management from new development and redevelopment projects, including sanctions for non-compliance.

1. Do you have an ordinance (municipal) or SOP or other mechanism (non-municipal) that requires implementation and maintenance of post-construction stormwater management (PCSM) BMPs? ☒ Yes ☐ No
If Yes, indicate the date of the ordinance or SOP: 6-25-2014 & 7-9-2025
2. If Yes to #1, is the ordinance or SOP consistent with DEP's 2022 Model Stormwater Management Ordinance (3800-PM-BCW0100j)? ☒ Yes ☐ No
3. If Yes to #2 and the ordinance or SOP has not been submitted previously, attach a copy of the ordinance or SOP.

BMP #2: Develop and implement measures to encourage and expand the use of Low Impact Development (LID) in new development and redevelopment. Measures should also be included to encourage retrofitting LID into existing development. Enact ordinances consistent with LID practices and repeal sections of ordinances that conflict with LID practices.

1. Do you have an ordinance (municipal) or SOP or other mechanism (non-municipal) that encourages and expands the use of LID in new development and redevelopment? ☒ Yes ☐ No
If Yes, indicate the date of the ordinance or SOP: 6-25-2014 & 7-9-2025
2. If Yes to #1, is the ordinance or SOP consistent with DEP's 2022 Model Stormwater Management Ordinance (3800-PM-BCW0100j)? ☒ Yes ☐ No
3. If Yes to #2 and the ordinance or SOP has not been submitted previously, attach a copy of the ordinance or SOP.

BMP #3: Ensure adequate O&M of all post-construction stormwater management BMPs that have been installed at development or redevelopment projects that disturb greater than or equal to one acre, including projects less than one acre that are part of a larger common plan of development or sale.

1. Do you have an inventory of all PCSM BMPs that were installed to meet requirements in NPDES Permits for Stormwater Discharges Associated with Construction Activities approved since March 10, 2003? ☒ Yes ☐ No
If Yes to #1, complete Table 1 on the next page.
2. Has proper O&M occurred during the reporting period for all PCSM BMPs? ☒ Yes ☐ No
3. If No to #2, explain what action(s) the permittee has taken or plans to take to ensure proper O&M.

If you are relying on PA's statewide program for stormwater associated with construction activities, you may skip to MCM #6, otherwise complete all questions for BMPs #4 - #6 in this section.

BMP #4: Require the implementation of a combination of structural and/or non-structural BMPs that are appropriate to the local community, that minimize water quality impacts, and that are designed to maintain pre-development runoff conditions.

1. Specify the number of PCSM Plans reviewed during the reporting period for projects disturbing greater than or equal to one acre (including projects less than one acre that are part of a larger common plan of development or sale):
2. Has a tracking system been established and maintained to record qualifying projects and their associated BMPs?
☐ Yes ☐ No

PCSM BMP INVENTORY

Table 1. To complete the information needed for MCM #5, BMP #3, list all existing structural BMPs that discharge stormwater to the permittee's MS4 that were installed to satisfy PCSM requirements for earth disturbance activities under Chapter 102, and provide the requested information (see instructions).

BMP No.	BMP Name	DA (ac)	Entity Responsible for O&M	Latitude	Longitude	Date Installed	O&M Requirements	NPDES Permit No.
1	See Appendix L			0 1 "	0 1 "			
2				0 1 "	0 1 "			
3				0 1 "	0 1 "			
4				0 1 "	0 1 "			
5				0 1 "	0 1 "			
6				0 1 "	0 1 "			
7				0 1 "	0 1 "			
8				0 1 "	0 1 "			
9				0 1 "	0 1 "			
10				0 1 "	0 1 "			
11				0 1 "	0 1 "			
12				0 1 "	0 1 "			
13				0 1 "	0 1 "			
14				0 1 "	0 1 "			
15				0 1 "	0 1 "			
16				0 1 "	0 1 "			

BMP #5: Ensure that controls are installed that shall prevent or minimize water quality impacts. The permittee shall inspect all qualifying development or redevelopment projects during the construction phase to ensure proper installation of the approved structural PCSM BMPs. A tracking system (e.g., database, spreadsheet, or written list) shall be implemented to track the inspections conducted and to track the results of the inspections (e.g., BMPs were, or were not, installed properly).

1. During the reporting period have you inspected all qualifying development and redevelopment projects during the construction phase to ensure proper installation of approved structural BMPs?
☐ Yes ☐ No ☐ Not Applicable (no qualifying projects during reporting period)
2. Has a tracking system been established and maintained to record results of inspections?
☐ Yes ☐ No

BMP #6: Develop a written procedure that describes how the permittee shall address all required components of this MCM.

Have you developed a written plan that addresses: 1) minimum requirements for use of structural and/or non-structural BMPs in plans for development and redevelopment; 2) criteria for selecting and standards for sizing stormwater BMPs; and 3) implementation of an inspection program to ensure that BMPs are properly installed? ☐ Yes ☐ No

MCM #5 Comments:

MCM #6 – POLLUTION PREVENTION / GOOD HOUSEKEEPING

BMP #1: Identify and document all operations that are owned or operated by the permittee and have the potential for generating pollution in stormwater runoff to the MS4. This includes activities conducted by contractors for the permittee.

1. Have you identified all facilities and activities owned and operated by the permittee that have the potential to generate stormwater runoff into the MS4? ☒ Yes ☐ No
2. When was the inventory last reviewed? 6/2025
3. When was it last updated? 2021, See Appendix M

BMP #2: Develop, implement and maintain a written O&M program for all operations that could contribute to the discharge of pollutants from the MS4, as identified under BMP #1. This program shall address stormwater collection or conveyance systems within the regulated MS4.

1. Have you developed a written O&M program for the operations identified in BMP #1? ☒ Yes ☐ No
2. Date of last review or update to written O&M program: 6/2026, See Appendix M & N

BMP #3: Develop and implement an employee training program that addresses appropriate topics to further the goal of preventing or reducing the discharge of pollutants from operations to the regulated small MS4. All relevant employees and contractors shall receive training.

1. Have you developed an employee training program? ☒ Yes ☐ No
2. Date of last review or update to training program: 6/2026, App O Date of latest training: 4-24-2026

3. Training topics covered:

3/20/2026 - Perkioment Watershed Conservancy Stormwater Symposium - attended by Mary R. Stover, P.E., Municipal Engineer.

3/27/2026 - Penn State Extension - Getting Started with Advanced Stream Repair - attended by Mary R. Stover, P.E., Municipal Engineer.

4/3/2026 - Penn State Extension - Historic Dams, Legacy Sediment, Buried Wetlands and Restoration - attended by Mary R. Stover, P.E., Municipal Engineer.

4/10/2026 - Penn State Extension - Large Woody Material Additions in Stream Valley Restoration - attended by Mary R. Stover, P.E., Municipal Engineer.

4/17/2026 - Penn State Extension - Limited Space Streambank & Habitat Restoration - attended by Mary R. Stover, P.E., Municipal Engineer.

4/24/2026 - Penn State Extension - Watershed Management Panel Discussion - attended by Mary R. Stover, P.E., Municipal Engineer.

4. Name(s) of training presenter(s):

See Above.

5. Names of training attendees:

See Above.

MCM #6 Comments:

POLLUTANT CONTROL MEASURES (PCMs)

Indicate the status of implementing PCMs in Appendices A, B and/or C by completing the table below. Skip this section if PCMs are not applicable.

Task	Date Completed	Attached	Anticipated Completion Date
Storm Sewershed Map(s)		☐	
Source Inventory		☐	
Investigation of Suspected Sources		☐	
Ordinance/SOP for Controlling Animal Wastes		☐	

PCM Comments:

No Appendix A, B, or C requirements.

POLLUTANT REDUCTION PLANS (PRPs) AND TMDL PLANS

1. Complete this section if the development and submission of a PRP and/or TMDL Plan was required as an attachment to the latest NOI or application or was required by the permit, regardless of whether DEP has approved the plan(s).

Type of Plan	Submission Date	DEP Approval Date	Surface Waters Addressed by Plan
☐ Chesapeake Bay PRP (Appendix D)			Chesapeake Bay
☒ Impaired Waters PRP (Appendix E)	9-12-2017	11-2-2022	Skippack Creek and Towamencin Creek
☒ TMDL Plan (Appendix F)	9-12-2017	11-2-2022	Skippack Creek
☐ Combined Chesapeake Bay / Impaired Waters PRP			Chesapeake Bay,
☐ Combined PRP / TMDL Plan			

☐ Joint Plan (if checked, list the name of the MS4 group or names of all entities participating in the joint plan below)
Joint Plan Participants:

2. Identify the pollutants of concern and pollutant load reduction requirements under the permit (see instructions).

Type of Plan	TSS Load Reduction (lbs/yr)	TP Load Reduction (lbs/yr)	TN Load Reduction (lbs/yr)
☐ Chesapeake Bay PRP (Appendix D)			
☒ Impaired Waters PRP (Appendix E)	N/A	Presumptive Approach - 10% TSS + 5% TP	N/A
☒ TMDL Plan (Appendix F)	227,375 (Projects within Towamencin in Multi-Municipal PRP-TMDL)	N/A	N/A
☐ Combined Chesapeake Bay / Impaired Waters PRP			
☐ Combined PRP / TMDL Plan			

3. Date Final Report Demonstrating Achievement of Pollutant Load Reductions Due: 11-30-2027

4. Have any modifications to the plan(s) occurred since DEP approval? ☐ Yes ☒ No

If Yes to #4, was the updated plan(s) submitted to DEP? ☐ Yes ☐ No

If Yes to #4, did you comply with the public participation requirements of the applicable appendix? ☐ Yes ☐ No

If Yes to #4, describe the plan modifications.

5. Summary of progress achieved during reporting period.

The Multi-Municipal PRP for Skippack Creek includes BMPs in four municipalities. One project including a rain garden and removal of impervious area at Perkioment Valley Airport in Skippack Township is complete.

Design is in progress for the Zacharias Creek Stream Restoration Project in Worcester Township with funds from a Growing Greener Grant. Another Growing Greener Grant application has been submitted for the construction of this project.

There are two basin retrofit projects in Towamencin Township which are currently under construction with funding from the Watershed Restoration Protection Program and Montgomery County MontCo 2040 grant program.

A Growing Greener Grant was received this year for the design and permitting of a stream restoration project in Towamencin Township and the design work has been started.

6. Anticipated activities for next reporting period.

It is anticipated that permits will be obtained for the Zacharias Creek Stream Restoration Project will be obtained and bidding and construction will proceed in 2027.

Design and permitting will proceed on the Skippack Creek Stream Restoration Project in the next reporting period with potential grant applications submitted for construction.

Grant applications will likely be submitted for the design and permitting for a stream restoration project in Skippack Township in the spring of 2027.

PRP/TMDL Plan Comments:

NEW BMPs FOR PRP/TMDL PLAN IMPLEMENTATION

Table 2. List all new structural BMPs installed and ongoing non-structural BMPs implemented during the reporting period that are being used toward achieving load reductions in the permittee's PRP and/or TMDL Plan (see instructions).

BMP No.	BMP Name	DA (ac)	% Imp.	BMP Extent	Units	Latitude	Longitude	Date Installed or Implemented	Planning Area?	Ch. 102?	Annual Sediment Load Reduction (lbs/yr)
						O 1 11	O 1 11		☐	☐	
						O 1 11	O 1 11		☐	☐	
						O 1 11	O 1 11		☐	☐	
						O 1 11	O 1 11		☐	☐	
						O 1 11	O 1 11		☐	☐	

BMP INVENTORY FOR PRP/TMDL PLAN IMPLEMENTATION

Table 3. List all existing structural BMPs that have been installed in prior reporting periods and are eligible to use toward achieving load reductions in the permittee's PRP and/or TMDL Plan (see instructions).

BMP No.	BMP Name	DA (ac)	% Imp.	BMP Extent	Units	Latitude	Longitude	Date Installed	Annual Sediment Load Reduction (lbs/yr)	Date of Latest Inspection	Satisfactory?
						O 1 11	O 1 11				☐
						O 1 11	O 1 11				☐
						O 1 11	O 1 11				☐
						O 1 11	O 1 11				☐

						O 1 11	O 1 11				☐

CERTIFICATION

For PAG-13 Permittees: I have read the latest PAG-13 General Permit issued by DEP and agree and certify that (1) the permittee continues to be eligible for coverage under the PAG-13 General Permit and (2) the permittee will continue to comply with the conditions of that permit, including any modifications thereto. I understand that if I do not agree to the terms and conditions of the PAG-13 General Permit, I will apply for an individual permit within 90 days of publication of the General Permit. I also acknowledge that any facility construction needed to comply with the General Permit requirements shall be designed, built, operated, and maintained in accordance with operative laws and regulations.

For All Permittees: I certify under penalty of law that this report was prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations. See 18 Pa. C.S. § 4904 (relating to unsworn falsification).

Public Education & Outreach Plan

MCM #1 – Public Education & Outreach on Stormwater Impacts

Date of Last Revision: June 2026**Public Education & Outreach Plan**

Permittee Name:	Towamencin Township, Montgomery County, PA		
Mailing Address:	1090 Troxel Road	City,	Lansdale, PA 19446
		State, Zip:	
MCM #1 Contact Person:	David Kraynik	Title:	Township Manager
Phone Number:	215-368-7602	Email:	dkraynik@towamencin.org
Plan Goal: To provide stormwater education to residents and businesses within the Township so that they will have an increased awareness about stormwater and the impacts of stormwater discharges on local and downstream waterways and be encouraged to help the Township reduce pollutants to our streams, lakes and rivers.			
Target Audiences: Residents, Schools, Developers, Businesses, Municipal Employees (see attached Strategies and Target Audiences)			
Stormwater Educational Materials * at least 1 of the outreach methods in the box below is required			
Material Type:	Material Name: Municipal Website		
☐ Newsletter	Distribution Method: Online		
☐ Pamphlet/Flyer	Distribution Audience: All traffic to municipal website		
☒ Website: (provide url)	MCM(s) Addressed: 1, 2, 3, 4, & 5		
<u>towamencin.org</u>	Description of Contents: The website includes a description of the MS4 requirements and links to fact sheets on the 6 MCMs. There is a discussion regarding illicit discharges and a telephone number to call if someone observes an illicit discharge. There are links for "Tips for Residents" and "Tips for Contractors" that include a variety of stormwater related issues and how these groups can help improve water quality. There are also links to the PADEP, EPA, MCCD, FEMA and the Center for Watershed Protection.

Stormwater Management

[2024-2025 MS4 Annual Report](#)

The Pennsylvania Department of Environmental Protection (PADEP) has a statewide program designed to improve our quality of water. The program requires all municipalities in populated areas to detect and eliminate Non-Point Source Pollution (NPSP). NPSP is a combination of contaminants from various sources that find their way into our streams, lakes, and rivers by way of rainfall and snowmelt. Many of the pollutants include but are not limited to soap, oil, gasoline, litter, cigarette butts and sediments. The main outlet of these contaminants is from storm drain discharge. Storm drains offer no means of filtration and are easy targets for illegal dumping. It is important that residents understand that what goes down storm drains ultimately ends up in lakes, streams, and other bodies of water. To insure healthy water for both aquatic life and human consumption we must first detect and then eliminate NPSP.

The Township is doing its part. The Township has begun monitoring and testing of storm sewer outfalls that have flow during dry periods. The Township is asking for all residents to cooperate with the inspectors, as some outfalls are located on private properties. All information from this inspection will be used to remedy any area deemed polluted.

The Township is asking residents and business owners to do their part. Please dispose of litter properly, keeping soaps, oil, gas, and all chemicals off of the pavement and out of storm drains. Also, use fertilizers sparingly and properly, as this can cause unwanted algae growth in bodies of water. And remember, dumping of anything down a storm drain is illegal and violators may be fined.

Stormwater runoff is generated when precipitation from rain and snow melt events flow over land and impervious surfaces and does not infiltrate into the ground. The runoff from streets, lawns, farms, and construction and industrial sites pick up fertilizers, dirt, pesticides, oil, grease and many other pollutants and discharge into our lakes, streams and rivers. This untreated discharge is detrimental to our water quality as it can adversely affect our drinking water supply and environment. Many Best Management Practices (BMP's) such as detention/retention/infiltration basins, are already in place to help keep our water clean.

Towamencin Township regulates stormwater management which goes above and beyond typical BMP's through a permit that is obtained from the [Pennsylvania Department of Environmental Protection \(PA DEP\)](#) through the National Pollution and Discharge Elimination System Phase II (NPDES)/Municipals Separate Storm Sewer System (MS4). This is a Federal requirement from the [United States Environmental Protection Agency \(USEPA\)](#) that is

administered by the PA DEP. This NPDES Permit is broken up into six minimum control measures to be regulated and enforced by the Township. These minimum control measures include:

1. [Public Education and Outreach](#)
2. [Public Participation/Involvement](#)
3. [Illicit Discharge, Detection and Elimination](#)
4. [Construction Site Runoff Control](#)
5. [Post-Construction Runoff Control](#)
6. [Pollution Prevention / Good Housekeeping](#)
7. [MS4 & Stormwater Presentation 9.13.2023](#)

For any questions or concerns regarding stormwater or to report illicit discharges to the storm sewer system please call the Towamencin Township Administration Building at (215) 368-7602.

There are many ways you can help the Township with its stormwater program and participate in volunteering programs that will keep trash, debris and other pollutants out of the storm sewer system. For more information on ways you get involved with your community, please visit the following site:

Bird Town Committee

Bird Town Committee

On February 25, 2025, the Board of Supervisors adopted [Resolution 25-14](#), officially committing to Pennsylvania Audubon Council's Bird Town Pennsylvania initiatives for the Township to be recognized as a "Bird Town" and authorizing the Township's Environmental Advisory Council to serve as the Township's agent for the Bird Town Pennsylvania processes. [Read the presentation](#) provided to the Board of Supervisors.

Bird Town Committee Members:

- Andrew Dolan
- Bruce Bailey
- Donna Hegge
- Kelly Bonsignore
- Vanessa Gaynor

The committee holds public meetings, and the dates and times are advertised on our website and communication pages before each meeting. Agendas and minutes for these meetings can be found [here](#).

Bird Town Pennsylvania

Creating Livable Communities Through the Lives of Birds

Bird Town Pennsylvania has been actively engaging municipalities in the state for more than 14 years with 72 programs across 13 counties. They are the premier program under the Pennsylvania Audubon Council and partner with various conservation groups, including WeConservePA, Audubon Chapters, and the Bird City Network.

Mission: Bird Town Pennsylvania works in partnership with local municipalities and like-minded organizations to promote community-based conservation actions to create a healthier, more sustainable environment for birds, wildlife, and people.

What Bird Town Provides for our Municipality

- Statewide structured program with consistent goals.
- Concrete resources and achievable actions.
- Framework for connecting Bird Towns and Conservation Partners through communication channels, events, volunteer opportunities, community science projects, and more.
- Training and workshops for our Bird Town leaders.
- More opportunities and success in securing funding.

Bird Town Pennsylvania works in partnership with local municipalities and like-minded organizations to promote community-based conservation actions to create a healthier, more sustainable environment for birds, wildlife, and people.

The program provides tools for municipalities to engage, educate and empower their residents, schools and businesses to make more positive ecologically friendly decisions and promotes a culture of conservation where everyone is a potential steward of nature in their own backyard and beyond.

Restoration of natural ecosystems and native plant communities for birds, pollinators and other wildlife, on both private and public lands, has positive impacts on our communities including creating healthier habitats, reducing stormwater runoff and building a sense of community.

Towamencin Township Proud Bird Town Pennsylvania Member

On March 4, 2026, Bird Town, PA's Outreach Committee officially accepted Towamencin Township's application, making it the 77th Bird Town in PA. Congratulations to the Township's Environmental Advisory Council and lead member Vanessa Gaynor for their dedication and efforts leading up to this achievement!

On February 25, 2026, members of Towamencin's Bird Town subcommittee delivered a presentation to the Board of Supervisors—covering the Bird Town, PA mission, threats to bird populations, program initiatives, and benefits of designation for the municipality. During this meeting, the Board unanimously approved the EAC's participation in Bird Town, PA, and passed the supporting resolution.

The Township's Bird Town Committee, organized as an EAC subcommittee, includes members Andrew Dolan, Bruce Bailey, Donna Hegge, Kelly Bonsignore, and Vanessa Gaynor. The Committee will hold public meetings. For more information, visit the Township's website and Facebook page.

Environmental Advisory Council

Our Environmental Advisory Council (EAC) advises township officials to help inform decision-making regarding environmental issues. The EAC is involved in planning new conservation initiatives and community environmental education efforts. The EAC consists of up to 7 volunteer members appointed by the Board of Supervisors for 3-year terms. EAC members must be residents of Towamencin Township. Meetings are open to the public and held on the second Tuesday of each month at the Township building.

Environmental Advisory Council Members

Towamencin Township Environmental Advisory Council Annual Report - 2025

The EAC is pleased to present its 2025 Annual Report, highlighting a year defined by community engagement, environmental stewardship, and a continued commitment to sustainable practices. Throughout the year, the EAC worked to advance its mission of protecting and enhancing the Township's natural resources while fostering a deeper connection between residents and the environment. To learn more, read the full report [here](#).

Towamencin Bird Town is Excited to Welcome a New Home for Purple Martins at Fischer's Park

Towamencin Bird Town is excited to welcome a new home for purple martins at Fischer's Park!

Housing purple martins can enhance the park's soundscape, increase biodiversity, and even help control insects. The new nesting boxes are located between the park's two playgrounds and will be in place April through August of each year to coincide with their migration season.

Special thanks to the PA Game Commission for providing the structure and Public Works for installing it.

Interested in learning more about birds and how we can help them? Bird Town would love to see you at their next meeting on Thursday, September 3, at 7 PM at the Township Building.

Environmental Advisory Council Minutes

Towamencin Township Environmental Advisory Council Annual Report 2025

Introduction

The Towamencin Township Environmental Advisory Committee (EAC) is pleased to present its 2025 Annual Report, highlighting a year defined by community engagement, environmental stewardship, and a continued commitment to sustainable practices. Throughout the year, the EAC worked to advance its mission of protecting and enhancing the Township's natural resources while fostering a deeper connection between residents and the environment.

Our efforts in 2025 were guided by three primary focus areas. First, we expanded our education and outreach initiatives, connecting with residents through events such as Towamencin Day, a Stream Explorers Workshop, and a Permaculture Workshop. In addition, Towamencin Township was recognized as a Bird Town in 2025, reflecting a growing commitment to bird conservation, habitat protection, and community education. Together, these efforts provided meaningful opportunities for hands-on learning and helped build greater awareness of local environmental issues and solutions.

Second, the Committee prioritized the restoration and ecological improvement of Township open space, with particular attention to the Troxel Meadow no-mow zone. Through targeted efforts to remove invasive species and support native plant growth, this project represents an important step toward enhancing local biodiversity and long-term ecosystem health.

Finally, the EAC continued its work in reviewing and recommending updates to Township ordinances to better reflect current environmental best practices. By aligning local policies with evolving standards, the Committee aims to support sustainable development and responsible resource management for years to come.

Together, these initiatives reflect a comprehensive approach to environmental stewardship, grounded in education, action, and policy. The sections that follow provide a more detailed look at each of these efforts and their impact on the Towamencin community.

Education and Outreach Initiatives

Bird Town, PA Subcommittee

Towamencin Township pursued designation as a Bird Town through a community-driven effort focused on environmental stewardship, habitat conservation, and public education. The initiative, organized through the Township's Environmental Advisory Council (EAC) Bird Town Subcommittee, aligned with the mission of Bird Town Pennsylvania to create healthier and more sustainable communities for birds, wildlife, and people. The program emphasizes conservation strategies such as native plantings, habitat protection, reducing invasive species, and promoting environmental awareness.

As part of the establishment process, Towamencin Township highlighted its strong existing birding community and natural resources, particularly Fischer's Park, which hosts diverse habitats and numerous documented bird species. To further involve residents and families, the township hosted bird walks and a children's workshop where participants built bird feeders while learning about bird habitats, feeding practices, and conservation. These activities supported Bird Town Pennsylvania's goals of increasing environmental education, encouraging community participation, and fostering appreciation for local wildlife among residents of all ages.

Permaculture Workshop

As part of the Environmental Advisory Council's ongoing efforts to promote sustainable landscaping and environmental stewardship, EAC member David McCreary led a community workshop introducing residents to the principles and practice of permaculture. The presentation explored how permaculture combines ecological science, food production, and water conservation to create resilient, attractive, and sustainable outdoor spaces. Highlights of the workshop included:

Information about native species

Participants learned about how landscape and garden design that prioritize native species and biodiversity improve water management, soil health, habitat and local ecology, while growing food and reducing cost and maintenance.

Practical Strategies for Homeowners

Towamencin residents learned practical strategies they could apply to their own yards to improve biodiversity, strengthen local ecosystems, and create productive landscapes that benefit both people and wildlife. Residents received free seeds and copies of *The Living Soil Handbook* by Jesse Frost, providing additional resources on soil-building techniques and regenerative growing practices.

Stream Explorers Workshop

The Towamencin Environmental Advisory Council (EAC) hosted a Stream Explorer workshop for children ages 7–12 at Fischer Park, giving them the chance to get hands-on with real stream science. Participants explored the stream, collected macroinvertebrates, and learned how to identify them using simple field guides. The children discovered that certain macroinvertebrates, like mayfly and stonefly larvae, are very sensitive to pollution, while others can tolerate poorer conditions. By looking at which organisms are present and how many of each are found, scientists can assess the overall health and water quality of a stream over time. In addition to biological sampling, the children tested the water for pH, nitrogen, and phosphates, learning how these chemical factors affect aquatic life and contribute to a healthy or stressed stream ecosystem.

Towamencin Day: Interactive Environmental Booth and Sponsorship

The Towamencin Environmental Advisory Council (EAC) also spent time connecting with the community at Towamencin Day by hosting an interactive booth focused on environmental issues and sustainable practices. We shared information about invasive species and the importance of native plants, and led nature walks around Fischer's Park to help people see these concepts in action. ENACT from North Penn High School coordinated with the EAC to provide hands-on nature learning opportunities for kids, making the booth especially engaging for families. Children were able to make seed bombs to take home, and we also offered free native plants for anyone interested in planting at home, including obedient plant and wild strawberry.

Restoration and Ecological Improvement

Troxel Meadow

The Towamencin Environmental Advisory Council (EAC) took action at Troxel Meadow after invasive species, especially Canada thistle, began to take over the site. Canada thistle spreads easily by seed and through an aggressive underground root system, allowing it to crowd out native plants very quickly. To tackle the problem, the EAC hired a company with extensive experience in invasive species management and worked closely with them on a treatment plan. The invasive plants were killed and then mowed, and the meadow was overseeded to help stabilize the area. Over the next year, the EAC will begin reintroducing native plants to bring Troxel Meadow back to a healthier, more diverse meadow.

Invasive Species Park Cleanup

The EAC continued its on-the-ground stewardship work in Fischer's Park. The EAC worked to restore one of the park's rain gardens by removing invasive plants such as Canada thistle, lesser celandine, and multiflora rose, helping the garden function as intended while supporting native species. The EAC also organized and participated in a successful invasive species cleanup event at Fischer's Park, bringing together volunteers to remove invasives, protect existing native plants, and improve the overall ecological health of the park. After the volunteer event, one of our committee members lead a nature walk through the park, pointing out many of the native species that live there.

Ordinance Review

Dark Skies Ordinance and Landscape Ordinance

The EAC prepared amendments to the Township Lighting requirements to update the ordinances to reflect current LED technology and include lighting standards consistent with best practices for responsible outdoor lighting as per Dark Skies International. Revisions included requiring fixtures shielded to focus light at a downward angle, reducing the brightness color temperature (wavelength) of the LED lighting, and reducing the height of lighting fixtures in parking areas. These changes reduce glare, increase safety and security, improve human sleep quality and health, and reduce harm to wildlife such as nighttime pollinators and migrating birds.. The ordinance revisions were reviewed by the Township professionals and adopted by the Board in 2026.

The Landscape Ordinance updated the current regulations to include information about current native plant and noxious weed best management practices.

Conculsion

In 2025, the Towamencin EAC made notable progress in fostering a sustainable, environmentally-conscious community. We are proud of the accomplishments we achieved and are excited about the work ahead in 2026. We look forward to working alongside the Towamencin Board of Supervisors and other community stakeholders to ensure that Towamencin remains a model of environmental stewardship and sustainability.

Thank you for your continued support, and we look forward to the collaborative efforts that will further strengthen our township's commitment to a green and sustainable future.

Respectfully submitted,

Towamencin Township Environmental Advisory Council

Towamencin Township Environmental Advisory Council

Minutes for the July 8th, 2025 Meeting

Committee members: Brett MacKay, David McCreary, Joe Meehan, Rory Kelley, Vanessa Gaynor

Board liaison: Joyce Snyder

Public: Bruce Bailey

1. Call to order at 7 PM
2. Opening comments
 - a. EAC resignation letter from Kelly Bonsignore was received by the township today. The Board plans to vote on a replacement at their July 23 meeting. EAC has recommended that Corina Fiore, associate member, be moved to a voting member.
 - b. Rory will not be in attendance at the August 12 meeting and will ask Donna to run the meeting.
3. Public Comments
 - a. Bruce Bailey shared that he visited Gwynedd Friends where Journeywork (local nonprofit focused on native plantings) is re-naturalizing a section of their land. They are now seeing rare native plants grow from the seedbank. Journeywork is also hosting a workshop on Saturday July 12 with Sara Weaner Cooper about converting lawn to meadow.
4. Approval of June 2025 minutes: Motioned by Brett, seconded by David. Approved unanimously.
5. Bird Town PA Subcommittee
 - a. Bird Walk was hosted on Saturday, June 14 with Valley Forge Audubon Society. It was co-led by committee member Andrew Dolan and his son. About 25 participants, including 3 members of the committee, were present. They identified 37 different species of birds, which were recorded in ebird in this [Fischer's Park Bird List](#).
 - b. Children's bird house workshop is being planned for January 2026. Rory suggested purchasing supplies with 2025 budget.
 - c. Committee will be ordering additional street signs.
 - d. Committee will submit an article for the township fall newsletter
 - e. Possible plans for next year include bird walks, native plant sale, and installing bird

houses at municipal meadow. Estimated budget is \$1,500. Joyce suggested reaching out to Public Works to see if they can source bird house poles for cheaper.

f. Next meeting Thurs, Sept 11 @ 7 PM

6. New Business

a. Ordinances

i. Feral cat ordinance was previously discussed. Because no information about local cat colonies or TNR has been received by Stray Cat Blues, this ordinance is tabled for this meeting.

ii. EAC will proceed with reviewing 'A116 Street trees and plantings' from Towamencin code book. The goal is to remove invasive species from code and also have it refer back to the PA DCNR list of invasive species, to ensure plants that might be listed as invasive in the future are automatically removed from being eligible for planting. Committee discussed putting plant species in an appendix with supplementary information about each species. Committee discussed whether to include diversity requirements or required minimum percentage of native species into the ordinance, and determined minimum was a better choice. Percentage will be discussed once the final list of appropriate species is determined. EAC members are to review and make recommendations by the August meeting. Radnor Township's current ordinance was mentioned as a good model. Once a suggested ordinance is prepared, it will be sent to the township code enforcement officer, engineer and manager, then forwarded to the township solicitor. The ordinance would be reviewed by the Planning Commission prior to being sent to the Board of Supervisors for a final vote.

7. Old Business

a. 2025 projects

i. No Mow project

1. Treatment occurred at the end of June at the no mow area at the township complex. Yellow flags for safety were displayed for the required amount of time. The contractor, Weeds Inc, also identified canary grass, in addition to the thistle, and treated that as well. The contractor suggested the area be overseeded with a custom blend of grasses for diversity and resilience. They will provide a quote for overseeding when they return in August or September for the second treatment. A possible third treatment will occur in October or November, if necessary, followed by overseeding

2. Joyce urged that signage goes up at no mow area with a QR code. It should point to a new page on the Township website with information

about the project before the next treatment so that residents can access educational information.

ii. Workshops

1. Stream Explorers Workshop will occur on Saturday, July 26 for children ages 7-12. The committee discussed possibly distributing science kits or books to participants.
2. David will present a permaculture lecture in the fall. Time will be set with township staff for sometime in October. There may possibly be a native plant giveaway (provided from EAC members' gardens).

iii. Grants

1. Bird Town PA provided a letter of support to the Open Space and Parks Advisory Committee for their grant submission to GIANT's "Healing the Planet" tree planting program.
2. Morgan Log House, Journeywork, and EAC to work with State Senator Pennycuick's office to set up a DCNR site visit for the C2P2 grant Journeywork submitted for lawn conversion work within Towamencin.

- b. Budget: Goal is to finalize EAC's 2026 budget request by September meeting. It will include an estimate to restore another no mow.
8. Township Updates (Informational) - Joyce relayed there will be 3 presentations on potential developments at the next Board meeting. Joe relayed that the Grist Mill Park project is behind schedule but the soccer fields at Green Lane Park are progressing.
9. Upcoming Events -
 - a. Stream Explorer workshop July 26, 10 am Fischer's Park
10. Any other business and closing: None
11. Adjournment at 8:39 PM

Respectfully submitted by Vanessa Gaynor

**Towamencin Township
Environmental Advisory Council**

Minutes for the August 12th, 2025 Meeting

Present: Brett MacKay, Corina Fiore, David McCreary, Donna Hegge, Joe Meehan Rich Costlow, Vanessa Gaynor

Board Liaison: Joyce Snyder

Public: Bruce Bailey, Casey Henning

1. Call to order at 6:59 PM by Donna.
2. Opening comments: None
3. Public Comments: Bruce thinks the no mow area outside the township building is coming along.
4. Approval of minutes from July: Joe motioned to approve them, Brett seconded. All voted in favor.
5. Bird Town PA Subcommittee:
 - a. The additional street signs will be arriving this month.
 - b. There is a Bird Walk in Fischer's Park on Saturday, September 6 from 7:30-10 AM.
 - c. Donna talked to David Brothers nursery about a native plant sale. We would like to host the business within the township, and they will sell their inventory of shrubs, trees, perennials, etc. EAC could possibly buy flats of plugs and resell them, since David Brothers will not sell them individually. Donna to coordinate with David Brothers and township to see if September 20 from 9-1 at Firehouse Park would work. Corina can write something for e-news about benefits of native plants to help with education.
 - d. Bruce shared that a town in New England has a long stretch of wall covered in bird houses for educational and art benefits. Curious if there is somewhere in Towamencin this could happen. Can be discussed at the next Bird Town meeting.
6. New Business
 - a. **Ordinance review:** Brett, David, Joe and Vanessa had reviewed the landscaping ordinance since the past meeting, with the goal of updating it to encourage native plantings in new developments. The committee agrees that rather than just removing possibly invasive species, we should also add more native options to the ordinance. The committee recommends a diversity requirement and minimum native planting requirement. EAC will continue reviewing suggestions to the ordinance over the next

month with a final discussion occurring at the September meeting, with the goal to send it to the Planning Commission for their October meeting.

- b. Dark Skies update: Based on a 2024 discussion by the EAC, Brett introduced changes to the parking lot lighting ordinance at the August Planning Commission meeting. Changes align with Dark Skies initiative. Rich would like to review the ordinance proposal to verify it meets Dark Skies, and will discuss again if any issues are found.

7. Old Business

a. 2025 projects

- i. **No Mow project:** There will be one additional treatment to the no mow area at the municipal building in September or October, with possibly a followup treatment in October or November. Overseeding with grasses will occur alongside that 2nd treatment in October or November. David will assess the Callery Pears present in the area and determine what treatment is needed. David will obtain quotes from Weeds Inc for overseeding this year and for the 2026 program, which would include spot treating/maintenance of municipal area and restoring another no mow area.

ii. Workshops:

- 1. **Stream Explorer recap:** There were 11 youth participants at this workshop led by Corina. They did a bio-indicator study of the creek (results showed it is in pretty good shape), caught crayfish, and had a lot of fun.
- 2. **Permaculture Workshop discussion:** David will host this lecture on October 20 at 7 PM at the Township Building. Giveaways to participants may include pumpkins and a book on soil health.

- iii. **Grants: Montco is sponsoring an open space grant ("Forever Green") and the township is aware.**

- b. Budget: Possible spend for remainder of the year includes purchasing plants from Davids Brothers at the plant sale and plant them at the barren butterfly garden in Fischer's Park. Vanessa to follow up with staff.

- 8. Township Updates (Informational): Joyce shared there is a possible acquisition of 9 acres by the township that could be used for open space or Public Works facilities. No formal progress has occurred on any pending land developments. The Board of Supervisors will name the no mow area at the municipal building at an upcoming meeting.

9. Upcoming Events -

- a. Bird Town PA bird walk- September 6, 7:30-10 AM at Fischer's Park
- b. Bird Town PA Subcommittee meeting - September 11th, 7 PM Towamencin Township building

10. Any other business and closing:

- a. Corina and David had attended a Penn State Extension presentation on riparian buffers.

Corina would like to discuss how the EAC can advise developers on how to plant stormwater retention basins to prevent failure of plantings and ensure they become healthy habitats. This is of especial concern with Freddy Hill and future developments.

- b. Casey would like to see positive changes to ordinances in anticipation of upcoming developments, such as Dark Skies compliance and permitting younger trees to be planted in new developments to encourage better growth.

- c. Township newsletter submissions are due Friday, August 22. Articles will include one about Bird Town by Andrew Dolan, one about sustainable yard waste disposal by Vanessa and one about native plantings by Corina.

11. Adjourned at 8:59 PM.

Towamencin Township Environmental Advisory Council

Minutes for the September 9th, 2025 Meeting

Attendance: Joe Meehan, Rich Costlow, David McCreary, Brett MacKay, Corina Fiore, Vanessa Gaynor, Rory Kelley, Donna Hegge

Board of Supervisors: Joyce Snyder, Amer Bargouth

Public: Anthony Long, Casey Hannings

1. Call to order at 7:00 PM
2. Opening comments
 - a. Rory's term expires at the end of the year and he does not plan to reapply. There will need to be a new chair in January.
3. Public Comments- None
4. Approval of minutes - Joe motioned to approve, Brett seconded. Minutes approved unanimously.
5. Bird Town PA Subcommittee- Well attended bird walk this past Saturday with over 40 attendees. Bird Town meeting this Thursday, September 11 at 7 PM. Native plant sale by David Brothers at Firehouse Park on Saturday, September 20 from 9-1. Will not be pursuing a planting at Fischer's Park this year. 5 street signs will be posted by Public Works soon.
6. New Business
 - a. **Ordinances**
 - i. **Grassland Protection**
 1. Casey presented information on a proposed ordinance to designate grasslands, meadows, prairies, and pastures as natural resources under 153-616. He outlined environmental concerns related to grassland ecosystems (such as grassland bird populations declining 53% since 1970 and loss of insects by 9% each decade), stormwater mitigation, and carbon sequestration.
 2. Discussion included ensuring that ordinance does not hamstring conservation, mowing schedule considers insect lifecycles, native versus non native versus invasive species considerations.
 3. EAC will continue to review and make revisions, for approval at the October meeting. It will be sent to township staff (manager, engineer, zoning, solicitor). Afterwards, it will be forwarded to the Planning Commission for review and recommendation by December meeting. It will be sent to the Board of Supervisors at a subsequent meeting for advertisement and voting.

4. Brett will lead coordinating review and revisions.

- ii. **Landscape Ordinance**

1. Reviewed revisions to the "Street trees and plantings" and "Street trees and plantings" ordinances with the goal of removing invasive and watch list species and encouraging native plantings.
2. Donna motioned to recommend the ordinance updates, Dave seconded. Motion passed unanimously.
3. Brett to complete formatting changes and forward to township staff for review.

- b. Dark Skies - Ordinance to improve lighting standards in accordance with Dark Skies was passed by the Board of Supervisors at their August meeting.

7. Old Business

- a. 2025 projects

- i. **Troxel Meadow project**

1. Board of Supervisors has officially changed the name of the no-mow area at the municipal building to Troxel Meadow.
2. Second treatment occurred Monday, September 7. Contractor has recommended a seed mix of 5 grasses to overseed. Quotes pending for seed blend and for 2026 restoration of no mow area along Bustard Rd. Bustard Rd site includes thistle and Bradford pear; contractor recommends spot treating.
3. Contractor is willing to give a workshop about meadow restoration next year.
4. Signage - Motion to post educational information on township website and create a sign for Troxel Meadow by Dave, second by Brett. Passed unanimously.
5. Joyce and Dave to work on sign design and send to Public Works

- ii. Workshops -

1. **Permaculture Workshop discussion-**

- a. Dave to send information to Michele for advertising.
- b. There will be a \$15 sign up fee, and participants will receive education book giveaway

- iii. Grants- Nothing to discuss

- b. Budget

- i. 2025 Budget planning

1. We have remaining budget to subsidize additional native plant sets from Journeywork for residents. Rory to work through logistics with

Journeywork to enable township to subsidize half of the native plant sets for residents.

ii. 2026 Budget Planning

1. Reviewed proposed budget line items including: no mow restoration, native plant set subsidies for residents, EAC conferences, Bird Town, operations.
2. Corina motioned to request a budget of \$10,200, Joe seconded. Passed unanimously.

8. Township Updates (Informational) - EAC members invited to Citizens Committee Volunteer Luncheon.

9. Upcoming Events -

- a. Bird Town PA Subcommittee meeting - September 11th, 7 PM Towamencin Township building
- b. Native plant sale - September 20th, 9-1 at Firehouse Park
- c. EAC Budget Presentation, October 15th, 6:30 PM
- d. Permaculture Workshop, October 20th 7:00 PM

10. Any other business and closing

- a. Reviewed process to apply as an Associate member of the EAC.

11. Adjournment at 9:37 PM

Towamencin Township Environmental Advisory Council

Minutes for the October 14th, 2025 Meeting

Council members present: Rory Kelley, Corina Fiore, Brett Mackay, Rich Costlow, David McCreary, Donna Hegge, Vanessa Gaynor, Joe Meehan

Supervisors present: Joyce Snyder (liaison), Amer Bargouth

Public present: Bruce Bailey, Casey Hannings, Anthony Long

1. Call to order at 7:00 PM
2. Opening comments - In addition to needing to elect a new chair after his term ends, Rory is looking for volunteers to take over EAC mailing list and the annual project list management.
3. Public Comments - No comments
4. Approval of minutes -Brett motioned to approve minutes, Joe seconded.
5. Bird Town PA Subcommittee- There is a Bird Town leaders meeting on October 30. Hosted a native plant sale on September 20 at Firehouse Park with shrubs, trees and perennials sold by David Brothers. Improvements for next time include having more advertising (including EAC mailing list), doing pre-orders, adding signage at sale location, and reducing total sale time from four hours to two hours. David Brothers is interested in attending Towamencin Day in 2026.
6. New Business
 - a. Ordinances
 - i. **Grassland Protection**
 1. Discussed purpose of ordinance and whether the intention is to apply to all existing properties. The intention is for this to apply to large plots of land subject to a subdivision and land development plan.
 2. Reviewed and revised draft Grassland Protection Ordinance. Substantive revisions included increasing minimum size of the Grassland Protection Zone.
 3. EAC members to review updated draft to prepare for final review & approval at November meeting.
 - ii. **Landscape Ordinance**
 1. Still under review with Mary Stover, township engineer.

7. Old Business

a. 2025 projects

- i. **Troxel Meadow project**- Contractor will complete final treatment within the next week and then overseed within the next month. Contractor will make a presentation as part of our resident workshops next year.

ii. Workshops -

1. **Permaculture Workshop** - Monday, October 20 from 7-8 PM at township building.

b. 2026 projects

- i. **Troxel Meadow maintenance & Bustard Rd.** No Mow restoration will be included in 2026 budget request.

c. Budget

- i. 2025 Budget Review - We are on track to utilize the budget for 2025.

8. Township Updates

9. Upcoming Events

- a. EAC Budget Presentation, October 15th, 6:30 PM
- b. **Permaculture Workshop**, October 20th 7:00 PM
- c. Bird Town PA meeting, November 6th, 7:00 PM
- d. EAC Network Fall Gathering - PSU Malvern November 15th

10. Any other business and closing

11. Adjournment at 9:31 PM.

Towamencin Township Environmental Advisory Council

Minutes for the November 11th, 2025 Meeting

Council members present: Brett MacKay, Corina Fiore, David McCreary, Donna Hegge, Joe Meehan, Rich Costlow, Vanessa Gaynor

Board liaison present: Joyce Snyder

Public present: Bruce Bailey, Casey Hannings

1. Call to order at 7:12 PM
2. Opening comments - None
3. Public Comments - None
4. Approval of minutes - Brett motioned to approved, seconded by David, approved unanimously
5. Bird Town PA Subcommittee - Reviewed November 6, 2025 meeting. For early 2026, the committee is working on preparing for a children's workshop on January 17, 2026 and installing bird boxes at Troxel Meadow. Although not required to submit an annual report, the committee plans to do so in order to attempt to be moved to a higher municipal certification level.
6. New Business
 - a. Ordinances
 - i. **Grassland Protection**- EAC reviewed draft ordinance. Corina motioned to approve draft and send to the township engineer for review, Brett seconded, approved unanimously.
 - ii. **Landscape Ordinance** - Mary is still reviewing the draft.
7. Old Business
 - a. 2025 projects
 - i. **Troxel Meadow project** - Final treatment for 2025 has occurred. Meadow will need to be mowed so that custom grass blend can be overseeded within next month.
 - ii. Workshops -
 1. **Permaculture Workshop recap** - 11 residents attended, and the topic was well received.
 - b. 2026 projects

- i. **Troxel Meadow** - Spot treatment might be required if we have breakthrough invasives.
- ii. **Bustard Rd. No Mow** - Area will require spot treatment due to area being a mix of native and invasive plants. Discussed long term plan to remediate all no mow areas & eventually Kibler Meadows, and possibly reclaim additional township areas as no mow meadow.

c. Budget

- i. 2025 Budget - Reviewed remaining funds (approximately \$600) to be used for 2 education signs at Troxel Meadow and supplies for Bird Town and invasive removal.

8. Township Updates -

- a. **OSPAC submitted a grant application for trees along Kibler Meadows parking lot. 2025 OSPAC trees will be installed along the path at Firehouse Park.**
- b. 2026 budget should be finalized in December.
- c. **Joyce will investigate enforcement of invasive species ordinance and/or require naturalization plantings on undeveloped properties.**
- d. SALDO has been submitted for Walton Farm and Freddy Hill properties and under review with township staff.
- e. Towamencin Day 2026 may be moved away from Mother's Day weekend - to be decided early 2026.

9. Upcoming Events

- a. EAC Network Fall Gathering - PSU Malvern November 15th

10. Any other business and closing

- a. Rory and Vanessa will not be reapplying for membership at the end of 2025. There will be 2 full member vacancies and 2 associate vacancies in 2026.
- b. We will reorganize at first meeting of 2026.

11. Adjournment at 8:49 PM

Towamencin Township Environmental Advisory Council

Agenda for the December 9th, 2025 Meeting

Council members present: Anthony Long, Brett MacKay, Corina Fiore, Joe Meehan, Rich Costlow, Rory Kelley, Vanessa Gaynor

Public present: Bruce Bailey, Casey Hannings

Board Liaison present: Joyce Snyder

1. Call to order at 7:00 PM
2. Opening comments
 - a. Welcome Anthony Long as new associate member
 - b. Last meeting for Rory and Vanessa, whose terms are expiring
3. Public Comments
 - a. Bruce thanked those who attend EAC meetings regularly
4. Approval of minutes - Motion by Joe, second by Brett. Approved unanimously
5. Bird Town PA Subcommittee
 - a. 1st meeting of the year on January 8th
 - b. Children's workshop on January 17th, need to coordinate with township to get advertisement out
 - c. Public are encouraged to attend
6. New Business
 - a. Ordinances
 - i. Feral cat ordinance - Brett motioned to close review of possible feral cat ordinance due to inaction , Corina seconded. Pass unanimously.
 - ii. **Landscaping** - Brett has not heard back from Mary Stover, township engineer, regarding her review of the ordinance draft
 - iii. **Grassland** - Donna sent to Mary Stover, township engineer, for review.
7. Old Business
 - a. 2025 projects
 - i. **Troxel Meadow project**

1. Public Works mowed and contractor seed drilled. Will know in spring if we need additional spot treatment.
 2. David to finalize the website update with educational information about the project and send it to the township.
 3. Rory to coordinate with Public Works to have 2 signs made to post at meadow.
 - ii. Annual Report
 1. Rory has started the annual report to present to the Board of Supervisors regarding 2025 accomplishments. Corina to coordinate completion.
 2. Annual reports should be added to the EAC section of the township website.
- b. 2026 projects
 - i. Troxel Meadow - Spot treatment to occur in spring if needed
 - ii. Bustard Rd. No Mow - Received quote for treatment
 - iii. Children's Workshop - Bird Town planning event for mid-January for children to make bird houses
 - iv. Towamencin Day - 2026 date not yet confirmed, planning should begin soon in order to secure vendors and ensure proper planning.
- c. Budget
 - i. 2025 Budget - Will send a list of small items to the township to order.
 - ii. 2026 Budget - Board of Supervisors to vote on township budget tomorrow, December 10.
8. Township Updates
 - a. Joyce reviewed the preliminary plan from the application for Project Hilltop (Freddy Hill property).
9. Upcoming Events
 - a. Children's Bird Town Workshop - January 17, 2026- 10am -12pm
10. Any other business and closing
11. Adjournment at 7:59 PM

Towamencin Township Environmental Advisory Council

Minutes from the January 13th, 2026 Meeting

Council members present: Anthony Long (Assoc.), Brett MacKay, Corina Fiore, Joe Meehan, David McCreary, Donna Hegge

Council members absent: Rich Costlow (Assoc.)

Public present: Bruce Bailey, Casey Hannings

Board of Supervisors (BOS) Liaison present: Vanessa Gaynor

1. Call to Order - 7:00 PM
2. Opening Comments - none.
3. Public Comments - none.
4. Approval of minutes - Motion by Corina, second by Brett, approved unanimously.
5. Bird Town PA Subcommittee
 - a. Children's workshop on January 17th from 10 am to 2 pm at the Township Building.
 - b. Birdhouses to be purchased for installation in Troxel Meadow.
 - c. Looking into purchasing/installing birdfeeders/birdseed in Fischer's Park. Anthony volunteered to help with refilling birdfeeders with birdseed.
6. Reorganization for 2026
 - a. Treasurer - David McCreary, motion by Brett, second by Corina, approved unanimously.
 - b. Secretary - motion made to vote on this position at February meeting, motion by Corina, second by Joe, approved unanimously.
 - c. Vice-Chair - Corina, motion by Joe, second by David, approved unanimously.
 - d. Chair - Donna, motion by Joe, second by Brett, approved unanimously.
 - e. Joe informed the EAC that he plans to resign from the council soon. The members thanked him for his many years of work on the EAC.
7. Old Business
 - a. 2025 projects
 - i. **Troxel Meadow project**
 1. Meadow seeded in the fall, germination will happen in the spring, mowing will occur in summer.

2. Joyce Snyder requested a sign from the Township to install in the Meadow. David to check on the progress with Colleen Ehrle and Michelle Sepulveda.
 - ii. Annual Report - Corina to complete the annual report regarding 2025 accomplishments. The report will be reviewed by the EAC, emailed to the Board of Supervisors, and emailed to Michelle/Colleen to post on the website.
 - iii. Grasslands Ordinance Report - Mary Stover has questions on the Grasslands and Landscaping Ordinances. Brett will invite Mary to the February EAC meeting.
 - iv. Other Ordinances - The Dark Skies Ordinance is on the 1/14 BOS meeting agenda for approval.
- b. 2026 projects
 - i. Troxel Meadow project - See 2025 project above.
 - ii. Bustard Road No Mow - This project is in the 2026 EAC budget. David has a quote for spot treatment of invasive plants - \$2,000 for the first application and \$1,000 for the second application. David will look into the assistance required from Public Works, give David Kraynik the information, and David K. will ask for BOS approval.
 - iii. Children's Workshop - see Bird Town PA Subcommittee Report above.
 - iv. Towamencin Day - The date has not been set by the Township. Once the date is set, Donna will email David Brothers nursery to ask them about a native plant sale.
- c. Budget - Treasurer's Report
 - i. 2025 - Vanessa to send David the Bird Town expense report.
 - ii. 2026 - Budget is \$10,200. Earmarks of \$1,500 for Bird Town, \$650 for Operational Support, \$2,500 for Troxel Meadow.
8. New Business - Open Space and Parks Advisory Committee (OSPAC) - Joe made a presentation to the BOS on 1/12 to express OSPAC's assessment that the Walton Farm and Freddy Hill Farm subdivisions do not provide adequate recreational characteristics. Joe will email the subdivision plans to the EAC members for review and requested EAC support on the OSPAC assessment. The subdivision plans will be discussed at the 1/19 BOS meeting.
9. Township Supervisor/Manager Report - Vanessa informed the EAC that there are two candidates for the open EAC slots. On 12/10, Pulte presented an 86 townhome subdivision for the Bird Farm property; however, the BOS will not grant the required Zoning variance.
10. Next Meeting - 2/10
11. Adjournment - 8:35 PM

Towamencin Township Environmental Advisory Council

Minutes from the February 10th, 2026 Meeting

Council members present: Anthony Long (Assoc.), Brett MacKay, Corina Fiore, Joe Meehan, David McCreary, Donna Hegge, Rich Costlow (Assoc.), Wendy Zoll Fillgrove, Casey Hannings

Council members absent: None

Public present: Bruce Bailey

Board of Supervisors (BOS) Liaison present: Vanessa Gaynor

Guests present: Mary Stover and Kim Flanders of CKS Engineers (Township Engineer)

1. Call to Order - 7:00 PM
2. Opening Comments - the EAC welcomed newly appointed EAC members Wendy Zoll Fillgrove and Casey Hannings.
3. Public Comments - none.
4. Approval of Minutes - 1/13/2026 - Motion by Joe, second by Brett, approved unanimously.
5. Bird Town PA Subcommittee Report by Bruce Bailey
 - a. 1/17 Children's Workshop went well despite snowy weather. Leftover craft materials can be used for Towamencin Day.
 - b. Troxel Meadow birdhouses - four birdhouses to be purchased for installation in Troxel Meadow, send the information to Vanessa, installation locations to be determined.
 - c. Fischer's Park birdfeeders - purchasing/installing birdfeeders/birdseed in Fischer's Park is under discussion. Anthony volunteered to help with refilling birdfeeders with birdseed.
6. Reorganization for 2026 - Secretary - motion made by Corina to appoint Casey,, second by Joe, approved unanimously.
7. Old Business
 - a. 2025 projects
 - i. **Annual Report** - Corina to complete the draft 2025 annual report to review and finalize at the March meeting. The report will be reviewed by the EAC, emailed to the Board of Supervisors, and emailed to Michelle/Colleen to post on the website. Things to include in the report are Bird Town, Dark Skies Ordinance, contribution to Township newsletter, Native Plant Sale, Permaculture Workshop,

EAC support of Journeyworks application for grant with Morgan Log House.
Things to remove from the report are 2026 goals.

- ii. **Grasslands Ordinance Report** - Mary Stover and Kim Flanders expressed their assessment that the ordinance is not legally defensible because homeowners who have grasslands won't be able to develop their property. Other points discussed - who will maintain the grasslands and is the ordinance a reverse incentive for people to mow. Casey expressed that perhaps the ordinance can be revised to make it legally defensible.
- iii. **Landscape and Other Ordinances** - Mary and Kim reviewed their comments on ordinances mentioning landscaping or planting with the EAC. CKS will revise the ordinances and resend them to the EAC for final review and recommendation to the Board of Supervisors.

b. 2026 projects

- i. **Troxel Meadow** - sign design chosen.
- ii. **Bustard Road No Mow** - A contract was signed with the same firm doing Troxel Meadow, Weeds, Inc. David will look into the assistance required from Public Works, give David Kraynik the information, and David K. will ask for BOS approval.
- iii. Open Space and Parks Advisory Committee (OSPAC)/EAC collaboration on subdivision review - OSPAC chair Joe presented a draft presentation on Open Space and Parks considerations for the Walton Farm and Freddy Hill Farm subdivision.
- iv. **Towamencin Day** - 5/30 - to be discussed at the March meeting.

8. New Business -

- a. Spring Newsletter Article(s) - Due 2/13, Donna to prepare.
- b. 2026 Workshops - to be discussed at the March meeting.
- c. 2026 Goals - to be discussed at the March meeting.

9. Treasurer's Report - 2025 and 2026 - David shared that the 2025 budget had \$462 unspent.

10. Township Supervisor/Manager Report - Vanessa informed the EAC that there is one open voting EAC position. An Associate EAC member can apply for the voting position. The Dark Skies Ordinance was approved by the BOS. At the 3/11 BOS meeting, comments on the Comprehensive Plan will be provided to Simone Collins. The EAC will discuss their comments on the Comprehensive Plan at the March meeting.

11. Next Meeting - 3/10

12. Adjournment - 9:37 PM

Towamencin Township Environmental Advisory Council

Minutes from the March 10th, 2026 Meeting

Council members present: Brett MacKay, Joe Meehan, David McCreary, Donna Hegge, Dr. Rich Costlow (Assoc.), Casey Hannings (Assoc.)

Council members absent: Anthony Long (Assoc.), Corina Fiore, Wendy Zoll Fillgrove

Public present: Bruce Bailey

Board of Supervisors (BOS) Liaison present: Vanessa Gaynor

1. **Call to Order** - meeting called to order at 7:05pm

2. **Opening Comments** - Anthony and Wendy and Corina unable to make it tonight per Donna.

3. **Public Comments** - Bruce to make comments during bird town. Open space meeting last night mentioned kriebel goes from bustard to springer road with bad curves. Bird feeders placed around the old house. Field leased out for farming hoping to become open space in future, connectivity a concern. Can kriebel be straightened out and rerouted to accomplish connectivity, mitigate hazardous turns, avoid old house, opens bridge, existing road can be used as a trail and for overflow parking. Bruce bringing to EAC attention for support. Joe mentions not a new idea. Was originally planned at concept of Fischers park during early 2000s. Costly plan. Road To skirt around perimeter of cornfield. What is environmental upside per Donna? To expand borders of park per Bruce.

4. **Approval of Minutes** - 2/10/2026 - minutes approved unanimously.

5. Bird Town PA Subcommittee Report

a. March 5th Meeting - bird town pa had a zoom meeting with several presentations. Combined with township meeting to keep all participants up to speed. Skipped most agenda and pushed to next meeting to participate. Good meeting with good topics.

b. Troxel Meadow birdhouses - blue bird houses were put up today by Steve. 4 houses total. 3 along tree line facing into meadow.

c. Fischer's Park birdfeeders - not discussed at last meeting. Plan to replace seed about twice a week. Where will seed be stored? Planned for area by old house around bridge. Need a lockable space. Old toolbox maybe with a lock.

d. Purple Martin birdhouse from Game Commission for Fischer's Park. - Game commission approved request to receive large umbrella like arrangement of nests. Helps

control insect populations over fields. Design rooted in historical indigenous cultures. Worth 500\$. Will be delivered to site and installed by parks. To be up by June. Martins to arrive mid spring and migrate back come fall. Requires some maintenance. Sign to educate about birds and structure. Two post holes to be dug by parks. Steve at parks all for it per Bruce. Best place at old ball field by sideline closest to parking lot facing out towards field. How do we formally tell game commission we will accept? Vanessa said to contact Dave Kraynik to extend an official acceptance email.

e. Early Spring Birding at Fischer's Park - Saturday, April 4, 2026, 7:30 to 10 a.m. - event still on for this time and day.

Existing comments. Go to Kibler meadow and roll down windows - stay quiet. American Woodcocks in area with classic meep sound around sunset. One of the best if not the best birding places in montco. Begin plan for next meadow in phases to accommodate existing birds.

6. Old Business

a. 2025 projects

i. Annual Report - Corina not here to present about this agenda item. To discuss at next meeting.

ii. **Grasslands, Landscape, and Other Ordinances** - received revised ordinances from Mary Stover of CKS Engineers on 3/5. They are in the Google Drive:

Towamencin EAC/Ordinance/Landscape Ordinance.

- Will need to go through planning because they are SALDO. Brett suggests we state to Mary stover that "We have reviewed them they're fine can they be placed on the planning commission agenda". To be reviewed by newly hired Zoning officer and planning director.
- Buffer yard requirements - edits accepted and approved
- Riparian corridor buffers - edits accepted
- Stormwater management landscaping - edits accepted
- Landscaping of off street parking areas - edits accepted
- Street trees ordinance - edits and changes look good and accepted by council
- A116 Plantings - edits all look good and accepted
- 136-704. Final plan - edits accepted
- Preliminary plans - edits accepted
- Landscape requirements - edits accepted
- Destruction of trees - edits accepted
- Brett to send email

Casey to draft up a feasibility letter to solicitor and share with Donna to send and ask about pursuing grasslands amendment further.

b. 2026 projects

i. **Troxel Meadow** - sign material - don't use yard signs and seek out a metal sign that can be relocated to new meadow restoration projects. Should be legible from road but to scan QR code a person will likely need to stop and approach. 24x26. Not specific to one site. Generic to apply to many sites. Planning to order 2-3. Cost tbd. Dave to explore options with Michel at township. Should be under 100 a piece.

ii. **Bustard Rd. No Mow** - no more news at the moment.

iii. OSPAC/EAC collaboration on subdivision review - met on the 25th of February with Tony from pinnacle. Presented same presentation about community facilities and open space for recreation to developer. Not enough room for this or that repeatedly said. Flat fields etc. not much info shared from developer as far as their alternative ideas. Just a presentation on what OSPAC was thinking. Met last night with Justin strayhorn - project manager for WB homes. Summarized pinnacle presentation but to highlight forest park area set for that development. Broke down by expected criteria. One trail along turnpike connecting anders to development sidewalk. Woods are in good shape with little invasives. Could some small trails be installed without cutting down large trees but some underbrush. Small playground but mostly trails and maybe a disc golf course through woods. Continue trail up past development into forest. More so in negotiation phase. Community members can be opposed to trails behind property. To present to public works on a sparrow meeting. Not a paved trail but something with minimal disturbance to add trails with educational signs identifying tree species.

iv. **Towamencin Day** - 5/30 - Bruce wants a table for bird town. Dave to help out. Donna available to sit at table. David brothers nursery interested in native plant sale (small scale) birdhouses. Ask Corina about clean water activities to educate public. Is David brother going to have difficulty moving plants off truck to table? Showpieces for each plant with pick up at truck in parking lot with show of receipt, Katie from township working out plan to park along kriebel on other side of the creek. Is there any potential to run a shuttle from fire house? Can we plant another tree in conjunction with OSPAC? Can David brothers supply tree? Notify township to assist similar to last year.

v. Spring Newsletter Article(s) - submitted to Michelle Sepulvida - Donna submitted to Michelle

7. New Business

a. 2026 Workshops - budgeted same amount as last year. Dave sent text to drew asking for day to give presentation on meadow restoration and ecological and safe herbicide use. To be compensated 300\$. Corina creek workshop was a big hit - could do again?? Dave can present again as well. Presentation of what to plant to deter deer from eating garden.

b. 2026 Goals - stick with current projects and complete to success.

c. **WeConservePA - PA Land Conservation Conference 4/29** - 5/1 - interested participants should contact Donna.

d. **Plastic Bag Recycling - Penndale versus High School. - who is taking recyclables?**

Kelly has not been doing it but would if needed. Rory wants to take to Penn Dale for recycling program. Accepted by board.

8. **Treasurer's Report** - Dave signed contract for 3 thousand for bustard road improvements. Not much other movement beyond that. Pollinator palooza to be looked into. Separately, Does EAC want to re-apply for grant at Morgan Loghouse? TBD

9. **Township Supervisor/Manager Report** - BOS meeting tomorrow to review comprehensive plan. Any specific recommendations from supervisors or public? EAC recommendations supportive of document and comments from last year included. Pinnacle presented alternative plan for 207 units at last meeting. Board voted to see an impact plan. Goal to make decisions on comp plan tomorrow to accept plan.

10. **Next Meeting April 14**

11. **Adjournment** - 9pm

Towamencin Township Environmental Advisory Council

Minutes for the April 14th, 2026 Meeting

MEETING MINUTES

Date: April 14, 2026

Time: 7:06 PM – 8:26 PM

1. CALL TO ORDER

The meeting was called to order at 7:06 PM.

2. ATTENDANCE

- **Members Present:** Joe Meehan, Donna Hegge, Dr. Rich Costlow (Assoc.), Anthony Long (Assoc.), Corinna Fiore.
- **Members Absent:** Brett MacKay, David McCreary, Wendy Zoll Fillgrove, Casey Hannings (Assoc.).
- **Liaisons Present:** Vanessa Gaynor (Board of Supervisors).
- **Public Present:** Bruce Bailey.

3. OPENING COMMENTS

Members noted the absence of several council individuals for the evening's session.

4. APPROVAL OF MINUTES

The minutes from the March 10, 2026 meeting were tabled. As Casey Hannings was not present, the approval will be addressed at the next scheduled meeting.

5. PUBLIC COMMENTS

- **Troxel Meadow:** A resident reported three occupied sparrow nests in the meadow. The public emphasized that emerging sprouts are native growth and should not be treated as weeds.

- **Bustard Road No-Mow:** Public recommendation was received to name the site “Liam Lookout.” Inquiry was made regarding the legal process for naming township meadows.
 - Action: Vanessa Gaynor will lead the investigation into naming requirements.
- **Events:** Announcement of a bird-oriented table at the Skippack Earth Day event on April 20, 2026.

6. SUBCOMMITTEE REPORTS

6.1 Bird Town

- The next meeting is scheduled for June 4, 2026.
- Pine needles have been added to the Purple Martin houses (provided by the PA Game Commission) at Fischer’s Park to encourage nesting.
- The Early Spring Birding event at Fischer’s Park (April 4, 2026) had approximately 30 attendees; 43 species were identified.

7. 2025 Projects

- **Annual Report:** The report is nearing completion, covering Education/Outreach, Restoration, and Ordinance Recommendations. No formal EAC vote is required; it will proceed to the BOS for publication. Bruce Bailey to provide the Bird Town summary.
- **Landscape Ordinance:** Currently with the Township Engineer. Vanessa Gaynor will confirm if the draft has been forwarded to the Planning Commission.
- **Grasslands Ordinance:** Tabled until the May meeting to allow for Casey’s input. Discussion focused on maintenance responsibilities for HOAs and private owners.

8. 2026 Projects

- **Troxel Meadow:** Project signs have been requested. Public continues to urge ongoing maintenance.
- **Bustard Road No-Mow:** Native plants are thriving due to fill dirt. Weeds Inc. is expected in June for management. A new candidate for 2027 no-mow status was identified at the corner of Bustard and Keer Roads.
- **Subdivision Review:** OSPAC is preparing a May 13 presentation for the BOS regarding “Project Hilltop.” Discussion held regarding storm water management at North Penn HS and the proposed 207-unit Pinnacle development.
- **Towamencin Day (May 30, 2026):** Planned presence includes 3-4 tables (Native Plants, Information, and Bird Town). Rich Costlow and Bruce Bailey will lead a tree-planting activity. Corinna Fiore will provide native seeds.
- **Workshops:** Fall 2026 dates are being reviewed for a Weeds Inc. workshop. Corinna Fiore is exploring partnerships with Temple Ambler and Penn State for deer-resistant plant education.

9. NEW BUSINESS

- **Native Plant Promotion:** Michael Ricci’s presentation is deferred to a future meeting. EAC to request his files from the Township office.
- **Treasurer’s Report:** David McCreary was absent; no updates other than the purchase of Troxel Meadow signage.

- Supervisor/Manager Report: Vanessa Gaynor reported on storm sewer/Skipack Creek grants and Comprehensive Plan updates regarding LEED incentives. Data Center Regulation was discussed; the Township is developing regulations for water and utility usage ahead of an April 29 vote.

10. ADJOURNMENT

- Closing Comments: Donna Hegge will email members to finalize the volunteer count for Towamencin Day.
- Adjourned: 8:26 PM.
- Next Meeting: May 12, 2026.

Council members present: Joe Meehan, Donna Hegge, Dr. Rich Costlow (Assoc.), Anthony Long (Assoc.), Corina Fiore

Council members absent: Brett MacKay, David McCreary, Wendy Zoll Fillgrove, Casey Hannings (Assoc.)

Public present: Bruce Bailey

Board of Supervisors (BOS) Liaison present: Vanessa Gaynor

1. **Call to Order Meeting** Called to order at 7:06.

2. **Opening Comments**

2.1 Discussed members not in attendance tonight.

3. Public Comments

3.1 **Troxel Meadow Observations** A member of the public reported that three nests within Troxel Meadow are currently occupied by sparrows. Additionally, it was noted that the recent sprouts appearing in the meadow should be preserved, as they are believed to be native growth rather than weeds.

3.2 **Naming of Open Space (Bustart Road)** The public expressed a desire to formally name the open space located on Bustart Road, recommending the name “**Liam Lookout.**” A request was made for specific procedural details regarding the official naming process for township meadows.

- o **Action Item:** Vanessa Gaynor offered to lead the inquiry into the naming requirements and process.

3.3 **Upcoming Events** An announcement was made regarding a bird-oriented informational table being organized for the **Skippack Earth Day** event scheduled for this weekend, **April 20, 2026**

4. **Approval of Minutes from 3/10/2026 Meeting** - Casey Hastings (Assoc.) was not present to approve the 3/10/2026 minutes. This will be discussed and completed at the next EAC meeting.

5. Bird Town PA Subcommittee Report

- a. Next Meeting- 6/4/2026

- b. Purple Martin birdhouse from PA Game Commission for Fischer's Park - pine needles have been placed in the houses to improve nesting.
- c. Early Spring Birding at Fischer's Park - 4/4/2026 - approximately 30 people attended, 43 different birds were spotted in 2 hours time.

6. Old Business

2025 projects

- i. **Annual Report** - Requested additional information from Birdtown Subcommittee as well as pictures from EAC events in CY2025. Information has all been entered and the Annual report is almost ready for publication. The report is broken into three initiatives: Education and outreach Initiatives, restoration and ecological improvement of open space, and reviewing and recommending environmental ordinances for best environmental practices. Discussed if the EAC will need to vote on this report, and determined this was not necessary. It will pass through the board of supervisors and be published. Bruce to provide a write up of birdtown committee activities.
- ii. **Landscape** - Brett sent the final landscape ordinance to Mary Stover, Township Engineer, they will need to be sent to the planning commission next but have not been so yet. Vanessa to follow up with Mary to confirm if they have been sent.
- iii. **Grasslands** - Discussed concerns over the grasslands ordinance, and discussed that these concerns will be shared by the township solicitors as well as the board of supervisors. Casey provided a draft email addressing these concerns. Discussed that maintenance will be left onto the property owner, to include home owners associations (HOAs), under the current ordinance verbiage. The discussion of the grasslands ordinance was tabled until the May EAC meeting, when Casey would be present to provide input. The EAC agreed this is a positive contribution to township ordinance, and we should continue to discuss and pursue finalization of the ordinance. The EAC believes the township solicitor should ultimately determine the fate of this ordinance.

b. 2026 projects

- i. **Troxel Meadow** - David McCreary is not present to discuss this project. Public comments urged EAC members to maintain this project as needed. Signes have been requested per David.
- ii. **Bustard Rd. No Mow** -This project does not need a total herbicidal kill to remove invasive species, this was populated with native plants due to the the fill dirt that was placed in this location. Weed inc is suspected to be present sometime in June for no mow/meadow management. Discussed selecting an additional area for no mow designation in 2027. Possible candidates included:

1. Corner of Bustard and Keer road, next to the water treatment plant.
- iii. OSPAC/EAC collaboration on subdivision review - OSPAC is working towards a presentation directed at the Board of Supervisors for May 13, illustrating their thoughts on what should be completed by the developers of project hill top. These opinions are in line with EAC opinions presented at the meeting on 2/10/2026. Discussed the storm water management of North Penn high school and the changes taking place along Route 63, to the north of the high school. Pinnacle is offering 66 acres of open space with their new proposed 207 unit development plan.
- iv. **Towamencin Day - 5/30/2026** - left over crafts from Birdtown subcommittee children's activity. Proposed ideas of what to present at the EAC table. Rich and Bruce discussed planting a tree again similar to 2025, and they are willing to support this activity again. Corinna and Donna stated they can be there for a majority of the day but not the whole time. Bruce formally requests a table for the Birdtown Subcommittee sponsored by the EAC. Donna reached out to Davids Brothers plants to discuss native plant sales, but have not heard back from them at this time. EAC members could present native plant information to attendees, and Corinna offered to bring native plant seeds. Plan to request 3-4 tables for the event. Table designation is planned as follows:
 1. Native Plant Table
 2. Native Plant Information Table
 3. Birdtown Subcommittee Table with crafts
- v. Workshops -
 1. **Potentially Weeds Inc.** - per email from David dates will be reviewed for the Fall of 2026.
 2. **Deer Resistant Plants** - Lead by Rich, the presentation that he has seen was hesitant to present this to the township, as the owner of this presentation was a business owner who was not confident in their upside to this commitment.
 - a. Discussed the potential of reaching out to Temple Ambler Campus, and local Penn State chapters. Corinna has stated she will take the lead on reaching out to connections.
 3. **We get a free workshop from Perkiomen Water Shed Commission, the EAC will research this possibility.**

2. New Business

- a. Township resident Michael Ricci presentation on native plant promotion - Michael Ricci was not present at this meeting, and the EAC will work to schedule a future time for him to

make his presentation. The EAC will also need to request the file shared by Michael from Michelle (info@towamencin.com).

3. **Treasurer's Report** - David M. - David was not available to present this report. Only change has been the ordering of signs for the Troxel Meadow Project.
4. **Township Supervisor/Manager Report** - Vanessa states they are prepping a grant for the storm sewer improvement, and the Skippack creek improvement. They worked through the comprehensive plan and all the recommendations, relevant to the EAC, stated LEED certification would provide density bonus and the township will work towards property bonus but did not designate a specific incentive. Waiting on updates to the comprehensive plan from the consultant. Data Center regulation, hyperscale data centers are large centers fueling AI boom as well as daily internet operations. Township is required to permit data centers, but they can be regulated under township regulations. Board focused on water usage, sound, utility usage, and this was sent to the planning commission. This was advertised for a vote on the April 29th meeting. At this time there is no state directive, however Montgomery and Chester counties have provided guidance. Township is obligated to have space for all legitimate use, therefore data centers cannot be full blocked from the township. The location of these areas are likely north surrounding Wambold road.
5. **Next Meeting** - 5/12/2026
 - a. Closing comments - What members of the EAC can attend Towamencin day to man the tables? Dona to send out an email for a head count. Anthony cannot attend, Rich and
6. **Adjournment** - 8:26

Towamencin Township Environmental Advisory Council

Minutes from the May 12th, 2026 Meeting

Council members present: All members present.

Council members absent: All members present.

Public present: Bruce Bailey

Board of Supervisors (BOS) Liaison present: Vanessa Gaynor

1. Call to Order: The meeting was called to order at 7pm.

2. Opening Comments

There were no opening comments from council members.

3. Public Comments

There were no public comments.

4. Approval of Minutes from 3/10/2026 and 4/14/2026 Meetings

- The council discussed potentially rectifying some grammatical errors and sentence structure issues within the March 10th minutes to ensure all comments were written in complete sentences. Joe and Corina motioned to approve the March 10th minutes as they were. The motion passed unanimously, and the minutes were approved.
- Corina and Joe motioned to approve the April 14th minutes. The motion passed unanimously, and the minutes were approved.

5. Bird Town PA Subcommittee Report

Bruce Bailey provided the following updates on Bird Town...

- The next meeting will be held on June 4, 2026.
- The subcommittee will be hosting a table during Towamencin Day.
- Informational handouts from Bird Town central will be shared with the group at a later time.
- Bruce had attended a zoom meeting about "Bird City" which is a new network that seeks to form a union between different bird organizations worldwide. As different organizations grow and gain new memberships they can often start to compete with each other. This network aims to decrease the competition and improve collaboration across their shared goals.

- Bruce “feels like a foreigner at times” - despite being a resident all his life.
- Bird City is primarily looking to homogenize all the different groups into one large online presence.
- Interested municipalities and organizations would be encouraged to participate with a webpage. Pictures and informational message blurbs from the township could be uploaded to this site, and would be automatically formatted to be uniform with the other participating organizations.
- Bruce is looking for a volunteer to take on this objective. He is ideally looking for someone younger with the time and familiarity to tackle managing an online cover page.
- The idea is to join the crowd and build awareness for the Township’s birds within our local parks.
- Bird City essentially operates as a website directory for the different bird organizations from Canada down through South America.
- Corina mentioned that her daughter could potentially take on this task.
- Bird Town is now looking to track volunteer data with documentation. The data they are looking to collect includes... How many hours are volunteers working? How many attendees are at events? How many volunteers are at each event? How many members are at each event? How many events are being held? All of these data points are likely being collected for grant-writing purposes.

a. Next Meeting - 6/4/2026

b. Table at Towamencin Day next to EAC tables - Donna H. requested table and 2 chairs

6. Old Business

a. 2025 projects

i. Annual Report - Corina F.

- Corina presented an overview page by page of the annual report that she had drafted.
- The report contains an introductory and conclusion page with 3 separate sections in between that detail the EAC’s education and outreach initiatives, ecological improvement projects, and ordinances reviews.
- Corina will look for a picture to include highlighting Towamencin Day 2025.
- The ecological improvement section highlights the invasive species clean ups and meadow restorations.
- Ordinances featured only entail those brought to completion by time of report drafting. These include the Dark Skies and updated Landscaping ordinances.
- The council will review the report and look for any needed revisions or alterations.
- Comments can be made directly on the document by council members for review at the next meeting
- Vanessa will receive the finalized draft and share it with the Board of Supervisors and township staff to post online.

ii. Proposed Grasslands Ordinance - Discuss Proposed Grasslands Ordinance alterations by Casey H.

- All new edits should be tailored to a potentially new solicitor.
- A question was raised about whether the protection up to 25% of the total property would be separately preserved, or count towards the obligated 35% open space requirement per select township zoning requirements.
- A few council members inquired about the potential to exceed the 35% open space cap and seek to include this protection on top of that requirement.
- It was noted that this protection would have to be carefully drafted to work with the various open space requirement percentages as set by the different zoning districts.
- Brett recommended that the wording within the ordinance be changed from "total area footprint" to "net lot area" in order to be consistent with other ordinances.
- Brett will take a look at the ordinance, and incorporate the revisions as shared by the group with some word tinkering.
- The ordinance will come back for review at the next meeting for a vote, and the decision to share with the township engineer and solicitor at that time.
- Vanessa mentioned that if the protection raises the maximum preserved space above 60% it could be problematic in restricting the number of units a developer is entitled to build based on lot sizes.
- The ordinance will need to be reviewed thoroughly to ensure it complies within the law.

b. 2026 projects

i. Troxel Meadow

- Dave shared an update on the meadow project.
- The native grasses are starting to come in. Now is the time to wait and enjoy growing process.
- Dave has drafted new signs for the restoration projects that can be found in the restoration folder on the Google Drive.
- There are two options: 18x24 or 24x36. Both sizes would be printed on laminate metal. The prices for each sign respectively would run either 154\$ or 262\$.
- A question was asked about where will the signs be stored?
- The signs feature a QR code which would be more easily scannable on a larger format.
- The council would like to acquire a couple signs to have on standby for multiple projects. The council will explore potentially getting a discount if purchased in a bulk quantity.
- The signs are 3mm single sided with grommets for pole mounting.
- The signs would face out towards roads.
- Troxel meadow stands as a "proof of concept" for larger projects.
- More permanent signs will be installed later on once the project is completed to memorialize the work.
- The council would like to add a bench too.

ii. Bustard Rd. No Mow

- There are no major updates on this item. Drew has not gotten back to Dave yet regarding the fall presentation. Drew has evaluated the space and says that it is in decent shape. It will not need as intensive of a treatment as Troxel. Drew will spot treat the Bradford pears and other invasives come June or July.
- The EAC is looking to rename Bustard Road No Mow to a better name. The EAC is looking for suggestions to bring to board based on historical significance. Liberty meadow? Bustard family farm meadow? Apple meadow? Bustard meadow?
- The EAC performed some brief research into the history of the Bustard family. The EAC looked to identify where the Bustard family farm was located - was it situated by the meadow, or further down past fishers park?
- The EAC agreed simply on "Bustard Meadow" as their recommendation. Vanessa to bring up the name change to the other supervisors.
- Dave signed the proposal for Drew to treat bustard meadow twice. These treatments are budgeted on the books for 2,000\$ and 1,000\$ during the year.

iii. OSPAC/EAC collaboration on subdivision review

- OPSAC will be making a presentation to the Board of Supervisors tomorrow night. More work and updates have been made to their presentation. The proposed idea has been dubbed "Hilltop Grayson Green." These ideas have been presented to the developers. Pinnacle didn't believe there was enough room for the ideas. OSPAC believes the retention basins should be moved around in favor of open space considerations. The Walton Farm developers have not seemed open to change having already been given the supervisors' blessing. The plan features trails through the forest. OSPAC was informed to go to the supervisors first before presenting to the planning commission for the sake of speedy visibility on the idea. Pinnacle currently has no plan for recreation spaces as required by the township zoning codes. The MRC district calls for 25% open space with 20% planned and designated for active recreation use.

iv. Towamencin Day - 5/30/2026

- Bruce, Dave, Corina (afternoon hours only), and Donna (early hours before 4 only) will all support running the table.
- The table will feature native plant information.
- There has been no word from David Brothers Nursery for tree plantings.
- Birdtown will have a table with crafts and information.
- The EAC is awaiting information from Katie regarding the availability of tables and chairs.
- Bruce has a friend Maggie who grows native plants and asked whether she would be able to support? She would not be able to sell her plants.
- Dave from Behmerwald's Nursery is unable to assist.
- Can the EAC provide deer resistant plant information?

- Donna will aim to contact David Brothers.

v. Workshops - Potentially Weeds Inc. in the fall and PWC - Donna H. to contact

- David is awaiting a date from Drew regarding his next presentation.
- Donna will contact the Perkiomen Watershed Conservancy regarding another workshop in the future.

7. New Business

a. Township resident Michael Ricci native plant presentation

- The presentation is still being put together and the EAC is awaiting more information. Michael wants to start a program promoting the planting of native trees and plants by families in the township.

b. Single-use plastic ban - Lois Ann Handrich and Joan Johnson

- Residents dropped off letters at the front desk of the administrative office. The residents were invited to come to a future meeting. Council members stated that there were "not many shops in the township that this would pertain to."

8. Treasurer's Report - David M.

- There has been no spending as of yet.
- A total of \$1800 has been set aside for 3 workshops.
- \$375 has been set aside for pollinator pollooza.
- There is an operational budget of \$650.
- There is a project budget of \$5,500 with \$3,000 of that amount already being spoken for.
- There is \$7,134 left to spend.
- \$934.28 was spent on bird houses.
- There is \$500 for operational support.

9. Township Supervisor/Manager Report - Vanessa G.

- The township passed a data center regulation ordinance. The township is required to allow for every legal use within zoning districts. The township can only regulate and not ban data centers as a permitted use. The passed ordinance provides groundwater restrictions, noise limitations, and energy usage regulations. The supervisors felt that it was important to implement basic protections first and will review the ordinance to provide updates in the future. The board is looking to lower the decibel requirements based on the type of frequency in those forthcoming changes. The Planning commission is set to re the changes and recommendations from the County. Bruce asked if we could lower the sound requirements for other businesses?
- The Board of Supervisors is voting to advertise the landscaping ordinance at tomorrow's meeting.

10. Next Meeting - 6/9/2026

11. Adjournment

Towamencin Township Environmental Advisory Council

Minutes from the June 9th, 2026 Meeting

Council members present: Brett MacKay, Joe Meehan, David McCreary, Corina Fiore, Dr. Rich Costlow (Assoc.), Anthony Long (Assoc.), Casey Hannings (Assoc.)

Council members absent: Donna Hegge, Wendy Zoll Fillgrove

Public present: Bruce Bailey

Board of Supervisors (BOS) present: Vanessa Gaynor (Liason), Kofi Ossei

1. Call to Order 7:02

2. Opening Comments - none

3. Public Comments - none

4. Approval of Minutes from 3/10/2026, 4/14/2026, and 5/12/2026 Meetings - motion passes with a vote of four. Joe motioned for the vote with Dave seconding.

5. Bird Town PA Subcommittee Report

- Bruce Bailey shared updates about bird town.
- The subcommittee met last week.
- The bird town group has started feeding data to “Bird City” which is an online platform that unites birding organizations from across the globe. The group is also looking to upload pictures with descriptions of birds from the township. The platform essentially operates similar to an Amazon catalog. Bruce encouraged the council to check it out.
- Bruce also shared that there was a good turn out at Towamencin day. Andrew had put together a presentation of all the birds he’s photographed at Fischer’s park and shared the display during the event, but it was too windy for crafts. The table did hand out bird kits as well.
- Stacy from the Veteran’s Committee asked Bruce if Bird Town could help install bird houses at a local cemetery in the township. Bruce shared with the EAC that some residents may believe the request to be appropriate, but some may not. Andrew has researched some old colonial style bird houses that could potentially be considered. There is some concern about bird droppings potentially impacting the headstones. Bruce shared that he believes almost everyone enjoys birds. Bruce also shared that the colonials didn’t have bird houses; but, instead they had bottles made out of clay and pottery jugs that would be mounted under roofs horizontally for natural pest control and crop protection. These designs were influenced by Native American/Indigenous communities and discouraged the birds from burrowing into structures. The bottle homes

were not a “mini house”, but a simple crafted design. If this idea is pursued it may require some small amount of money from different committees. Bruce believes that supporting as many species as we can is a good idea even in cemeteries that are traditionally landscaped at least with something for sight appeal. Stacy is looking for support.

a. Towamencin Day recap

- The event went well. There was a table for both Bird Town and the EAC. David Brothers offered native plants during the event. ENACT talked about birds, shared the benefits of native plants, and offered a kid’s project. Most people were very interested and engaged although there was one person who stated that he “didn’t like birds.” David Brothers is more interested in networking rather than selling a product and is more than willing to return each year.

b. Birdhouse and bird feeder projects

- The new Purple Martin houses at Fischer’s Park may be occupied, but the exact species will need to be confirmed. The houses will need to be taken down in August for winter storage and maintenance.

6. Old Business

a. 2025 projects

i. Annual Report for approval

The report has been distributed to the board, approved, and is now active on the website.

ii. Proposed Grasslands Ordinance

- The proposed ordinance with its changes will need to be sent over to the new solicitor for general review rather than final red lining. Dave motioned for a vote and Brett seconded. All 4 members voted in favor of sharing the proposed ordinance to the solicitor and it passed. Vanessa will share the draft with the solicitor and engineer for review and feedback.

b. 2026 projects

i. Troxel Meadow

- Dave shared that the new signs for the meadow have been received and showed the finished product to the group. The group collectively felt that they looked great!
- Dave also shared that Troxel Meadow was just mowed after a quick back and forth with Steve Masters. More spot treatment for remaining thistle will occur in summer. By the end of this year there should be a good show for the public.
- A storyboard would be a good push for a project like this per Rich.
- Native grasses have been established and birdhouses have been installed.
- The council will look to plant trees and install benches later on.

ii. Bustard Rd. No Mow

- Spot treatment will be conducted to protect native plants already existing on the site.
- The next meadow restoration location is next to the water treatment facility on Kriebel Road ultimately working towards restoration of Kibler Meadow.
- OPSAC has a general idea for where they will plant trees this calendar year, and could potentially look at adding trees to the restoration sites.
- Joe recommends exploring grant opportunities for Kibler Meadow sooner rather than later, but don't let that slow down the project. Joe stressed that the group should work to accomplish the goals regardless. The Township has avenues to perform grant writing as do Donna and Corina of the EAC.

iii. OSPAC/EAC collaboration on subdivision review

- Things have been slow per Joe. Nothing new from the developers has been released or shared. OSPAC presented their ideas at their last meeting, and received a complaint last night about a proposed playground being too close to a backyard.

iv. Townmencin Day recap

v. Workshops - Potentially Weeds Inc. in the fall and PWC - Donna H. to contact PWC

- Dave has spoken with a contact from Weeds Inc, but is still waiting on a date for once they are ready.
- Donna was going to reach out to PWC, but she is not present at this meeting to address.
- Dave and Corina tossed around the idea of adding some new workshops. Dave mentioned an educational session on "tick tubes" to trap ticks on a property. Tick tubes may help alleviate the fear of ticks on one's property. The tubes can be purchased for \$50 for a pack of 24. They contain concentrated permethrin on cotton balls that kill ticks upon contact. They are to be left around areas with mice which are a primary vector of Lyme Disease. The substance is not toxic to any larger animals, but is effective against ticks. There could be some public backlash due to the use of a chemical, but permethrin has a short half-life when sprayed. The group could potentially print an article and gauge feedback for maybe setting up an event next year. Dave could write up a draft newsletter.
- Japanese barberry, wineberry, Japanese pachysandra are all invasives that help promote tick abundance.

7. New Business

- The EAC received an email complaint about Canada thistle on private property, but the Township has little authority to control this on private property.
- The Planning commission is making minor revisions to the landscape ordinance based on some county recommendations. They are limited in what they can alter due to the ordinance being advertised and up for a vote tomorrow. Some of the changes are just looking to increase the reinforcement ability.

a. Township resident Michael Ricci tree planting initiative

- Michael shared a presentation of his background and ideas for the township
- Michael is an interested resident with a background in technology and music who moved here in 2008 and lives up against the creek with some woods. He has planted 100 trees and bushes on his property that attracts lots of wildlife. He has created quite a habitat

which has been fun to observe. He started a document in 2017 that outlines his idea for better landscaping across the community. He shared that climate change has caused more trees to fall down due to overly saturated soils and noted that many new homeowners also choose to cut down healthy trees. He has observed that there are more neighbors taking down trees without planting any new ones. He has approached this council with ideas to get more community families involved in planting trees and flowers than what is already in progress. He had historically not been thinking more about the differences in native versus ornamental plantings. He suggested that he is not here to make a proposal, but more so to encourage his plan as a strong possibility. Would like to gauge feedback from the council about what aspects seem most promising, what may already align with existing programs, and can continue to workshop until actionable items are identified. The council found that much of Michael's ideas aligned with a lot of EAC initiatives. Michael is looking to put a larger focus on how more private property and business owners could get involved. He believes that Troxel Road is nice because it's tree-lined - a belief often shared by residents. The shared plan document goes into much more detail such as describing the benefits for stormwater, shade, and habitat. Michael was wondering if the ideas could be incorporated into an existing plan, or if it can kickstart a new one? He envisioned there would be certain dates that push the initiative forward, but this would be more of a 365 days of the year initiative.

- Rich shared praise for Michael calling his ideas "fabulous work", and also encouraged Michael to join the Horticultural Society's tree tender program that provides training for tree plantings with a whole course. The Township has a few certified tree tenders but needs a few more to form an organized group through the society. Could Michael Headstart this group and share ideas with the horticulture society? Rich recommended that Micheal take the course, and make the connection. Joe mentioned OSPAC gets an allotment of about 25 trees or so a year to plant. Hatfield has a shade tree commission program led by the residents. Finding volunteers is always a challenge to get these groups started.
- Members of the council asked if the goal is to encourage tree plantings on private or public property and how would the model run? Michael stated that the economic impact is well understood from his publishing background and that if initiated, the group will need to heavily utilize a newsletter both virtually and paper based to spread the word making an emphasis on the beautification and shade benefits to motivate homeowners.
- Would we be giving families the tools or the physical trees?
- Dave believes the ideas tie into everything the council does and encouraged Michael to apply for the open EAC position.
- There is an embryonic plan at OSPAC to tree-line all of Forty Foot Road.
- Michael's property has become a big production and a sanctuary for wildlife.
- These efforts are more important as millions of trees - red oaks, ash, beech, etc. are all at risk from various diseases.
- 3 species of woodpeckers that feed on ash trees and the emerald ash borers - good to promote them and keep them around to mitigate impacts.

b. Single-use plastic ban

- Donna invited the concerned residents to a future meeting. There is no expectation about whether or not they may join. Bruce believes it's worth pursuing and could add a revenue stream through paper bags. A single-use plastic ban is not just for bags and is something to consider. Lansdale is doing a survey with residents and businesses to determine viewpoints on a similar issue. Vanessa wants to ensure all viewpoints are

taken in and finer details are fleshed out. The township is not looking to encourage the distribution of thicker plastic bags.

- Dave has unknowingly taken on the plastic bags recycling gig from North Penn Schools. He met with the assistant manager at Weis for support to bail and return bags for credit towards park benches. He can take the bags to Weis throughout summer, but will need a process for pick up and transfer by fall. Rich will contact the Mennonite group to see if they can support this effort. Michele will start emailing the liaison to let us know before it starts overflowing at the schools. This is still a more efficient recycling process, but will just require finding the right procedure.
- Develop a survey for residents to speak on plastic ban
- Montgomery County also has a model ordinance to review.

8. Treasurer's Report - David M.

- Nothing has changed since the last report. 62\$ for birdtown. The signs are to be marked down once the final costs are accounted for.

9. Township Supervisor/Manager Report - Vanessa G.

- The Landscaping Ordinance is on the agenda for discussion and adoption at tomorrow night's BOS meeting.
- Budget season is coming up and all capital expenses over 5k need to be in by July 24th. The budget approval for Weeds INC would total \$5,500 anticipated for the end of this year. The deadline is for next year's projects. Dave will estimate the cost breakdown after reaching out to Drew as soon as possible for the two projects set for next year. Dave and Donna would need to fill out the budget form. The Courts at Valley View may be a good OSPAC budget model to review. The regular budget is due in September. October 7th is the budget presentation.

10. Other Items:

- "Bustard Meadow" as a name is not fitting for the amount of trees on the site — maybe consider naming it "grove" or "habitat" instead? Dave motioned for a vote with Brett seconding that the former "Bustard No-Mow" site be renamed to "Bustard Grove" - all four voting members present voted in favor.

Kofi read and really enjoyed the annual report.

Embracing A Year of Purpose, Progress & Possibility

As we begin 2026, Towamencin Township looks ahead with optimism and a shared commitment to continued progress. The new year brings fresh opportunities to advance key projects, strengthen community partnerships, and thoughtfully plan our future.

In January, two new supervisors - Vanessa Gaynor and Courtney Morgan - were sworn in, along with a new Tax Collector, Christian Fusco.

The Township has also welcomed several new members to our boards and committees. All committee meetings are open to the public, and residents are encouraged to attend. If you're interested in joining a committee, please visit the Township website to view available positions and apply today.

The Township's Comprehensive Plan update is winding down, with Supervisors anticipated to take action later this spring. The current draft document is available on our website.

Towamencin Township has secured significant grant funding for key infrastructure and community projects, including \$3 million through PennDOT's Multi-

modal Transportation Fund (MTF) to improve the Welsh and Orvilla Roads intersection - one of only four projects statewide to receive the maximum grant request from 171 applications. This project will add left-turn lanes on each approach to reduce congestion and improve safety.

The Township will receive \$159,000 from the DCNR Community Conservation Partnerships Program to help fund the construction of a future trail connection from Grist Mill Park to Grist Mill Drive. The proposed walking/biking trail will be eight-foot-wide and approximately 1,570 linear feet.

The Pennsylvania Department of Environmental Protection (PA DEP) Growing Greener Watershed Protection Program awarded the Township \$51,150 to support the design and permitting of a stream restoration on the Perkiomen Watershed Conservancy property along Old Forty Foot Road.

The Commonwealth Financing Authority's PA Local Share Account Program awarded \$250,000 to the Towamencin Municipal Authority to continue the next phase of the Skippack Creek Interceptor replacement project, ensuring continued reliability and efficiency of the Township's sewer infrastructure.

The 2026 Road Paving Project is anticipated to start this summer, with 16 roads scheduled for milling and paving. They include: Amber Lane, Kindle Drive, Buckboard Way, Carriage Way, Tapestry Way, Misty Meadow Lane, Jacks Circle, Green Bank Way, Spring Mill Way, Old Dutch Road, Kareve Drive, Reinhart Road, Breman Road, Burgandy Way, Pheasant Hill Way and Metz Road.

In January, the Township's Traffic Engineer, Chad Dixon, provided updates on several transportation projects, including the Welsh and Orvilla Roads Intersection, the Sumneytown Pike Traffic Signal System Upgrade (Green Light-Go Project), the Valley Forge Road Signal System (PennDOT GLG Application), the Forty Foot Road/Newbury Way Traffic Signal, the 309

Supervisor Courtney Morgan, Judge Ed Levine, Supervisor Vanessa Gaynor, and Tax Collector Christian Fusco

Veterans Committee Outreach & Events

WE WANT YOU!

Attention Township Veterans: Your Voice Is Needed!

The Veterans Committee is growing, and we want you to be a part of it. Whether you served for a few years or a full career, your experience is invaluable to our community. Join us at our next meeting, which are typically held, the 4th Monday of each month, in the Township's Meeting Hall Building.

In addition, we are hosting our upcoming spring social on Friday, April 17 at the Kulpsville Holiday Inn on Sumneytown Pike for Towamencin Veterans and their families. This event is free.

To attend, email dauphinee1116@gmail.com by April 9, 2026. See below for more event details.

Serving Those Who Served: An Update from Your Veterans Committee

The Towamencin Township Veterans Committee is entering a landmark year. With the 250th Anniversary of our nation approaching and the new Veterans Memorial Park gaining momentum, there has never been a more exciting time to get involved.

Our Mission: Our committee exists to honor the service and sacrifice of all township veterans. Our primary activities are:

Annual Observances: Organizing the township's Memorial Day and Veterans Day ceremonies to ensure our fallen heroes and living veterans are honored as they deserve.

Veterans Memorial Park: We are working closely with engineers on the design of the Veterans Memorial Park on Allentown Road. This project will provide a permanent space for reflection and community gatherings, with dedicated areas honoring each branch of the military.

We Need Your Help. To continue this work, we are seeking more veterans to join our ranks. We currently have vacancies on the committee and are seeking fresh perspectives. You don't need special experience—only a desire to serve your fellow veterans and help shape the future of our Memorial Park.

Save the Date: The Veterans Committee of Towamencin will host a "FREE" social gathering on Friday, April 17th, from 6 PM to 8:30 PM at the Kulpsville Holiday Inn on Sumneytown Pike. All Towamencin Veterans and their families are invited. Snacks, hors d'oeuvres, and beverages will be available. Alcohol will be available for purchase. This is a "FREE" event for Towamencin Vets only.

RSVP to our April Social by emailing your name, address, and branch of service to dauphinee1116@gmail.com by April 9, 2026. There will be a lot of great info about the future **Memorial Park progress**, the upcoming **US 250th**, and the **300th-year celebration of Historic Towamencin**. Please keep an eye on the Township website for updates.

Community Planning & Land Development Updates

Delp Drive Warehouse Development - Versus Partners, LLC has a tenant in place for the entire 267,648 square foot building. Improvements are planned for the intersection of Delp Drive and Detwiler Road.

Wawa - As a result of litigation, it is doubtful that this project will move ahead until summer 2026.

North Penn School District High School Renovations - NPSD has submitted plans to renovate the existing high school building. Renovations/additions are underway.

Shopping Center Update

Harbor Freight is now open within the shopping center located along Allentown and Forty Foot Roads. Philadelphia Suburban Development Corporation is working with a possible grocery store tenant.

Code Enforcement Reminder: It is the responsibility of all property owners within Towamencin Township to cut all weeds and grass to keep them from growing to a height exceeding 12 inches. Any such weeds or lawn areas exceeding 12 inches is considered a nuisance and may result in violation notices and/or citations by the Township. This does not apply to riparian corridor buffers, wetlands, woodlands, floodplains, steep slopes, detention or retention basins, and open space deemed a meadow by the Township.

Core5 Warehouse Project - two of three approximately 600K square foot warehouses are complete. As of now, both remain available.

Goddard School - Interior renovations are underway at the old Rite Aid site at 1390 S. Valley Forge Road. We await an opening timeline from the developer.

Hilltop (Freddy Hill) - In February, Pinnacle presented an alternative sketch plan for their Hilltop Project. The proposed plan would increase residential units from 140 to 207 and incorporate Troxel Road into the project's egress/ingress. Pinnacle Realty requested feedback from the Board and public. The Supervisors requested more information to evaluate potential impacts between the two plans.

Grayson (Walton Farm tract) - 34 single-family homes to be constructed at 1780 Kriebel Road. The developer will resubmit to Planning Commission after addressing issues raised by Township consultants.

Towamencin to Update Two Grist Mill Stormwater Basins

This year, two detention basins in the Grist Mill neighborhood will be updated and naturalized as part of the Township's permit requirements to improve water quality in the streams and waterways. Towamencin Township is required by the Environmental Protection Agency (EPA) and the Pennsylvania Department of Environmental Protection (PADEP) to reduce sediment and nutrients in the streams in the Township. The project is being performed as part of a Multi-Municipal Pollution Reduction Plan to address the water quality within the Skippack Creek Watershed which is impaired for both nutrients and sediment.

What is a stormwater basin?

Stormwater basins are areas that are constructed with earthen berms to hold stormwater after a rain and release the water more slowly into the stream. When stormwater basins were built with older developments, the basins were designed primarily to reduce flooding by holding back the runoff from large storms. More recently, the regulations require that stormwater basins also be designed to address the flow of runoff from smaller storms and provide opportunities to improve the water quality for the discharge from the basins.

What improvements are proposed?

The original stormwater basins in the Grist Mill neighborhood were constructed in the late 1980's when requirements were mainly to address the stormwater flows from large storms. The outfall structures that control the water leaving the stormwater basins will be improved to allow water to remain in the basin longer during smaller storms. A forebay will be provided where the water enters the basins. This is an area that allows for the settlement of sediment prior to allowing the water to enter the remainder of the basin area. The basins will be planted with meadow grasses and other long rooted plants in the bottom of the basin.

Grant Funding

The Township was awarded two grant awards to fund these improvements - a \$50,000 award from DCED's Watershed Restoration & Protection Grant program and a \$250,000 Montco2040 grant award.

How do these improvements improve water quality?

The benefits of improving and naturalizing a stormwater basin include:

- Allowing water to infiltrate into the ground to recharge the aquifer.
- Allowing uptake of nutrients by the grasses and plants.
- Reducing the volume and rate of water that reaches the stream which will help reduce flooding and streambank erosion
- Reducing the need for mowing.
- Providing shade which helps reduce the temperature of the water released into the stream.

What can you do to help the Township?

If you observe pollution entering the stormwater collection system, stream, or waterway, please call Towamencin Township at 215-368-7602.

SPRING STORMWATER SOLUTIONS

SPRING 2026

In addition to flowers, spring showers can also bring stormwater runoff! As rain flows over lawns, driveways and streets, it carries pollutants like fertilizers, soil, oil and litter into our waterways. See below for simple steps you can take this spring to protect clean water and reduce flooding.

SIMPLE STEPS YOU CAN TAKE AT HOME TO PROTECT LOCAL STREAMS & CREEKS!

SPRING STORMWATER TIPS FOR YOUR PROPERTY

- **Clean Gutters & Downspouts:** Remove leaves and debris so rainwater can flow freely. Direct downspouts to grassy areas or gardens instead of driveways.
- **Plant Natives:** Add native trees, shrubs and perennials to help soak up spring rains. Consider planting a rain garden in low spots of your yard where water naturally collects.
- **Mulch Garden Beds:** Mulch helps to prevent weed growth, reduce erosion, keep soil moist and reduce runoff. Make sure to use un-dyed mulch!
- **Install a Rain Barrel:** Rain barrels are designed to capture stormwater from your roof. You can use the collected water for gardens and landscaping!

Open Space & Parks Advisory Committee Spring Spotlight

The Grass Isn't Always Greener

If you've never walked on a poured synthetic surface in a playground, you are in for a treat when you visit Grist Mill Park, on Allentown Road. Grist Mill is the most recent addition to the ongoing effort to upgrade Towamencin's parks with facilities all residents of our community can enjoy and be proud of. The Grist Mill Park space now features a fenced-in, inclusive play area with creative climbing, balancing, and swinging structures, all erected over a poured synthetic rubber, non-skid mat that is easy to walk on and soft enough to significantly lessen the "ouch factor" of any impact with the ground.

For older kids, there is a regulation-size basketball court. At each end of the sport-specific custom playing surface is a clear acrylic backboard with a reinforced hoop, and mounting posts are set back from the court to facilitate safe play.

Grist Mill Park Playground

Grist Mill Park Improvements

If you prefer beanbag tossing over basketball, there are two official-size cornhole courts. Table tennis enthusiasts will want to check out the polished concrete table that makes outdoor play possible, though it can be challenging on a windy day. The adjacent parking lot with restrooms and the post-and-beam pavilion make access super convenient and provide a shady parental space for gathering and monitoring toddler play during the summer months. We think there's something for everyone, so plan a visit and check out this welcome addition.

If your preference is a quiet walk, there is a nearby space for that, too. Veterans Memorial Park is close to Grist Mill Park, just across Forty-foot Road on Allentown Road. Interred in the Tennis-Lukens Cemetery, near the entrance, are fallen Revolutionary War-era combatants. Beyond the cemetery is the more than 10-acre site of the future Memorial Park, which is being designed as a memorial garden. Engineering work on the design is now underway. When complete, it will be a creatively landscaped passive park with trails and memorial plazas, featuring benches and trees for relaxation or quiet contemplative reflection.

These are just two of the thirteen parks in Towamencin Township! If you want a break from attending TYA athletic contests or Township-sponsored events, why not plan a spring or summer visit to all the parks supported by Towamencin citizens.

Check out more of our parks by visiting the parks webpage at:

<https://www.towamencin.org/departments/parks-recreation/parks/>

Environmental Advisory Council Outreach and Events

Bird Town Children's Workshop

Towamencin Township Bird Town, a subcommittee of the EAC, hosted a free Children's Workshop on Saturday, January 17, 2026. Many Township families braved the snow to enjoy bird-themed crafts. There were birdhouses to assemble and decorate, pinecone birdfeeders to create, finger puppet bird beaks to put together, and coloring pages featuring our feathered friends. A slide show of bird photos and sounds of various bird calls added to the fun.

Stream Clean-up Volunteer Opportunity

Saturday, April 11th, 9 am - 12 noon

The 2026 Stream Clean-up for the Perkiomen Watershed Conservancy (PWC) will be held on Saturday, April 11, from 9 am to noon. Towamencin Township is part of the Perkiomen Watershed, and the Towamencin Creek is a tributary of the Perkiomen Creek. The Stream Clean-up removes trash, tires, scrap metal, and other debris from streams in the watershed.

The Environmental Advisory Council (EAC) encourages Township residents to participate in the PWC Stream Clean-up. Many sites are in our area, including local parks with segments of the Towamencin Creek running through them. It's a great way to fulfill community hours while helping your local watershed!

Visit <https://www.perkiomenwatershed.org/stream-clean-up/> for more information and to sign up.

Towamencin Day

Saturday, May 30th, 12 to 4PM

The EAC will host a table at this community event at Fischer's Park. Stop by to learn about environmental challenges facing our community, ask members questions about native versus invasive plants, and get creative with a few bird-themed crafts!

Other environmentally focused organizations will also be present at the event.

Native Habitat Restoration Project Launches at Municipal Complex

The EAC is proud to announce the launch of our **Municipal Native Habitat Restoration Project** - an exciting initiative combating invasive species and restoring native plant life in front of the municipal building. The designated "no-mow" area at the Municipal Complex is overrun by invasive Canada Thistle, one of Pennsylvania's most aggressive species. Our goal is to eliminate invasive species, restore a thriving native habitat, and create an educational, welcoming green space for the community. Below is the project timeline:

Phase 1 (2025) 2-3 environmentally responsible herbicide applications were used - endorsed by groups such as the Penn State Master Gardeners, Morris Arboretum, Perkiomen Watershed Association, and the Environmental Protection Agency - to remove 90-95% of invasive Canada Thistle before restoration began.

Phase 2 (Fall 2025) we seeded resilient native grasses that develop deep, stormwater-absorbing roots, provide wildlife habitat and food, and outcompete invasives, becoming established by Spring 2026.

Phase 3 (Fall 2026), once the grasses are established, edge strips will be mowed, overseeded with a native wildflower mix for seasonal beauty and pollinator support, and plant native trees in the interior to diversify habitat and add shade.

Phase 4 (2026 and beyond), walking paths, benches, birdhouses, and educational signage will be added to transform the restored area into a peaceful, welcoming, and educational public space. This highly visible location serves as a proof of concept for ecological restoration in Towamencin. What is learned here will guide future projects across the Township, setting a thoughtful, effective, and sustainable standard for restoring public areas impacted by invasive overgrowth. Restoring native habitats improves biodiversity, supports pollinators and birds, enhances stormwater management, creates beautiful low-maintenance public spaces, and leaves a lasting legacy of environmental stewardship.

Stay tuned for updates and learn more at: <https://www.towamencin.org/government/boards-commissions/environmental-advisory-council/>

A Year of Growth, Projects, Innovation & Community-Driven Progress

It’s been an innovative year in our Township, marked by projects, development, legislation, and diligent work by our committees driving meaningful progress across every corner of our community.

On May 14, the Board reorganized, where I was appointed as the new Chair. Also, at this meeting, Amer Barghouth was also appointed as our interim supervisor to fill a Board vacancy.

The Township’s Comprehensive Plan update is being finalized. The draft document is available on the Township’s website. This update will shape the future of our community.

Several grant applications have been submitted to support the following projects: Welsh and Orvilla Road Widening Improvements, Central Drive Storm Sewer Project, Municipal Complex Improvements, Skippack Creek Interceptor, Grist Mill Drive Basin Conversations, Kriebel Road Trail Extension (phase 3), Butch Clemens Park Pickleball Courts, Grist Mill Park Connector Trail, and Tennis Lukens Cemetery Restoration. Information on grant submissions and awards can be found on the Finance section of the Township website.

The construction of the Grist Mill Park Improvement Project is nearly finished, with an expected completion in October. The project will feature: an inclusive playground, a basketball court, a handicapped parking area, fencing, and a perimeter trail. The Township received a \$250,000 grant from the PA Department of Conservation and Natural Resources and \$175,000 through the PA Local Share Assessment Grant to support this project.

The Weikel Road drainage and sidewalk improvements, from the Township pool to Snyder Road are completed, except for minor landscape work. This project improves pedestrian connectivity between neighborhoods and the North Penn School District property, while also addressing stormwater issues. It included installing new storm sewer inlets, new concrete piping, and concrete end wall, as well as, sidewalk curbs and driveway aprons. This project was mainly funded by remaining ARPA funds and a Montco 2040 Grant for the sidewalk portion.

Phase 2 of the Skippack Creek Sewer Interceptor Project is underway. The project involves replacing roughly 1,200 feet of interceptor pipe. The Towamencin Municipal Authority received \$400,000 through the PA Local Share Assessment Program to help fund this project.

Regarding development, the Mattress Warehouse and Chipotle Restaurant, at Forty Foot and Allentown Roads, are open and ready to serve you.

Construction is underway at the Goddard School, located at 1390 S. Valley Forge Road, in the former Rite Aid building. The applicant has started interior improvements and is currently working on land development.

The construction of the Delp Drive Warehouse Development, a 267,648 SF warehouse, is expected to be finished by late October.

Noteworthy legislation has passed this year, including:

Ordinance 25-04, which updates the Township Code to include a new maintenance program for on-site sewage disposal systems and reinstates the requirements for pumping and inspection of these systems. Key changes

include a new permit for pumping and inspections, renewed every three years, with the system’s pumping schedule. Inspection of septic systems will be the property owner’s responsibility and permits will be issued by the Township.

Ordinance 25-05 amends the Township’s Stormwater Management Code to meet NPDES permit requirements for stormwater discharges from the municipal separate storm sewer system (MS4) and updates other provisions within the ordinance.

Ordinance 25-06 permits domesticated chickens in residential zones as a non-commercial accessory use to single-family detached homes, with a lot size exceeding 20,000 square feet; roosters are not allowed.

The Township has welcomed several new members to our volunteer boards and committees. Committee meetings are open to the public, and residents are encouraged to attend. If you're interested in joining a committee, please visit the Township website to see which vacancies are open and submit an application.

Meanwhile, collaboration within committees and the community has led to

US Senators :
Senator Dave McCormick
Senator John Fetterman

Continued from page 1

the following highlights:

The Environmental Advisory Council launched a pilot program - as part of its MS4 Strategy Plan - to assess the benefits of converting passive open space areas into naturalized meadows. The EAC examined the advantages of these areas reverting to a natural state for environmental reasons and to meet DEP mandates. One such no-mow meadow area is located at the entrance of the Municipal Complex, off Troxel Road. Over the past year, our EAC members have been developing strategies to restore the ecological function and visual appeal of this designated no-mow area.

The Board created an America 250 Committee to ensure the successful celebration of the nation’s 250th anniversary locally. The committee has been working on event preparations for Towamencin’s celebration, which will take place on Thursday, June 25, 2026, at Fischer’s Park, with a rain date of June 26, 2026. Mark the date on your calendar and join us in celebrating our nation. There are still spots available on this committee. We’re looking for passionate, creative, and fun individuals to join us with fresh ideas to celebrate our nation!

Over the last year, our Open Space and Parks Advisory Committee has been exploring ways to bring geocaching back to Towamencin Township! This activity is now permitted at the following parks: Bustard Road, Butch Clemens, Green Lane and Kibler Meadows.

To learn more about this fun activity, jump to page 15.

Reminder, our budget work sessions are scheduled for 6:30 pm on October 1, 15, 29, and November 5. They will be held in the Meeting Hall building and streamed live via Zoom for those unable to attend.

We hope you can join us for our fall and winter events: our Turkey Trot 5K and Walk, is scheduled for Saturday, November 8th, and the Holiday Lights Festival will take place on December 5 and 6.

In closing, as your new Chair, I encourage you to reach out to me with your concerns at jsnyder@towamencin.org.

To stay updated on Towamencin news and events, please sign up to receive our weekly e-news at www.towamencin.org.

Sincerely,
Joyce F. Snyder
Chair, Board of Supervisors

Towamencin Township Is Now A Bird Town!

On March 4, 2025, Towamencin Township became Pennsylvania's 77th Bird Town! You might have noticed the new signs, featuring cardinals, bluebirds, and thrushes, placed throughout the township and wondered, "What does it mean to be a Bird Town?" The mission statement, available at <https://birdtownpa.org>, says: "Bird Town Pennsylvania works in partnership with local municipalities and like-minded organizations to promote community-based conservation actions to create a healthier, more sustainable environment for birds, wildlife, and people."

Towamencin's Bird Town committee has swiftly taken flight, already completing several outreach events. The members hosted an information table at Towamencin Day, handing out pamphlets on how to be good stewards of birds and nature, sharing bird photographs taken within the township, and engaging with questions and discussions. There was also a free raffle featuring many handcrafted and beautifully painted bluebird and wren houses. Committee members participated alongside volunteers in the 2025 Stream Clean-up and Invasive Plant Removal activities, raising awareness of their importance for birds. On June 14, the committee partnered with the Valley Forge Audubon Society for a birding adventure at Fischer's Park. The two-hour guided walk was attended by 25 people of all experience levels. Thirty-seven different bird species were identified, including hummingbirds, nesting waxwings, and several migratory warblers as highlights. The Committee hosted another birding event at Fischer's Park on September 6, when many migrating songbirds are traveling to the southern USA, the Caribbean, and South America for winter. Additional township activities are in the planning stages, including a youth-focused birdhouse-building event this coming winter.

Looking back at the past year of bird sightings in Towamencin, it's been another great year. The top hotspot is Fischer's Park, with over 120 species of birds positively identified since August 2024. Standout birds at Fischer's include a Black-crowned Night Heron, Yellow-billed Cuckoos, and a pair of Eastern Screech Owls. Kibler Meadows reported 76 species, including American Kestrel and Great Blue Heron. Kibler continues to be a reliable spot in the Township to see and hear American Woodcocks performing their mating rituals in late winter and early spring. The portion of Evansburg State Park that overlaps Towamencin is another "birdy" spot, although the trails can be tough to navigate. There have been 59 reported species since last summer; this is one of the best township locations to find Wood Ducks, as they are very shy birds. Also note, you don't need to go to a hotspot to find interesting birds — they are everywhere. Put out a feeder in your backyard, keep it clean and well-stocked, and see what fascinating and enjoyable birds you can find!

Community Planning, Land Development & Project Updates

Land Development & Zoning News

- **Delp Drive** – The warehouse project is nearing completion, with final planning and intersection improvements at Detwiler Road scheduled for this fall.
- **North Penn School District** – Final Land Development Plan approval is anticipated for October 2025, for modifications to the high school building, new athletic fields, parking areas, a new bus garage and other site improvements. The construction timeline is pending.
- **Shopping Center Update**- Chipotle and Mattress Warehouse are open, while the Township awaits PSDC's reestablishment of rear circulation access to issue permits for future tenants. The pad sites received preliminary plan approval in September 2025, with additional Conditional Use and Final Plan approvals expected by early to mid-2026.
- **Freddy Hill Farms** - On September 10, 2025, the Board of Supervisors rejected Pinnacle Realty Development Corporation’s Zoning Map and Text Amendment applications to build 303 residential units on 130+ acres, where current zoning permits approximately 140 units by right. The developer has not indicated any future development plans at this time.
- **PSDC Zoning Map Amendment** - The Board of Supervisors will hold a hearing on October 8 to review an application for the proposed amended Main Street Overlay District, at the corner of Bustard Road and Sumneytown Pike.
- **Walton Farm Tract** - The Township has not yet received any development submissions. However, a subdivision plan from WB Homes is expected this fall.
- **Wawa** - A new Wawa with twelve fuel filling stations is planned for Sumneytown Pike and Forty Foot Road, but construction is delayed due to ongoing litigation between the property owners, and a start date remains unknown.

Weather Maintenance Reminders for Fall & Winter Months

Open Burn Rules

Who can burn? 1 & 2 family residential dwelling units only.

What can you burn? Yard trimmings only.

Where can you burn? Not less than 50’ from any structure, and placed to prevent the spread of fire to within 50’ of any structure, vehicle, fuel tank and not less than 25’ from any property line. No burning is permitted in streets, alleys, right-of-way.

Prior to burning all residents are required to notify Township Police at 215-368-7600.

You may not burn before 8AM—Fires & embers must be extinguished by dusk on the same day.

Fires must be constantly attended.

Flammable liquid accelerant is prohibited.

1 burn pile, not to exceed 5’ x 5’ x 3’

You may not burn during high wind, drought or weather inversions deemed hazardous.

Contact the Township at 215-368-7602 for complete burn rules.

Leaf and Yard Waste

PA law prevents placing leaves in the trash. Leaves must be composted or placed for separate collection. Your contracted waste hauler is responsible for providing this service to their customers.

Residents must purchase their own biodegradable collection bags. Bags are available at grocery & hardware stores. Plastic bags are prohibited.

Haulers should provide specific pick-up dates. Customers may be billed by their hauler for this DEP mandated collection.

The Township has an active agreement with Barnside Farm Compost Facility with Northern Montco Recycling Commission should residents wish to drop off their yard waste for a fee.

The minimum fee is \$25 and \$50 per ton. The Barnside Compost is located at 991 Haldeman Road, Schwenksville, PA 19473.

Residents with specific questions of what they can bring should call 610-287-8880 or visit <https://barnsidefarm.com/>

Winter Storm/Snow Reminders

All property owners are required to remove snow & ice from their sidewalks within 24 hours with a clear path of 28 inches.

Property owners are responsible to clear fire hydrants within their property boundaries for a clearance of 3’ around the fire hydrant.

Residents should ensure their mailbox is properly secured for the winter season. According to the United States Postal Service, mailboxes are to be placed with the face of the box 6 to 8” from the front of the curb. Mailboxes are most often damaged in snow storms not by plows but the force of the snow hitting mailboxes not properly installed or loose. If you can move your mailbox by shaking it, take immediate steps to secure the box according to USPS guidelines.

Remove vehicles, trash cans, sports equipment and any other impediments from the roadways. It is unlawful to throw, shovel or place snow in the road.

Visit the Public Works section of the website for snow emergency routes and more details.

Environmental Advisory Council - Sustainable Ways to Recycle Leaves

Sustainable practices for fall leaves

Instead of bagging your fallen leaves, try these eco-friendly ideas for some or all of them!

1. Mow them into the grass - Run over the leaves with a lawn mower fitted with a mulching blade. The shredded leaves won't blow around and will serve as a natural fertilizer for your grass.
2. Compost - Set up a compost bin to mix your leaves with kitchen scraps, grass clippings, or coffee grounds. Over time, you'll end up with nutrient-rich compost to use in your garden.
3. Mulch your garden - Transfer your leaves into your garden beds. They'll help protect tender perennials and shrubs and suppress early spring weeds. Leaf mulch also provides a perfect overwintering habitat for native bees, lightning bugs, and other insects.

4. Leave or contain them - If you have an open area far enough from the road, leaving the leaves where they are is ideal. This will help fertilize your lawn and increase overwintering areas for beneficial insects. You can also move leaves to a fenced area, where they will break down over the winter and be ready for use as mulch or compost in the spring.

NEVER place leaves or other yard waste in creeks, streams, storm drains, or nearby wooded areas where they might wash into the water. This can damage natural habitats, pollute waterways, and cause flooding.

Fall Stormwater Tips

Fall is the time of year when school starts back up and the leaves begin to fall. As you are working outside and enjoying the cooler weather, remember these tips to protect our environment and water.

Leaf Litter and Yard Waste

- Leaf litter and any yard waste can cause harmful nutrient accumulation in nearby waterways.
- Dispose of leaf litter and yard waste in a compost pile or use it for mulch or fertilizer.
- Do not rake leaves into storm drains, streets, or waterways.

Plant a Tree

Fall is a great time to plant a tree. Trees absorb runoff and reduce the amount of water that will flow into streets and waterways.

Prune your Trees and Shrubs

Pruning trees and shrubs in the fall helps them get a good start in the spring growing season. It will also help them to use more water in the spring which reduces runoff.

Aerate your Lawn

Aeration involves perforating the soil with small holes to allow air, water, and nutrients to penetrate the grass roots, promoting a healthy lawn. Aeration encourages roots to grow deeply, reduces soil compaction, and restores your lawn's natural draining capability, resulting in less runoff to our streams.

If you observe pollutants entering the storm sewer or stream, please contact Towamencin Township at 215-368-7602.

STORMWATER NEWS

Winter Edition: Snow is Stormwater Too!

PREVENTING STORMWATER POLLUTION

Winter is here, and with colder temps comes snow and ice that we need to remove from our sidewalks and driveways. To make this chore easier, many of us use deicers, like salt, at our homes. However, these chemical deicers often have harmful impacts on aquatic life and the water quality of local streams and creeks. Here are some tips to reduce salt use and prevent pollution this winter:

- **Reduce your salt use!** More salt does not mean less ice. Use deicing products sparingly and follow the label instructions. Sweep up any remaining salt before it is washed away.
- **Shovel first.** Shoveling early will prevent ice from forming, reducing the amount of salt you will need to use.
- **Plant natives that are salt tolerant!** This spring, plant salt tolerant, native perennials where stormwater runoff from your driveway or sidewalks accumulates. Butterfly milkweed is a great example of a salt tolerant PA native plant!

LEARN MORE AT:

www.perkiomenwatershed.org

SUPPORTING WILDLIFE THROUGH THE WINTER MONTHS

Colder temps and shorter days can make a lot of wildlife less active and harder for us to spot. However, many of our local critters will appreciate a helping hand during the chilly months. Here are some ways to help wildlife this winter:

- **Leave seedheads standing.** Seeds provide food for birds and small mammals and hollow stems are valuable shelter for insects. Wait until early spring to cut back seedheads and perennial tops.
- **Provide a water source.** During freezing temps, make sure to thaw bird baths and other water sources for wildlife to utilize.
- **Feed the birds.** Food can become difficult to find in the winter months, keep bird feeders clean and full to provide important energy sources during temperature extremes and migration periods.
- **Build a bird, bat or pollinator house.** Prep for spring by building and installing safe places for wildlife to raise their young. Cleanout existing houses to make way for incoming residents!

Workshop! 🐸 🌱

Free Event - Stream Explorers Workshop! 🐸 🌱 -
Saturday, July 26

Sponsored by the Towamencin Environmental Advisory Council (EAC)

STREAM EXPLORERS WORKSHOP

SATURDAY, JULY 26TH
10:00 TO 11:30 AM

Calling all young nature detectives, ages 7-12!

Meet at the Pavilion next to the stream.

FREE EVENT!

Join us for a fun and splash-filled morning at Fischer Park for a Stream Study Adventure you won't forget! Dive into the fascinating world of stream science as we wade into the water to:

- Search for bioindicators** – tiny aquatic insects that reveal how healthy the stream is.
- Test water quality** – using real tools to investigate clarity, pH, and more!
- Explore the stream ecosystem** – discover plants, critters, and hidden wonders in and around the water.

This is hands-on science at its best – prepare to get wet and have a blast while learning how we can protect our local waterways.

Spots are limited, so grab your boots (or old sneakers) and get ready to become a Stream Explorer!

For more information or to register for this **FREE EVENT**, scan the QR code or visit:

GENERAL NEWS

[Enews - July 25](#)

On July 9, 2025, the Board of Supervisors approved Ordinance 25-04, which updates the maintenance requirements for homeowners with on-lot sewage systems in the Township code.

With the passage of this ordinance, **inspections and pumping will now be required every three years in accordance with current DEP recommendations and are the homeowner's responsibility.**

All pumping must be performed by a sewage waste hauler approved by the Montgomery County Health Department (MCHD).

During pumping, a routine inspection of your on-lot system must be conducted, and a Routine Inspection Report must be completed. A copy of the inspection report form will be included with your inspection notice.

Within 10 days of the inspection, **the completed Inspection Report and proof of pumping must be submitted to the Township. A three-year On-lot Maintenance permit will then be issued** (fees apply).

A notice of when your property needs inspection and pumping will be sent in the spring of the year our records show you are due. Failure to obtain your permit within the year will be a violation of the code and may result in a citation.

On-lot Sewage System owners **may review the full ordinance to ensure your on-lot system complies with all requirements.** For more information, contact the Township Code Enforcement Officer or the MCHD.

For more information or questions regarding inspection, maintenance, pumping, and permits for on-lot sewage disposal systems, please contact the Township's Code Enforcement Department.

FALL STORMWATER SOLUTIONS

FALL 2025

Stormwater doesn't soak into hard surfaces like pavement or rooftops. Instead, it flows into storm drains and streams, picking up leaves, fertilizers, trash and other pollutants along the way. You can help to reduce stormwater pollution this fall by following the tips below!

FALL STORMWATER TIPS FOR YOUR PROPERTY

- **Manage Fall Leaves Naturally:** Mulch leaves into your lawn to return vital nutrients to the soil, rake them into garden beds or compost them for spring gardening.
- **Add a Rain Garden or Buffer:** Plant native species along low spots in your yard. These plants help to slow down rainwater, reduce flooding and trap pollutants before they reach waterways.
- **Keep Storm Drains Clear:** Check storm drains near your home and remove any leaves, litter or debris. Clogged drains cause localized flooding, which carries more pollutants downstream.
- **Pick Up After Pets:** Always collect and properly dispose of pet waste, even in the backyard. Pet waste contains bacteria and nutrients that can contribute to unsafe water conditions.

SIMPLE STEPS YOU CAN TAKE AT HOME TO PROTECT LOCAL STREAMS & CREEKS!

Towamencin Municipal Authority is the recipient of a **\$250,000** grant for **SKIPPACK CREEK INTERCEPTOR PHASE 3**

Towamencin Municipal Authority was awarded grant funding (\$250,00) from the Commonwealth Financing Authority's PA Local Share Account (LSA) Program. The awarded project: Phase 3 of the Skippack Creek Interceptor Project.

The Township would like to express our gratitude to Gilmore & Associates for preparing the grant application and to State Senator Pennycuick and State Representative Hanbidge for their support and assistance in securing this grant. Your continued support has a significant impact on our community, and we appreciate your commitment.

Towamencin Municipal Authority was awarded grant funding (\$250,00) from the Commonwealth Financing Authority's PA Local Share Account (LSA) Program. The awarded project consists of replacing the next section/phase of the Skippack Creek Interceptor.

The Township would like to express our gratitude to Gilmore & Associates for preparing the grant application and to State Senator Pennycuick and State Representative Hanbidge for their support and assistance in securing this grant. Your continued support has a significant impact on our community, and we appreciate your commitment.

WINTER STORMWATER SOLUTIONS

WINTER 2025 / 2026

As snow and ice accumulate, winter maintenance can have a big impact on our streams, rivers and drinking water. When snow melts, it carries everything in its path - road salt, pet waste, automotive fluids and litter - directly into storm drains and waterways. See the tips below for how you can help keep our community's water clean this winter!

SIMPLE STEPS YOU CAN TAKE AT HOME TO PROTECT LOCAL STREAMS & CREEKS!

Learn more at:

www.perkiomenwatershed.org

WINTER STORMWATER TIPS FOR YOUR PROPERTY

- **Shovel First, Salt Last:** Clean snow early and often to reduce the need for salt. If you must use salt - do so sparingly and sweep up left over salt after ice melts.
- **Choose Eco-Friendly Deicers:** Avoid products containing sodium chloride (rock salt) which harms plants, pets and aquatic life. Use sand or non-clumping kitty litter for traction instead of chemical deicers.
- **Manage Snow Piles Wisely:** Pile snow on grassy areas where it can slowly melt and soak into the ground. Avoid stacking snow on top of storm drains or near waterways.
- **Store Chemicals Safely:** Keep deicing products, fertilizers and antifreeze in sealed containers. Store them off the ground and away from drains. Check your garage for leaks and clean spills immediately with absorbent material.

Hello Mary,

A news article has been updated

GENERAL NEWS

[Enews - January 9](#)

Preferred requirements: Five (5) or more years' experience in land development and planning, including at least three years of supervisory experience; direct municipal government experience along with a Bachelor's or Associate degree in planning, public administration, engineering or a closely related field strongly preferred; or an equivalent combination of education, certification, training, and experience. Required to have a valid Pennsylvania state driver's license.

- [Full Job Description](#)

This position is full-time. Salary is commensurate with qualifications and relevant experience. Please send cover letter with salary expectations and resume in one pdf attachment to: hr@towamencin.org. Deadline for submission is **4:30 pm** on **January 30, 2026**.

Christmas Tree Pickups

Our Public Works Department is performing Christmas tree pickups. Pickups will occur on a Monday/Friday schedule through January 31, except on Monday, January 19th. If you would like your tree removed, place it at the curb before 7 am on these designated days. If crews are assigned to snow removal or emergency work, pickup will be the following business day.

Roadside Tree Trimming to begin in January

Towamencin's Board of Supervisors understand that it can be difficult for individual homeowners to perform tree maintenance. Therefore, they have authorized the Public Works Department to trim trees on the street side of neighborhoods, wherever they are likely to impact traffic or obstruct street signs.

January through February, Township staff will begin tree trimming work on limbs that extend into the street right-of-way. Crews will remove and dispose of debris. This work will be completed as the weather permits.

Should you prefer to have your own arborist or landscaper perform this work, please make arrangements prior to the end of January. **Work will begin on the west side of Sumneytown Pike heading towards Bustard Road, after moving east of Sumneytown Pike towards Forty Foot Road.**

Under Township Ordinances, maintaining street-side trees is the responsibility of the property owner. This initiative is a public safety measure which involves trimming branches back to a 15-foot height to keep limbs from brushing against vehicles or obstructing views.

Good arbor practices will determine the exact trimming details for each tree, but in each case it will be with a view to preserving the tree's health and appearance, both of which are influenced by the tree's age. The specific area of branch growth that is affected on mature trees appears in the illustration below

Trimming vegetation is one of the most effective ways to improve visibility and enhance traffic safety in our neighborhoods. Overgrown trees and shrubs endanger everyone when they block our view of traffic signs, pedestrians, bicyclists, and motorists. Trees not properly trimmed also pose risks to vehicles, and can incur injury to itself if struck by a vehicle.

If you have questions, please contact the Township at 215-368-7602 or email us at: info@towamencin.org.

Towamencin to receive a \$159,000 C2P2 Grant to Fund Grist Mill Park Trail

As part of Governor Josh Shapiro's recent announcement, Towamencin Township was selected as a Community Conservation Partnerships Program (C2P2) grant recipient for \$159,000. The funding will go toward additional Grist Mill Park improvements, including a pedestrian walkway, ADA access, stormwater management, landscaping, and related site enhancements. The proposed walking/biking trail will connect residential neighborhoods along Grist Mill Drive to the active recreation portion of Grist Mill Park, where new playground and other recreational features were added in 2025, as part of a previously awarded C2P2 Grant.

Special thanks to CKS staff, who prepared the grant submission; State Representative Hanbidge and State Senator Pennycuik, who continuously support our projects; and Governor Shapiro.

Human Relations Committee

The Board of Supervisors adopted Ordinance 26-03, Human Relations Commission, at their April 8th meeting, and is seeking volunteers to serve on this Commission. The purpose of this Ordinance and Commission includes:

- Promoting equal opportunity for all people
- Prohibiting discrimination in employment, housing, and public accommodations
- Establishing a Commission to receive, investigate, and mediate complaints of discrimination
- Advancing public education, outreach, and community engagement to reduce discrimination and foster inclusion
- Providing procedures consistent with the Pennsylvania Human Relations Act while extending protections locally

We are seeking volunteers who have a passion for promoting inclusion and equity. Experience in diplomacy, conflict resolution, and/or public education and outreach is a plus.

If this cause is important to you, we encourage you to complete an application and submit it by Friday, May 15, 2026 to info@towamencin.org.

Towamencin Township Awarded \$188,000 MontCo 2040 Grant

The Township has been awarded a MontCo 2040 Grant of \$188,000, which will provide additional funding for our Grist Mill Trail Project.

The proposed project will include an eight-foot-wide, approximately 1,570 linear feet of walking/biking trail that will connect residential neighborhoods along Grist Mill Drive to the active recreation area of Grist Mill Park. Previously, a \$159,000 C2P2 Grant was awarded to the Township.

The Grist Mill Park Trail Project is part of a larger Township initiative to provide a network of corridors for pedestrian and bike traffic to primary locations throughout the Township.

We sincerely thank everyone whose hard work and collaboration made it possible for us to successfully secure this grant funding.

Spring Stormwater Tips & Prevention: Help Keep Our Waterways Clean This Season! 🌱

SPRING STORMWATER TIPS FOR YOUR PROPERTY

- **Clean Gutters & Downspouts:** Remove leaves and debris so rainwater can flow freely. Direct downspouts to grassy areas or gardens instead of driveways.
- **Plant Natives:** Add native trees, shrubs and perennials to help soak up spring rains. Consider planting a rain garden in low spots of your yard where water naturally collects.
- **Mulch Garden Beds:** Mulch helps to prevent weed growth, reduce erosion, keep soil moist and reduce runoff. Make sure to use un-dyed mulch.

SIMPLE STEPS YOU CAN TAKE AT HOME TO PROTECT LOCAL STREAMS & CREEKS!

Preventing Stormwater Pollution

Warmer weather is on the horizon! Increasing temperatures mean longer days, budding leaves, blooming flowers and spring rains. While rain showers are important for the environment, they also have the ability to lead to harmful stormwater pollution. Below are some tips for preventing pollution this spring:

- **Only rain belongs in the drain!** As you're cleaning up your yard this spring, remember that storm drains are not garbage disposals. Never dump anything, including leaves and grass clippings, into a storm drain.
- **Use lawn chemicals sparingly.** Always follow the application instructions and never use before it rains. Switch to organic fertilizers where possible or mulch leaves and grass clippings into your yard to add nutrients back into your soil.
- **Replace turf grass with natives!** Lawns have little to no environmental benefits and turf grass requires lots of maintenance to stay green. Swap your lawn for native perennials by adding more garden space in your yard! Not only do natives require less maintenance than turf grass, they are vital for the health of our environment and the survival of pollinators, birds and other wildlife.

www.parkinsonwatershed.org

Helping Wildlife this Spring

Spring means increased activity for wildlife, with many species busy gathering food, building nests and caring for their young. You can take small steps at home to provide important food sources and habitat for our local wildlife during the spring months:

- **Plant for pollinators.** Plant with a variety of native species that flower throughout the year to provide pollinators with vital food sources.
- **Recreate outdoors responsibly.** Spring is a great time to explore the great outdoors! Be respectful of wildlife during your visit by sticking to paths, keeping dogs on leash and taking litter home.
- **Provide food and water for wildlife.** Early in the season, food may be

Winter Stormwater & Wildlife Tips

WINTER 2025 / 2026

As snow and ice accumulate, winter maintenance can have a big impact on our streams, rivers and drinking water. When snow melts, it carries everything in its path - road salt, pet waste, automotive fluids and litter - directly into storm drains and waterways. See the tips below for how you can help keep our community's water clean this winter!

WINTER STORMWATER TIPS FOR YOUR PROPERTY

- **Shovel First, Salt Last:** Clean snow early and often to reduce the need for salt. If you must use salt - do so sparingly and sweep up left over salt after ice melts.
- **Choose Eco-Friendly Deicers:** Avoid products containing sodium chloride (rock salt) which harms plants, pets and aquatic life. Use sand or non-chlorping kitty litter for traction instead of chemical deicers.
- **Manage Snow Piles Wisely:** Pile snow on grassy areas where it can slowly melt and soak into the ground. Avoid stacking snow on top of storm drains or near waterways.
- **Store Chemicals Safely:** Keep deicing products,

SIMPLE STEPS YOU CAN TAKE AT HOME TO PROTECT LOCAL STREAMS & CREEKS!

PREVENTING STORMWATER POLLUTION

Winter is here, and with colder temps comes snow and ice that we need to remove from our sidewalks and driveways. To make this chore easier, many of us use deicers, like salt, at our homes. However, these chemical deicers often have harmful impacts on aquatic life and the water quality of local streams and creeks. Here are some tips to reduce salt use and prevent pollution this winter:

- **Reduce your salt use!** More salt does not mean less ice. Use deicing products sparingly and follow the label instructions. Sweep up any remaining salt before it is washed away.
- **Shovel first.** Shoveling early will prevent ice from forming, reducing the amount of salt you will need to use.
- **Plant natives that are salt tolerant!** This spring, plant salt tolerant, native perennials where stormwater runoff from your driveway or sidewalks accumulates. Butterfly milkweed is a great example of a salt tolerant PA native plant!

LEARN MORE AT:
www.perkijomenwatershed.org

SUPPORTING WILDLIFE THROUGH THE WINTER MONTHS

Colder temps and shorter days can make a lot of wildlife less active and harder for us to spot. However, many of our local citizens will appreciate a helping hand during the chilly months. Here are some ways to help wildlife this winter:

- **Leave seedheads standing.** Seeds provide food for birds and small mammals and hollow stems are valuable shelter for insects. Wait until early spring to cut back seedheads and perennial tops.
- **Provide a water source.** During freezing temps, make sure to thaw bird baths and other water sources for wildlife to utilize.
- **Feed the birds.** Food can become difficult to find in the winter months.

Fall Migration for Beginners at Fischer's Park

Saturday, September 6

7:30 am - 10:00 am

From swans to herons to songbirds, we never know what birding treasures we might find at Fischer's Park, a Bird Town jewel in Towamencin Township.

Come join resident Andrew Dolan and other VFAS volunteers as we explore the 1+ mile paved, and natural, access path. This is a great opportunity to learn about and spot fall migrants passing through, especially warblers and other songbirds, while also enjoying beautiful year-round favorites like bluebirds, cedar waxwings, various hawks, and more.

The route takes us along Towamencin Creek, through woods, and past fields, for an inviting assortment of possibilities.

New birders are very welcome, as are children if accompanied by an adult. Bring binoculars if you have them, we'll have several pairs to lend. Comfortable walking shoes are recommended (no flip flops or sandals).

Accessible restrooms are available on site.

Guides: Andrew Dolan, Eddie Dolan, Lynn Sowden, Jim Ermer, Connie Stevenson

On-Lot Sewage Disposal System Announcement

On July 9, 2025, the Board of Supervisors approved Ordinance 25-04, which updates the maintenance requirements for homeowners with on-lot sewage systems in the Township code.

With the passage of this ordinance, **inspections and pumping will now be required every three years in accordance with current DEP recommendations and are the homeowner's responsibility.**

All pumping must be performed by a sewage waste hauler approved by the Montgomery County Health Department (MCHD).

During pumping, a routine inspection of your on-lot system must be conducted, and a Routine Inspection Report must be completed. A copy of the inspection report form will be included with your inspection notice.

Within 10 days of the inspection, **the completed Inspection Report and proof of pumping must be submitted to the Township. A three-year On-lot Maintenance permit will then be issued** (fees apply).

A notice of when your property needs inspection and pumping will be sent in the spring of the year our records show you are due. Failure to obtain your permit within the year will be a violation of the code and may result in a citation.

On-lot Sewage System owners **may review the full ordinance to ensure your on-lot system complies with all requirements.** For more information, contact the Township Code Enforcement Officer or the MCHD.

For more information or questions regarding inspection, maintenance, pumping, and permits for on-lot sewage disposal systems, please contact the Township's Code Enforcement Department.

STREAM EXPLORERS WORKSHOP

SATURDAY, JULY 26TH
10:00 TO 11:30 AM

Calling all young nature detectives, ages 7-12!

Meet at the Pavilion next to the stream.

FREE EVENT!

Join us for a fun and splash-filled morning at Fischer Park for a Stream Study Adventure you won't forget! Dive into the fascinating world of stream science as we wade into the water to:

-  Search for bioindicators – tiny aquatic insects that reveal how healthy the stream is.
-  Test water quality – using real tools to investigate clarity, pH, and more!
-  Explore the stream ecosystem – discover plants, critters, and hidden wonders in and around the water.

This is hands-on science at its best—prepare to get wet and have a blast while learning how we can protect our local waterways.

Spots are limited, so grab your boots (or old sneakers) and get ready to become a Stream Explorer!

For more information or to register for this **FREE EVENT**, scan the QR code or visit:

Towamencin Township Native Habitat Restoration Project

Details Coming Soon

Welcome to the Towamencin Environmental Advisory Council (EAC) Native Habitat Restoration Project!

The EAC is proud to announce the launch of our Municipal Native Habitat Restoration Project - an exciting initiative combating invasive species and restoring native plant life in front of the municipal building. The designated “no-mow” area at the Municipal Complex is overrun by invasive Canada Thistle, one of Pennsylvania’s most aggressive species. Our goal is to eliminate invasive species, restore a thriving native habitat, and create an educational, welcoming green space for the community. This page serves as your hub for updates, information, and progress reports on one of our townships’ most exciting environmental initiatives.

The Issue

The designated no-mow area at the municipal building was overrun with Canada Thistle (*Cirsium arvense*), an aggressive and highly invasive weed. This plant is not just unsightly — it’s ecologically destructive. An infestation this size can produce up to 100 million seeds annually, carried by the wind to properties across the township. Towamencin municipal law prohibits leaving this noxious weed unmanaged on public lands.

What we are Doing

We are restoring the native habitat by applying methods based on the ecological process of succession.

Phase 1 – Invasive Species Removal (2025)

We started with three applications of environmentally responsible herbicides to eliminate 90–95% of the Canada Thistle population. Why are we using herbicides? While we strongly support natural solutions for smaller and less invaded areas, completely eradicating invasive species is essential — native plants cannot establish themselves while invasives dominate the soil and ecosystem, and hand weeding or other methods are only practical for small areas. For the restoration sites in Towamencin, the methods, including the chosen agents, timing, and amounts, were carefully evaluated for risk versus benefit and approved by ecologists and experts from the Penn State Master Gardeners, Morris Arboretum, Perkiomen Watershed Association, the EPA, or others. The techniques we used maximize ecological benefit and minimize risks to non-target species. Weeds, Inc., a licensed professional company with a solid reputation that has installed meadows for some of these organizations, was Towamencin’s choice for this task.

Phase 2 – Seeding Native Grasses (Fall 2025)

In November, we overseeded the area with a custom mix of native grasses, including:

58%	Little Bluestem	Schizachyrium scoparium
4%	Indiangrass	Soghastrum nutans
15%	Virginia Wild Rye	Elymus virginicus
5%	Deertongue	Panicum clandestrinum
5%	Bottle Brush Grass	Elymus hystrix
2%	Autumn Bentgrass	Argostis perennans
6%	Purpletop	Tridens flavus
5%	Broomsedge	Andropogon Virginicus

These grasses:

- Grow 2–5 feet tall
- Improve soil health through deep root systems
- Absorb stormwater and prevent erosion
- Outcompete thistle once established
- Provide food and shelter for wildlife
- These grasses should germinate quickly and begin establishing in spring 2026.

Phase 3 – Wildflowers & Native Trees (Fall of 2026)

Once the thistle has been controlled and the soil improved:

- We'll mow a perimeter strip to thin out the grasses and create room for wildflowers.

- We'll then overseed the area with a diverse mix of native wildflowers to add seasonal color and improve habitat diversity.

- At the same time, we'll plant native tree species within the interior providing:
 - Shade
 - A showcase of native flora
 - Expanded habitat for birds and other wildlife
 - Long-term support for wildlife, including pollinators and birds

Phase 4 – Community Access & Enhancements (2026 and beyond)

With the habitat restored, we'll focus on adding walking paths and eco-friendly amenities, such as:

- Benches
- Birdhouses

- Interpretive signage

This will foster a peaceful, educational environment where residents can connect with nature and understand the importance of native ecosystems.

Why It Matters

By replacing invasive species with resilient native plants, we'll be:

- Enhancing biodiversity
- Improving stormwater management
- Restoring soil health
- Creating habitat for pollinators, birds, and other wildlife
- Building a lasting environmental legacy for Towamencin

A Model for the Township

This project is more than just a restoration effort — it's a proof of concept.

We're starting with the no-mow area in front of the Towamencin Municipal Building, where the results will be highly visible to the community. This central location allows us to demonstrate the benefits of native habitat restoration while also carefully monitoring what works and what doesn't.

Our ultimate goal is to apply the lessons and methods learned here to other public spaces across Towamencin that are impacted by invasive overgrowth. With each successful project, we will keep building a healthier, more resilient environment for future generations.

Stay tuned for project updates, volunteer opportunities, and progress photos as we work together to transform this space into a thriving native habitat!

Appendix I:

Public Involvement/Participation Plan

Public Involvement & Participation Plan

Permittee Name:	Towamencin Township, Montgomery County, PA		
Mailing Address: 1090 Troxel Road	City, State, Zip: Lansdale, PA 19446		
MCM #2 Contact Person: David Kraynik	Title: Township Manager		
Phone Number: 215-368-7602	Email: dkraynik@towamencin.org		
Plan Goal: To encourage involvement in the municipal stormwater management program by providing opportunities for the public to participate in the decision-making processes associated with the development, implementation, and update of the Township's stormwater-related policies, ordinances, and projects.			
Target Audiences			
Efforts shall be made to engage the following groups in the decision-making processes associated with the development, implementation, and update of the SWMP and activities.			
Township Residents Township Businesses (Target Audiences and Strategies for Public Participation are included on the attached chart)			
Routine Communications			
The following methods shall be used to communicate with target audiences listed above.			
☒ Municipal Website url: towamencin.org		☒ Flyers Location: <u>Township Building Lobby</u>	
☒ Municipal Newsletter		Location: _____	
☒ Social Media Outreach		Location: _____	
☒ Facebook		☒ Target email	
☐ Twitter		Email list: <u>ENews through sign-up on</u>	
☐ Nextdoor		<u>Township website</u>	
☐ Other		☐ Mailings	
☐ Newspaper Advertisements Newspaper Name (s): _____		☐ Other: _____	

Public Involvement
Potential opportunities that may be provided to the public to participate in the development, update and implementation of the SWMP are listed below. <i>At least one public meeting or other MS4 event must be held during the 5-year permit coverage period to solicit participation and feedback from target audience groups.</i>
Event/Project: Required Public Meeting
Target Audience to be engaged: Residents in the Township
Description of Public Involvement: During a scheduled public meeting, there will be a discussion of the Township's Stormwater Management Program including progress that has been made, recently installed BMP projects and future planned BMPs and/or activities at least once before March 15, 2023. After the discussion by the Board of Commissioners, the public will be given time to ask questions and/or provide feedback. The Township had MS4 related discussions at public meetings on August 26, 2020, April 13, 2022, and March 8, 2023.
Event/Project: Illicit Discharge Reporting
Target Audience to be engaged: Residents/Businesses in the Township
Description of Public Involvement: Information on identifying and reporting of illicit discharges is provided on the Township website. Citizens are encouraged to report any suspected illicit discharges to the Township using the telephone number provided on the Township website.
Event/Project: Recycling/Hazardous Waste Collection
Target Audience to be engaged: Residents
Description of Public Involvement: The Township encourages residents to participate in the hazardous waste collection events in Montgomery County and use the "Retrievr" service for recycling. Events/information is posted on the Township website.
Event/Project: Perkiomen Watershed Conservancy Activities
Target Audience to be engaged: Residents/Businesses
Description of Public Involvement: The Township is a member of the Perkiomen Watershed Conservancy. The Conservancy offers numerous activities for the residents to become active participants in the environment and water quality including a large stream clean-up event usually around Earth Day. The Township has partnered with the Conservancy for tree planting along the Township's streams. Residents and Businesses are encouraged to participate in these activities.
Event/Project: PennDOT Adopt-a-Highway
Target Audience to be engaged: Residents/Businesses
Description of Public Involvement: The Township encourages participation in the PennDOT Adopt-a-Highway program by posting information on the Township website. The program provides opportunities to participate in keeping the state roads clean and reduces the amount of debris and pollution that could enter our streams, lakes and rivers.

* Attach Additional Sheets as Necessary

Public Involvement
Potential opportunities that may be provided to the public to participate in the development, update and implementation of the SWMP are listed below. <i>At least one public meeting or other MS4 event must be held during the 5-year permit coverage period to solicit participation and feedback from target audience groups.</i>
Event/Project: Towamencin Day
Target Audience to be engaged: Residents in the Township
Description of Public Involvement: The Township hosts an annual Towamencin Day. At these events, stormwater and/or water quality information is typically provided at a booth sponsored by the Township's Environmental Advisory Council.
Event/Project: Environmental Advisory Council
Target Audience to be engaged: Residents
Description of Public Involvement: The Environmental Advisory Council (EAC) is a volunteer committee that discusses environmental issues in the Township including stormwater/water quality information and MS4 permit requirements. The EAC typically sponsors an event for stream/park clean-up and invasive plant removal.
Event/Project: Bird Town Committee
Target Audience to be engaged: Residents
Description of Public Involvement: The Bird Town Committee is a volunteer committee that provides educational activities for the public to learn more about birds, native plants, and the environment.

Appendix J:

Illicit Discharge Detection & Elimination Plan

MCM #3: ILLICIT DISCHARGE, DETECTION & ELIMINATION PROGRAM

I. Unanticipated Non-Compliance or Potential Pollution Reporting

Immediate Reporting of Substance that is a danger of pollution or threat to property

If, because of an accident, other activity or incident, a toxic substance or another substance which would endanger users downstream from the discharge, or would otherwise result in pollution or create a danger of pollution or would damage property, the municipality shall:

- Immediately notify Pennsylvania Department of Environmental Protection (PADEP) by telephone of the location and nature of the danger:
 - 484-250-5900 between 8:00 AM and 4:00 PM
 - 1-800-541-2050 between 4:00 PM and 8:00 AM
- Oral notification to the PADEP is required as soon as possible, but no later than 4 hours after the permittee becomes aware of the incident causing or threatening pollution.
- If reasonably possible to do so, the municipality should immediately notify downstream users of the waters of the Commonwealth to which the substance was discharged including the location and nature of the discharge.
- The municipality shall take or cause to be taken steps necessary to prevent injury to property and downstream users of the waters from pollution or a danger of pollution.
- Within 15 days from the incident, the municipality shall remove the residual substances contained thereon or therein from the ground and from the affected waters of the Commonwealth to the extent required by law.

Reporting for Any Pollutants which may endanger health or the environment

- 24 Hour Reporting – The municipality shall orally report to PADEP any non-compliance with the MS4 permit which may endanger health or the environment within 24 hours from the time the municipality becomes aware of the circumstances.
- Written Report – A written submission must be provided to the PADEP within 5 days of the time the municipality becomes aware of any non-compliance which may endanger health or the environment. The written report should contain:
 - A description of the non-compliance and its cause
 - The period of non-compliance including exact dates and times
 - The anticipated time it is expected to continue if the non-compliance has not been corrected
 - Steps taken or planned to reduce, eliminate and prevent reoccurrence of the non-compliance
- Waiver of Written Report – PADEP may waive the written report on a case-by-case basis if the associated oral report has been received within 24 hours from the time the municipality becomes aware of the circumstances which may endanger health or the environment.

Reporting for Any Other Non-Compliance

- All instances of non-compliance that were not reported as described above should be reported in the MS4 Annual Report and include the items listed in the Written Report requirements above.

II. Identifying Priority Areas

Priority areas for potential illicit discharges would include areas where potential pollutants may be present. Priority areas may include:

- Industrial areas
- Commercial areas/restaurants
- Areas with on-lot sewage disposal systems
- Areas with known sanitary sewer overflows
- Areas with a past history of water pollution problems

III. Screening Outfalls

- All outfalls or observation points are to be screened during dry weather at least once during the 5-year permit period.
- Any outfalls where flow had been observed at the last screening should be screened annually.
- The PADEP MS4 Outfall Field Screening Report form should be used to record the results of the outfall screening for each location. The Report form must include the location, date, time, the name of the inspector and responses to all appropriate questions on the form. The form must be signed by the person responsible for the screening.
- If there is flow found during the dry weather screening, the discharge should be inspected for color, odor, floating solids, scum, sheen, and substances that result in observed deposits in the surface waters.
- If the discharge exhibits any of the characteristics listed above, the discharge should be sampled for field and/or laboratory analysis of one or more common illicit discharge parameters to determine if the flow contains an illicit substance.
- Possible parameters for analysis include, but are not limited to, the following:
 - pH
 - Conductivity
 - Fecal Coliform bacteria
 - Heavy Metals
 - Chemical Oxygen Demand (COD)
 - 5-day Biological Oxygen Demand (BOD5)
 - Total Suspended Solids (TSS)
 - Total Dissolved Oxygen (TDS)
 - Oil and Grease
 - Total Residual Chlorine (TRC)
 - Ammonia-Nitrogen
- Monitoring must be conducted according to test procedures approved under 40 CFR part 136 unless another method is required under 40 CFR Subchapters N or O.
- Proper quality assurance and quality control procedures must be followed when collecting, transporting, or analyzing water samples. If the samples are to be tested at a laboratory, the laboratory should be contacted to determine the type of container to use for the samples, the temperature that the sample should be kept and if there is a limited amount of time for the sample to be delivered to the laboratory for analysis.
- The results of the analysis shall be kept with the inspection report for the outfall or observation point.

MCM #3: ILLICIT DISCHARGE, DETECTION & ELIMINATION PROGRAM

- All screening reports and laboratory of field analysis information must be maintained by the municipality for at least 5 years from the date of the sample measurement or report.
- The municipality must make records available to the public at reasonable times during regular business hours.

IV. Identifying Source of an Illicit Discharge

If it is determined that there is an illicit discharge from an outfall or as a result of a complaint, the municipality should identify the potential source of the illicit discharge using the following strategies:

- Track the flow upstream along the storm sewer or through open channel flow to determine where the flow originates using the municipality's storm sewer mapping.
- If necessary, use laboratory analysis of samples from upstream locations to determine the presence or absence of the suspected illicit discharge substance(s).
- Once the source of the discharge is found, determine the owner or responsible party for the discharge by property records, field observation or other methods.

V. Eliminating an Illicit Discharge

Once the source of the illicit discharge and the responsible party are identified, the municipality should enforce their stormwater ordinance requirements by:

- Issuing a written notice to the responsible party to eliminate the illicit discharge and provide a limited time period for compliance if a violation causes no immediate danger to life, public health, or property.
- Confirm that the illicit discharge has been eliminated at the end of the allotted time.
- If the owner does not correct the violation within the allowed time period, the municipality may revoke or suspend any, or all, applicable approvals and permits pertaining to any provision of their ordinance.

VI. Assessing the Potential for Illicit Discharges associated with Wastewater

There is a potential for illicit discharges from failing on-lot sewage disposal systems or from leaking or overflowing sanitary sewer systems.

On-lot sewage disposal systems: The municipality should enforce their ordinances for the operation and maintenance of on-lot sewage disposal systems and be aware of any complaints reported to the County Sewage Enforcement Officer.

Public sanitary sewer: The municipality or municipal authority responsible for the sanitary sewer system should have a program to address sanitary sewer overflows and potential leaking sanitary sewer systems including inspection, reporting and repairs of the system as needed.

VII. Access to Private Property

The municipality should have a provision in their stormwater management ordinance that allows the municipal representative, upon presentation of proper credentials, to enter at reasonable times upon any property within the municipality to inspect the condition of the stormwater

MCM #3: ILLICIT DISCHARGE, DETECTION & ELIMINATION PROGRAM

structures and facilities in regard to any aspect regulated by the municipality's stormwater ordinance. The property owner should be contacted to notify them of the need to access the property.

VIII. Program Documentation, Evaluation and Assessment

Documentation of outfall inspections, sampling, illicit discharges evaluations, enforcement or corrections should be maintained by the municipality for a minimum of 5 years.

Storm sewer mapping and the illicit discharge detection and elimination program should be reviewed each year of the permit and updated as needed.

IX. Addressing Public Complaints

The municipality provides a method for the public to report complaints of potential illicit discharges.

- The public is directed to call the municipal office with information regarding illicit discharges or potential pollution. The telephone number is available on the municipal website.
- The information reported to the municipal office will be documented with the time, location and nature of the complaint/situation and the name and contact information of the reporting individual.
- The municipal staff receiving the complaint will forward the information to the appropriate party for investigation.
- The investigation and subsequent action or enforcement will be documented.

Appendix K:

Outfall Inspection Reports

MS4 OUTFALL FIELD SCREENING REPORT

BACKGROUND INFORMATION

Permittee Name: Towamencin Township	NPDES Permit No.: PAG130024
Date of Inspection: 4/29/26	Outfall ID No.: A26
Land Uses in Outfall Drainage Area (Select All):	Latitude: 40.2443921 ° _____ ' _____ "
☐ Industrial ☐ Urban Residential	Longitude: -75.3452874 ° _____ ' _____ "
☐ Commercial ☒ Suburban Residential	Dry Weather Inspection? ☒ Yes ☐ No
☐ Open Space ☐ Other:	Date of Previous Precipitation: 4/26/26
Inspector Name(s): Justin Burns	Amount of Previous Precipitation: 0.04 in
	Were Photographs Taken? ☒ Yes ☐ No
	Are Photographs Attached? ☐ Yes ☒ No

OUTFALL DESCRIPTION

TYPE	MATERIAL	SHAPE	DIMENSIONS	SUBMERGED
☒ Closed Pipe	☒ RCP ☐ CMP ☐ PVC ☐ HDPE ☐ Steel ☐ Other	☐ Circular ☐ Single ☒ Elliptical ☐ Double ☐ Box ☐ Triple ☐ Other ☐ Other	Diameter: 36 in	☒ In Water ☐ With Sediment 7" standing water
☐ Open Channel	☐ Concrete ☐ Earthen ☐ Rip-Rap ☐ Other	☐ Trapezoid ☐ Parabolic ☐ Other	Depth: _____ in Top Width: _____ in Bottom Width: _____	

Dry Weather Flow Present at Outfall During Inspection? ☐ Yes ☒ No (If No, skip to Certification Section)

Description of Flow Rate: ☐ Trickle ☐ Moderate ☐ Significant ☒ N/A

DRY WEATHER FLOW EVALUATION

Does the dry weather flow contain color? ☐ Yes ☐ No If Yes, provide a description below.

Does the dry weather flow contain an odor? ☐ Yes ☐ No If Yes, provide a description below.

Is there an observed change in the receiving waters as a result of the discharge? ☐ Yes ☐ No
If Yes, provide a description below.

Does the dry weather flow contain floating solids, scum, sheen or substances that result in deposits? ☐ Yes ☐ No
If Yes, provide a description below.

Were sample(s) collected of the dry weather flow? ☐ Yes ☐ No (If Yes, No. Samples: _____)					
FIELD / LABORATORY ANALYSIS					
PARAMETER	RESULTS	UNITS	PARAMETER	RESULTS	UNITS
Flow Rate		GPM	Fecal Coliform		No./100 mL
pH		S.U.	COD		mg/L
Total Residual Chlorine (TRC)		mg/L	BOD5		mg/L
Conductivity		µmhos/cm	TSS		mg/L
Ammonia-Nitrogen		mg/L	TDS		mg/L
Other: _____			Oil and Grease		mg/L
Other: _____			Other: _____		
Indicate the parameters above that were analyzed by a DEP-certified laboratory:					
ILLICIT DISCHARGES					
Is the dry weather flow an illicit discharge? ☐ Yes ☐ No					
If Yes, describe efforts made to determine the source(s) of the illicit discharge.					
Describe corrective actions taken by the permittee in response to the finding of an illicit discharge.					
Inspector Comments: About 7" standing water. Neighbor came out and said he digs the channel by hand every few years b/c there is constantly 6-12" of standing water in pipe. (420 Candlewood Way)

FIELD / LABORATORY ANALYSIS

PARAMETER	RESULTS	UNITS	PARAMETER	RESULTS	UNITS
Flow Rate		GPM	Fecal Coliform		No./100 mL
pH		S.U.	COD		mg/L
Total Residual Chlorine (TRC)		mg/L	BOD5		mg/L
Conductivity		µmhos/cm	TSS		mg/L
Ammonia-Nitrogen		mg/L	TDS		mg/L
Other: _____			Oil and Grease		mg/L
Other: _____			Other: _____		

Indicate the parameters above that were analyzed by a DEP-certified laboratory:

ILLICIT DISCHARGES

Is the dry weather flow an illicit discharge? ☐ Yes ☐ No

If Yes, describe efforts made to determine the source(s) of the illicit discharge.

Describe corrective actions taken by the permittee in response to the finding of an illicit discharge.

Inspector Comments:

RESPONSIBLE OFFICIAL CERTIFICATION

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowledge of violations. See 18 Pa. C.S. § 4904 (relating to unsworn falsification).

Does the dry weather flow contain an odor? ☐ Yes ☐ No If Yes, provide a description below.

Is there an observed change in the receiving waters as a result of the discharge? ☐ Yes ☐ No
If Yes, provide a description below.

Does the dry weather flow contain floating solids, scum, sheen or substances that result in deposits? ☐ Yes ☐ No
If Yes, provide a description below.

Were sample(s) collected of the dry weather flow? ☐ Yes ☐ No (If Yes, No. Samples: _____)

FIELD / LABORATORY ANALYSIS

PARAMETER	RESULTS	UNITS	PARAMETER	RESULTS	UNITS
Flow Rate		GPM	Fecal Coliform		No./100 mL
pH		S.U.	COD		mg/L
Total Residual Chlorine (TRC)		mg/L	BOD5		mg/L
Conductivity		µmhos/cm	TSS		mg/L
Ammonia-Nitrogen		mg/L	TDS		mg/L
Other: _____			Oil and Grease		mg/L
Other: _____			Other: _____		

Indicate the parameters above that were analyzed by a DEP-certified laboratory:

ILLICIT DISCHARGES

Is the dry weather flow an illicit discharge? ☐ Yes ☐ No

If Yes, describe efforts made to determine the source(s) of the illicit discharge.

Describe corrective actions taken by the permittee in response to the finding of an illicit discharge.

Inspector Comments:

RESPONSIBLE OFFICIAL CERTIFICATION

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowledge of violations. See 18 Pa. C.S. § 4904 (relating to unsworn falsification).

DRY WEATHER FLOW EVALUATION

Does the dry weather flow contain color? ☐ Yes ☒ No If Yes, provide a description below.

Does the dry weather flow contain an odor? ☐ Yes ☒ No If Yes, provide a description below.

Is there an observed change in the receiving waters as a result of the discharge? ☐ Yes ☒ No
If Yes, provide a description below.

Does the dry weather flow contain floating solids, scum, sheen or substances that result in deposits? ☐ Yes ☒ No
If Yes, provide a description below.

Were sample(s) collected of the dry weather flow? ☐ Yes ☒ No (If Yes, No. Samples: _____)

FIELD / LABORATORY ANALYSIS

PARAMETER	RESULTS	UNITS	PARAMETER	RESULTS	UNITS
Flow Rate		GPM	Fecal Coliform		No./100 mL
pH		S.U.	COD		mg/L
Total Residual Chlorine (TRC)		mg/L	BOD5		mg/L
Conductivity		µmhos/cm	TSS		mg/L
Ammonia-Nitrogen		mg/L	TDS		mg/L
Other: _____			Oil and Grease		mg/L
Other: _____			Other: _____		

Indicate the parameters above that were analyzed by a DEP-certified laboratory:

ILLICIT DISCHARGES

Is the dry weather flow an illicit discharge? ☐ Yes ☐ No

If Yes, describe efforts made to determine the source(s) of the illicit discharge.

Describe corrective actions taken by the permittee in response to the finding of an illicit discharge.

Inspector Comments:

RESPONSIBLE OFFICIAL CERTIFICATION

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowledge of violations. See 18 Pa. C.S. § 4904 (relating to unsworn falsification).

OUTFALL DESCRIPTION

TYPE	MATERIAL	SHAPE	DIMENSIONS	SUBMERGED
☒ Closed Pipe <i>Inspected Type M inlet upstream</i>	☐ RCP ☒ CMP ☐ PVC ☐ HDPE ☐ Steel ☐ Other	☒ Circular ☒ Single ☐ Elliptical ☐ Double ☐ Box ☐ Triple ☐ Other ☐ Other	Diameter: 36 in	☐ In Water ☐ With Sediment
☐ Open Channel	☐ Concrete ☐ Earthen ☐ Rip-Rap ☐ Other	☐ Trapezoid ☐ Parabolic ☐ Other	Depth: _____ in Top Width: _____ in Bottom Width: _____	

Dry Weather Flow Present at Outfall During Inspection? ☒ Yes ☐ No (If No, skip to Certification Section)

Description of Flow Rate: ☐ Trickle ☒ Moderate ☐ Significant ☐ N/A

DRY WEATHER FLOW EVALUATION

Does the dry weather flow contain color? ☐ Yes ☒ No If Yes, provide a description below.

Does the dry weather flow contain an odor? ☐ Yes ☒ No If Yes, provide a description below.

Is there an observed change in the receiving waters as a result of the discharge? ☐ Yes ☒ No
If Yes, provide a description below.

Does the dry weather flow contain floating solids, scum, sheen or substances that result in deposits? ☐ Yes ☒ No
If Yes, provide a description below.

Were sample(s) collected of the dry weather flow? ☐ Yes ☒ No (If Yes, No. Samples: ____)

FIELD / LABORATORY ANALYSIS

PARAMETER	RESULTS	UNITS	PARAMETER	RESULTS	UNITS
Flow Rate		GPM	Fecal Coliform		No./100 mL
pH		S.U.	COD		mg/L
Total Residual Chlorine (TRC)		mg/L	BOD5		mg/L
Conductivity		µmhos/cm	TSS		mg/L
Ammonia-Nitrogen		mg/L	TDS		mg/L
Other: ____			Oil and Grease		mg/L
Other: ____			Other: ____		

Indicate the parameters above that were analyzed by a DEP-certified laboratory:

ILLICIT DISCHARGES

Is the dry weather flow an illicit discharge? ☐ Yes ☐ No

If Yes, describe efforts made to determine the source(s) of the illicit discharge.

Describe corrective actions taken by the permittee in response to the finding of an illicit discharge.

Inspector Comments:

RESPONSIBLE OFFICIAL CERTIFICATION

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowledge of violations. See 18 Pa. C.S. § 4904 (relating to unsworn falsification).

OUTFALL DESCRIPTION

TYPE	MATERIAL	SHAPE	DIMENSIONS	SUBMERGED
☒ Closed Pipe	☒ DRCP ☐ CMP ☐ PVC ☐ HDPE ☐ Steel ☐ Other	☒ Circular ☒ Single ☐ Elliptical ☐ Double ☐ Box ☐ Triple ☐ Other ☐ Other	Diameter: 24 in	☐ In Water ☐ With Sediment
☐ Open Channel	☐ Concrete ☐ Earthen ☐ Rip-Rap ☐ Other	☐ Trapezoid ☐ Parabolic ☐ Other	Depth: _____ in Top Width: _____ in Bottom Width: _____	

Dry Weather Flow Present at Outfall During Inspection? ☐ Yes ☒ No (If No, skip to Certification Section)

Description of Flow Rate: ☐ Trickle ☐ Moderate ☐ Significant ☒ N/A

DRY WEATHER FLOW EVALUATION

Does the dry weather flow contain color? ☐ Yes ☐ No If Yes, provide a description below.

Does the dry weather flow contain an odor? ☐ Yes ☐ No If Yes, provide a description below.

Is there an observed change in the receiving waters as a result of the discharge? ☐ Yes ☐ No
If Yes, provide a description below.

Does the dry weather flow contain floating solids, scum, sheen or substances that result in deposits? ☐ Yes ☐ No
If Yes, provide a description below.

Were sample(s) collected of the dry weather flow? ☐ Yes ☐ No (If Yes, No. Samples: _____)					
FIELD / LABORATORY ANALYSIS					
PARAMETER	RESULTS	UNITS	PARAMETER	RESULTS	UNITS
Flow Rate		GPM	Fecal Coliform		No./100 mL
pH		S.U.	COD		mg/L
Total Residual Chlorine (TRC)		mg/L	BOD5		mg/L
Conductivity		µmhos/cm	TSS		mg/L
Ammonia-Nitrogen		mg/L	TDS		mg/L
Other: _____			Oil and Grease		mg/L
Other: _____			Other: _____		
Indicate the parameters above that were analyzed by a DEP-certified laboratory:					
ILLICIT DISCHARGES					
Is the dry weather flow an illicit discharge? ☐ Yes ☐ No					
If Yes, describe efforts made to determine the source(s) of the illicit discharge.					
Describe corrective actions taken by the permittee in response to the finding of an illicit discharge.					
Inspector Comments:					
RESPONSIBLE OFFICIAL CERTIFICATION					
I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. MS4 OUTFALL FIELD SCREENING REPORT

BACKGROUND INFORMATION

Permittee Name: Towamencin Township	NPDES Permit No.: PAG130024
Date of Inspection: 6/1/2026	Outfall ID No.: C4
Land Uses in Outfall Drainage Area (Select All):	Latitude: 40.2444512 ° 00 ' 00 "
☐ Industrial ☐ Urban Residential	Longitude: -75.3091003 ° 00 ' 00 "
☐ Commercial ☒ Suburban Residential	Dry Weather Inspection? ☒ Yes ☐ No
☐ Open Space ☐ Other:	Date of Previous Precipitation: 5/27/26
	Amount of Previous Precipitation: 0.23 in
Inspector Name(s): Justin Burns	Were Photographs Taken? ☒ Yes ☐ No
	Are Photographs Attached? ☐ Yes ☐ No

OUTFALL DESCRIPTION

TYPE	MATERIAL	SHAPE	DIMENSIONS	SUBMERGED
☒ Closed Pipe <i>drops down into stream</i>	☐ RCP ☐ CMP ☐ PVC ☐ HDPE ☐ Steel ☐ Other	☐ Circular ☐ Single ☐ Elliptical ☐ Double ☐ Box ☐ Triple ☐ Other ☐ Other	Diameter: 34 in	☐ In Water ☐ With Sediment
☐ Open Channel	☐ Concrete ☐ Earthen ☐ Rip-Rap ☐ Other	☐ Trapezoid ☐ Parabolic ☐ Other	Depth: _____ in Top Width: _____ in Bottom Width: _____	

Dry Weather Flow Present at Outfall During Inspection? ☐ Yes ☒ No (If No, skip to Certification Section)

Description of Flow Rate: ☐ Trickle ☐ Moderate ☐ Significant ☒ N/A

DRY WEATHER FLOW EVALUATION

Does the dry weather flow contain color? ☐ Yes ☐ No If Yes, provide a description below.

Does the dry weather flow contain an odor? ☐ Yes ☐ No If Yes, provide a description below.

Is there an observed change in the receiving waters as a result of the discharge? ☐ Yes ☐ No
If Yes, provide a description below.

Does the dry weather flow contain floating solids, scum, sheen or substances that result in deposits? ☐ Yes ☐ No
If Yes, provide a description below.

Were sample(s) collected of the dry weather flow? ☐ Yes ☐ No (If Yes, No. Samples: _____)					
FIELD / LABORATORY ANALYSIS					
PARAMETER	RESULTS	UNITS	PARAMETER	RESULTS	UNITS
Flow Rate		GPM	Fecal Coliform		No./100 mL
pH		S.U.	COD		mg/L
Total Residual Chlorine (TRC)		mg/L	BOD5		mg/L
Conductivity		µmhos/cm	TSS		mg/L
Ammonia-Nitrogen		mg/L	TDS		mg/L
Other: _____			Oil and Grease		mg/L
Other: _____			Other: _____		
Indicate the parameters above that were analyzed by a DEP-certified laboratory:					
ILLICIT DISCHARGES					
Is the dry weather flow an illicit discharge? ☐ Yes ☐ No					
If Yes, describe efforts made to determine the source(s) of the illicit discharge.					
Describe corrective actions taken by the permittee in response to the finding of an illicit discharge.					
Inspector Comments:					
RESPONSIBLE OFFICIAL CERTIFICATION					
I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowledge of violations. See 18 Pa. C.S. § 4904 (relating to unsworn falsification).

MS4 OUTFALL FIELD SCREENING REPORT

BACKGROUND INFORMATION

Permittee Name: Towamencin Township	NPDES Permit No.: PAG130024
Date of Inspection: 6/1/2026	Outfall ID No.: B16a
Land Uses in Outfall Drainage Area (Select All): ☐ Industrial ☐ Urban Residential ☐ Commercial ☒ Suburban Residential ☐ Open Space ☐ Other:	Latitude: 40.2521338 ° ____ ' ____ "
	Longitude: -76.3129463 ° ____ ' ____ "
	Dry Weather Inspection? ☒ Yes ☐ No
	Date of Previous Precipitation: 5/27/26
	Amount of Previous Precipitation: 0.23 in
Inspector Name(s): Justin Burns	Were Photographs Taken? ☒ Yes ☐ No
	Are Photographs Attached? ☐ Yes ☐ No

OUTFALL DESCRIPTION

TYPE	MATERIAL	SHAPE	DIMENSIONS	SUBMERGED
☐ Closed Pipe	☐ RCP ☐ CMP ☐ PVC ☐ HDPE ☐ Steel ☐ Other	☐ Circular ☐ Single ☐ Elliptical ☐ Double ☐ Box ☐ Triple ☐ Other ☐ Other	Diameter: ____ in	☐ In Water ☐ With Sediment
☒ Open Channel	☐ Concrete ☒ Earthen ☐ Rip-Rap ☐ Other	☐ Trapezoid ☒ Parabolic ☐ Other	Depth: 8 in Top Width: 16 in Bottom Width: ____	

Dry Weather Flow Present at Outfall During Inspection? ☐ Yes ☒ No (If No, skip to Certification Section)

Description of Flow Rate: ☐ Trickle ☐ Moderate ☐ Significant ☒ N/A

DRY WEATHER FLOW EVALUATION

Does the dry weather flow contain color? ☐ Yes ☐ No If Yes, provide a description below.

Does the dry weather flow contain an odor? ☐ Yes ☐ No If Yes, provide a description below.

Is there an observed change in the receiving waters as a result of the discharge? ☐ Yes ☐ No
If Yes, provide a description below.

Does the dry weather flow contain floating solids, scum, sheen or substances that result in deposits? ☐ Yes ☐ No
If Yes, provide a description below.

Were sample(s) collected of the dry weather flow? ☐ Yes ☐ No (If Yes, No. Samples: _____)

FIELD / LABORATORY ANALYSIS

PARAMETER	RESULTS	UNITS	PARAMETER	RESULTS	UNITS
Flow Rate		GPM	Fecal Coliform		No./100 mL
pH		S.U.	COD		mg/L
Total Residual Chlorine (TRC)		mg/L	BOD5		mg/L
Conductivity		µmhos/cm	TSS		mg/L
Ammonia-Nitrogen		mg/L	TDS		mg/L
Other: _____			Oil and Grease		mg/L
Other: _____			Other: _____		

Indicate the parameters above that were analyzed by a DEP-certified laboratory:

ILLICIT DISCHARGES

Is the dry weather flow an illicit discharge? ☐ Yes ☐ No

If Yes, describe efforts made to determine the source(s) of the illicit discharge.

Describe corrective actions taken by the permittee in response to the finding of an illicit discharge.

Inspector Comments:

RESPONSIBLE OFFICIAL CERTIFICATION

ILLICIT DISCHARGES

Is the dry weather flow an illicit discharge? ☐ Yes ☐ No

If Yes, describe efforts made to determine the source(s) of the illicit discharge.

Describe corrective actions taken by the permittee in response to the finding of an illicit discharge.

Inspector Comments:

RESPONSIBLE OFFICIAL CERTIFICATION

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowledge of violations. See 18 Pa. C.S. § 4904 (relating to unsworn falsification).

MS4 OUTFALL FIELD SCREENING REPORT

BACKGROUND INFORMATION

Permittee Name: Towamencin Township	NPDES Permit No.: PAG130024
Date of Inspection: 6/1/2026	Outfall ID No.: A3
Land Uses in Outfall Drainage Area (Select All):	Latitude: 40.2579828 ° 00 ' 00 "
☐ Industrial ☐ Urban Residential	Longitude: -75.3331946 ° 00 ' 00 "
☐ Commercial ☒ Suburban Residential	Dry Weather Inspection? ☒ Yes ☐ No
☐ Open Space ☐ Other:	Date of Previous Precipitation: 5/27/26
Inspector Name(s): Justin Burns	Amount of Previous Precipitation: 0.23 in
	Were Photographs Taken? ☒ Yes ☐ No
	Are Photographs Attached? ☐ Yes ☐ No

OUTFALL DESCRIPTION

TYPE	MATERIAL	SHAPE	DIMENSIONS	SUBMERGED
☒ Closed Pipe <i>inspected inlet on south side of Tomlinson Rd.</i>	☒ RCP ☐ CMP ☐ PVC ☐ HDPE ☐ Steel ☐ Other	☒ Circular ☒ Single ☐ Elliptical ☐ Double ☐ Box ☐ Triple ☐ Other ☐ Other	Diameter: 30 in	☐ In Water ☐ With Sediment
☐ Open Channel	☐ Concrete ☐ Earthen ☐ Rip-Rap ☐ Other	☐ Trapezoid ☐ Parabolic ☐ Other	Depth: _____ in Top Width: _____ in Bottom Width: _____	

Dry Weather Flow Present at Outfall During Inspection? ☐ Yes ☒ No (If No, skip to Certification Section)

Description of Flow Rate: ☐ Trickle ☐ Moderate ☐ Significant ☒ N/A

DRY WEATHER FLOW EVALUATION

Does the dry weather flow contain color? ☐ Yes ☐ No If Yes, provide a description below.

Does the dry weather flow contain an odor? ☐ Yes ☐ No If Yes, provide a description below.

Is there an observed change in the receiving waters as a result of the discharge? ☐ Yes ☐ No
If Yes, provide a description below.

Does the dry weather flow contain floating solids, scum, sheen or substances that result in deposits? ☐ Yes ☐ No
If Yes, provide a description below.

Were sample(s) collected of the dry weather flow? ☐ Yes ☐ No (If Yes, No. Samples: _____)

FIELD / LABORATORY ANALYSIS

PARAMETER	RESULTS	UNITS	PARAMETER	RESULTS	UNITS
Flow Rate		GPM	Fecal Coliform		No./100 mL
pH		S.U.	COD		mg/L
Total Residual Chlorine (TRC)		mg/L	BOD5		mg/L
Conductivity		µmhos/cm	TSS		mg/L
Ammonia-Nitrogen		mg/L	TDS		mg/L
Other: _____			Oil and Grease		mg/L
Other: _____			Other: _____		

Indicate the parameters above that were analyzed by a DEP-certified laboratory:

ILLICIT DISCHARGES

Is the dry weather flow an illicit discharge? ☐ Yes ☐ No

If Yes, describe efforts made to determine the source(s) of the illicit discharge.

Describe corrective actions taken by the permittee in response to the finding of an illicit discharge.

Appendix M:

Operation & Maintenance Plan

MCM #6: GOOD HOUSEKEEPING FOR MUNICIPAL OPERATIONS

BMP #1: Inventory of Facilities and Activities

<i>Facility/Activity</i>	<i>Storm Sewer System Impact</i>	<i>Discharge To:</i>	<i>O&M Responsibilities</i>	<i>Attachment</i>
Public Works Yard, 1979 Bustard Rd.	Runoff from Yard	Towamencin Creek	Vehicle Maintenance, Material Storage	1
Streets	inlets, storm sewers, swales	Skippack Creek, Towamencin Creek	Inlet Cleaning, Maintenance of Storm Sewers and Swales	2
Township Owned Properties	inlets, storm sewers, swales, stormwater facilities	Skippack Creek, Towamencin Creek	Inlet Cleaning, Maintenance of Stormwater Management Facilities	3

MCM #6: GOOD HOUSEKEEPING FOR MUNICIPAL OPERATIONS

BMP #2: O&M Actions

Contact: Steve McMasters, Public Works

Attachment #1: Public Works Yard, 1979 Bustard Road

<i>Responsibility</i>	<i>When and How Often?</i>	<i>Actions</i>	<i>Additional Considerations</i>
Maintenance Operations	Daily	• Perform maintenance of equipment and vehicles in building • Eliminate leaks in vehicles and equipment. Use drip pans as needed • Minimize use of solvents. Non-hazardous cleaners and solvents will be used whenever possible. • Follow spill prevention and control measures and maintain a supply of materials for the cleanup of spills • Recycle used oil • Maintain appropriate signage • Keep area clean • Indoor floor drains will not be connected to the storm sewer	
Vehicle Washing	As needed	• Utilize commercial car wash whenever possible • If washed on-site, perform washing in building or on grass or permeable surface. No wash water shall enter the storm sewer or stream • Use phosphate-free biodegradable detergents when possible	
Road Salt Maintenance	Daily, when in use	• Keep rain off of stored road salt • Calibrate spreaders • Haul and stock salt during dry weather • Sweep up spills around salt/loading area	
Fuel	Daily	• All fueling operations will be monitored to prevent or react to spills • All spills to be cleaned up immediately. • Topping off of vehicle fuel tanks is discouraged • Above ground storage tanks are maintained within a suitable secondary containment area. • Appropriate clean up materials such as oil dry or absorbent pads will be maintained at the fueling area and will be used to prevent spillage from entering the storm sewer.	

MCM #6: GOOD HOUSEKEEPING FOR MUNICIPAL OPERATIONS

BMP #2: O&M Actions

Attachment #2: Streets, 57.73 miles

<i>Responsibility</i>	<i>When and How Often?</i>	<i>Actions</i>	<i>Additional Considerations</i>
Inlets	Annually	Inspect and clean inlets in Township roads	Check inlets after heavy rain as needed
Swales	Annually	Inspect for erosion and stabilize as needed	Check inlets after heavy rain as needed
Storm Sewers	Annually and As Needed	Verify storm sewers are functioning and clean or repair as needed	
Street Sweeping	Annually and As Needed	Sweep township owned streets to collect and properly dispose of collected debris.	
Snow Removal/Deicing	As needed	Salting and plowing the roads, as needed, during and after a snow or ice event	Minimize the amount of salt used on the roadways
Street Paving/Repair	As needed	Milling, patching, paving or repairs of Township Roads is conducted as needed	

MCM #6: GOOD HOUSEKEEPING FOR MUNICIPAL OPERATIONS

BMP #2: O&M Actions

Attachment #3: Township Owned Property

<i>Responsibility</i>	<i>When and How Often?</i>	<i>Actions</i>	<i>Additional Considerations</i>
Parks	Seasonally	• Maintain lawn areas • Verify all areas are stabilized to prevent erosion • Maintain parking areas and clean inlets, storm sewers or swales associated with parking lots	See list of park attached.
Open Space	Annually	• Inspect swales and vegetated areas for eroded areas and stabilize as needed • Inspect streambank for eroded areas	Some open spaces areas are along the stream corridor of Towamencin Creek
Township Pool	Seasonally	• Maintain lawn areas • Verify all areas are stabilized to prevent erosion • Maintain parking areas and clean inlets, storm sewers or swales associated with parking lots • Maintain permeable pavement, vacuum as needed	
Stormwater Basins and/or Rain Gardens	Annually and As Needed	• Maintain appropriate vegetation • Address any eroded areas • Verify that basin or rain garden is functioning properly	Check stormwater management facilities after heavy rain as needed
Township Office, 1090 Troxel Road	Seasonally	• Maintain lawn areas • Verify all areas are stabilized to prevent erosion • Maintain parking areas and clean inlets, storm sewers or swales associated with parking lots	

MCM #6: GOOD HOUSEKEEPING FOR MUNICIPAL OPERATIONS

BMP #2: O&M Actions

Attachment #3: Township Owned Property

Township-Owned Stormwater Basins or Rain Gardens:

<i>Type of Stormwater Management Facility</i>	<i>Location</i>	<i>O&M Needs</i>
Wet Pond	Township Building, 1090 Troxel Road, Lansdale, PA 19446	• Inspect outlet structure, outfall pipe, incoming storm sewers and repair as needed • Inspect after major storm events
Rain Garden	Fischer's Park	• Inspect vegetation • Inspect and maintain outlet structure • Inspect after major storm events
Detention Basins	Grist Mill Park	• Inspect outlet structure, outfall pipe, incoming storm sewers and repair as needed • Inspect after major storm events

MCM #6: GOOD HOUSEKEEPING FOR MUNICIPAL OPERATIONS

BMP #2: O&M Actions

Attachment #3: Township Owned Property

Township Parks:

<i>Name of Park</i>	<i>Location</i>	<i>Facilities</i>	<i>Watershed</i>
Bustard Park	1979 Bustard Rd Harleysville, PA 19438	2 softball fields, 3 soccer fields and 10 junior league baseball fields	Towamencin Creek Watershed
Butch Clemens Park	130 Forty Foot Rd, Lansdale, PA	Baseball Field	Skippack Creek Watershed
Drinnon Park	670 Drinnon Way, Lansdale, PA 19446	Neighborhood playground	Towamencin Creek Watershed
Firehouse Park	1601 Bustard Road, Harleysville, PA 19438	Park with walking trails	Towamencin Creek Watershed
Fischer's Park	2225 Bustard Rd Lansdale, PA 19446	77-acre park with 2 playgrounds, amphitheater, nature trails, pavilion, baseball field and multi-use open areas	Towamencin Creek Watershed
Green Lane Park	2201 Kriebel Rd Lansdale PA 19446	Park with 2 baseball fields	Towamencin Creek Watershed
Grist Mill Park	1611 Allentown Rd, Lansdale, PA 19446	54 acres of area around the Grist Mill Neighborhood and Jacob's Woods with soccer fields and natural areas	Headwaters of Towamencin Creek Watershed
Heebner Way Park	1600 Heebner Way, Lansdale, PA 19446	2-acre neighborhood park with small ballfield and tennis court	Towamencin Creek Watershed
Kibler Meadows Park	2365 Kerr Rd, Harleysville, PA 19438	35 acres of meadow	Towamencin Creek Watershed
Morgan Way Park	1610 Morgan Way, Lansdale, PA 19446	2-acre playground with swings and slide	Towamencin Creek Watershed
Valley View Way Park	2005 Valley View Way, Lansdale, PA 19446	4-acre facility with two new play surfaces and family seating area	Towamencin Creek Watershed

Appendix N:

Training Program

Training Program Towamencin Township

Persons to receive Training for MS4 Topics	Type of Training	MS4 Topics for Training
Township Supervisors	Provide information at Public Meetings. Attend workshops or seminars, as needed.	All MS4 Requirements and Regulations.
Volunteer Township Committee Members	Provide information at Public Meetings. Encourage Participation in Township events such as Towamencin Community Day and the Annual Stream Clean-Up where training or educational information is available.	All MS4 Requirements and Regulations especially Public Education, Public Participation and Post-Construction Stormwater Management Requirements.
Township Zoning Office and L&I Staff/Consultants	Provide information on Stormwater Management Requirements. Attend workshops or seminars, as appropriate.	All MS4 Requirements and Regulations especially Public Education, Public Participation, Illicit Discharge Detection and Elimination and Post-Construction Stormwater Management Requirements.
Public Works Employees	Provide information on O&M procedures and good housekeeping procedures. Attend workshops or seminars, as appropriate.	All MS4 Requirements and Regulations especially Pollution Prevention/Good Housekeeping for Municipal Operations and Post Construction Stormwater Management.
Township Engineers	Attend or participate in webinars, seminars, PADEP workshops, etc. to remain current on MS4 requirements and regulations and to provide guidance to the municipality.	All MS4 Requirements and Regulations.
Township Police	Provide information on the required response for any reported illicit discharges or other stormwater related issues.	All MS4 Requirements and Regulations especially Illicit Discharge Detection and Elimination.
